

Looks Like a Big Season for Young Folks Sunday Club

By J. A. H.

Well, folks, it looked last Sunday evening very much as though the Winnetka Sunday Evening club were going to re-incorporate as the Ananias club. At the instigation of "Dave" Lasier, the president, various members told of strange experiences of the past summer.

We heard the inside story of General Pershing's retirement and listened in awe to the recital of certain investigations into supernatural phenomena as related by one of our village notables. No, we cannot mention names because the whole affair seemed like a meeting of the Ananias club.

The point of this news note is that any one who was not present last Sunday evening missed a very enjoyable time. (Even more enjoyable evenings are planned. See below.) The club has started with all the energy it had last spring and more too for a good many new members were added to the roll.

Now as to future programs. The club will be presented with a wide variety of outside talent—musical programs, dramatic readings, interesting lectures, and a host of other attractive activities. It is darkly hinted that there will also be short Sunday afternoon hikes ending up at Community House for supper, and later on when the weather is propitious there will be skating and sleigh-riding parties.

So all you young folks, older than high school age, who have not yet joined, had better shake yourselves and climb aboard at the next meeting. Come to Community House (Camp Fire room) at 6:30 o'clock, Sunday afternoon, October 19. Supper will be served.

Eye Strain

is not a disease but an eye "out of focus" or out of shape. Medicine will not help a condition of this kind, and glasses alone will relieve the strain.

The drain on the nervous system of even a slight strain is responsible for a great many of our ills affecting the nerves, head and stomach. Indigestion and dizziness are amongst the most common symptoms of eye-strain.

A Thorough Examination alone will reveal eyestrain.
