

## TELLS DANGERS OF WATER 'CUT'

**Sanitary District Engineer Finds Curtailment Endangers North Shore**

### POISONS LAKE WATER

**Wilmette Harbor Seriously Affected**

How seriously the curtailment of the amount of water Chicago and the Sanitary District can take from Lake Michigan will affect the north shore was pointed out this week by Edward J. Kelly, chief engineer of the Sanitary District.

According to Mr. Kelly such curtailment would result in a pollution of the lake that would endanger bathing and water supply; would cause a back-up of sewage in the drainage which would be without a flow, and would close the Wilmette harbor and canal to yachts and pleasure boats.

#### Endangers North Shore

"The recent decision of the Supreme court to limit the flow of the Sanitary canal to 4,167 cubic feet per second, 6,000 feet less than the present flow, is a danger to the entire north shore as well as the city of Chicago," Mr. Kelly pointed out. "The Sanitary canal requires 2,000 feet per second in normal times to care for its own flow. This leaves little more than 2,000 feet to care for the sewage of the entire north shore and Chicago district.

"When this ban of the supreme court goes into effect," Mr. Kelly stated, "the drainage canal will be without a flow. The dirty back water from the Chicago river will flow into it, even possibly as far as Evanston, giving the north shore a stagnant tadpole ditch. I am sure that the north shore does not enjoy the prospect of a mossy cesspool in its back yard to breed mosquitoes and vermin.

"Wilmette harbor would be seriously affected and the canal would be impossible for yachts and pleasure boats," he added.

#### "Give Us Time"

"Our \$13,600,000 north shore sewage plant, which will be completed in 1928, will amply take care of the sewage disposal for the entire north shore, but until Chicago can handle her refuse problem satisfactorily, the vicinity of the drainage channel is going to be mighty unpleasant outside of the health standpoint, which is more important.

"If Washington would only give us a little time, it wouldn't be long before Chicago could do without the 10,000 cubic feet per second consumption, which is absolutely vital to the welfare of her citizens at the present time. The sanitary district to date has spent some \$29,000,000, and we have already let contracts for \$23,000,000 additional. Few people realize to any great extent the grave import on this problem, and not until they have been educated to the situation will their opposition be overcome."

### College Requirements Subject for P. T. A.

Principal Frederick E. Clerk will address the senior section of the Parent-Teacher association of New Trier high school Tuesday evening, February 10, at 7:30 o'clock. His subject will be "College Entrance Requirements as they affect High School Seniors."

After the address there will be an opportunity for the parents and teachers to get acquainted with each other in an informal meeting.

### New Trier Students Plan Tour to Washington, D. C.

A number of New Trier High school students are planning to take advantage of the reduced fare tours offering visits to Washington, D. C., Gettysburg, Arlington and Mount Vernon, including a trip down the historic Potomac, during the Easter vacation period.

The students will be accompanied by teachers so that the expedition will provide unusual educational advantages.

**NOTICE OF AUCTION SALE**  
NOTICE IS HEREBY GIVEN TO:  
GEORGE LESLIE  
and to all others that may be interested herein that there will be sold at public auction at the warehouse rooms of the IREDALE FIREPROOF WAREHOUSE, 560 Center Street, Winnetka, Cook County, Illinois, beginning at ten o'clock in the forenoon of the 5th day of March, 1925, to satisfy the warehouseman's lien now held by the undersigned against

Winnetka, Illinois.

## MISTER INX IS STEPPING ABOUT

**You'll Probably Meet Him Very Soon**

Have you met Mister Inx? If you haven't you probably will before long. Who is he? Why he's the new member of the staff of Lloyd Hollister, Inc. He's the generalissimo, the consulting engineer, the contact man. He's the man who meets you in the front office and the man who gets out in back and makes the printers hustle to get the jobs out. Up in the editorial office he sees to it that the news gets in the paper, and down in the basement he helps the pressmen get the papers ready for the circulation department.

If you were confronted with a problem in printing, get in touch with our

Our Mister Inx

Mister Inx. He'll find a solution for it. If you want to sell a house, or buy a motor car, or rent an elephant, or print some tickets, or publish a book, Mister Inx can help you out. He is always cheerful and ready to go to any length to serve you. That's what he's here for and you may be

assured that he will be only too glad to have you consult him.

Another one of his duties is attend to the news that goes in the paper. Do you know of any "story" that should have been in this week or that should be in next week? Call up Mister Inx about it. If there is anything that you would like to see featured more extensively, tell Mister Inx. He may know about it already, for he is here, there and everywhere. He may be sitting next to you on the electric or walking down the street ahead of you when you are on your way home. But, wherever he is or whatever he knows, is all for the purpose of serving you, so don't hesitate to call him for any purpose; you'll find he's a jolly good fellow.

### Name Dr. B. M. Conley Physicians' Club Head

At the last meeting of the Wilmette Physicians' club, the following officers were elected for 1925: Dr. B. M. Conley, president; Dr. R. H. Henderson, vice president; Dr. William A. Mann, Jr., secretary and treasurer. The club, which has been in existence for a number of years, is composed of about 60 north shore physicians.

### Come on You Radio Fans

and get in on the Radio Contest. So far only 20 stamps have been collected by a fan with a small set. So you still have a good chance to win that \$25.00 loud speaker.
