

## Bridge Will Help College Club Fulfill Its Pledge

THE North Shore Vassar club is making elaborate plans for a bridge party to raise funds to complete a pledge made to furnish a room in a beautiful new alumnae building. The affair, which is in charge of Mrs. Donald Jeffris of Winnetka and Mrs. Philip P. Merrill of Evanston, the chairmen, will take place at the Orrington hotel on Monday, February 16, at 2 o'clock. Tea will be served to the players. Members of the club and their friends have donated prizes and every effort is being made to make this a large and successful affair.

Among the assisting hostesses will be: Mrs. Robert McKisson, Mrs. George Chapman, Mrs. Gerald Burnham, Mrs. Peirce Ward, all of Winnetka; Mrs. T. P. Stanwood, Mrs. William S. Bennet, Mrs. Carol Jones, Mrs. E. D. Brigham, Jr., and Miss Grace Hall, of Evanston.

Vassar college has long left the need of a Campus house where alumnae, and the parents and friends of students, could stay, in easy access to college activities. To meet this need, two Vassar graduates gave the necessary money, and an attractive building on a little hill across from the campus has been built and named Alumnae House. It now remains for the alumnae to furnish the house in a style commensurate with its architectural beauty.

The North Shore Vassar club has pledged a sum to equip one of the bedrooms. It will be furnished in Colonial style with some beautiful pieces of that period, and will be named in honor of Miss Julia Lathrop, one of Vassar's most distinguished graduates in the Middle West. Part of the requisite amount was raised by means of a rummage sale in Evanston last fall, and the club hopes to realize the remainder of the sum pledged, at this benefit bridge.

Mr. and Mrs. Charles Byron of 768 Foxdale avenue and their little daughter, Ann, are leaving on Saturday for Jupiter island, Fla. Mrs. Byron and Ann will remain until May 1, but Mr. Byron will return in a week or two. They will be guests of Mrs. Byron's parents, Mr. and Mrs. Fred Hildebrand.

The process of making Chicago Solvay Coke from carefully selected coals produces a fuel higher in the heat producing element—Carbon. This same process eliminates the smoke which is waste. Your fuel dealer can furnish this better fuel for 20% less per ton than hard coal.

Heat efficiency is not the only advantage of burning Chicago Solvay Coke. It is clean. There are few ashes. It burns without soot, smoke and smudge. These destructive wastes mean an average cleaning expense of \$50 per family in a smoke-ridden community. Are you paying this needless charge in addition to burning expensive, wasteful fuel?

You can burn Chicago Solvay Coke in your heating equipment—hot air furnace, boiler or stove. There is a size for your plant. To insure your getting the most economical size, phone your dealer and he will send a skilled Service Man to look over your heater and recommend the proper size to use. Then, order from him, using the full name—
