

At Last! A Perfect Gravity Feed Is Here! Dependable Heat at Low Cost

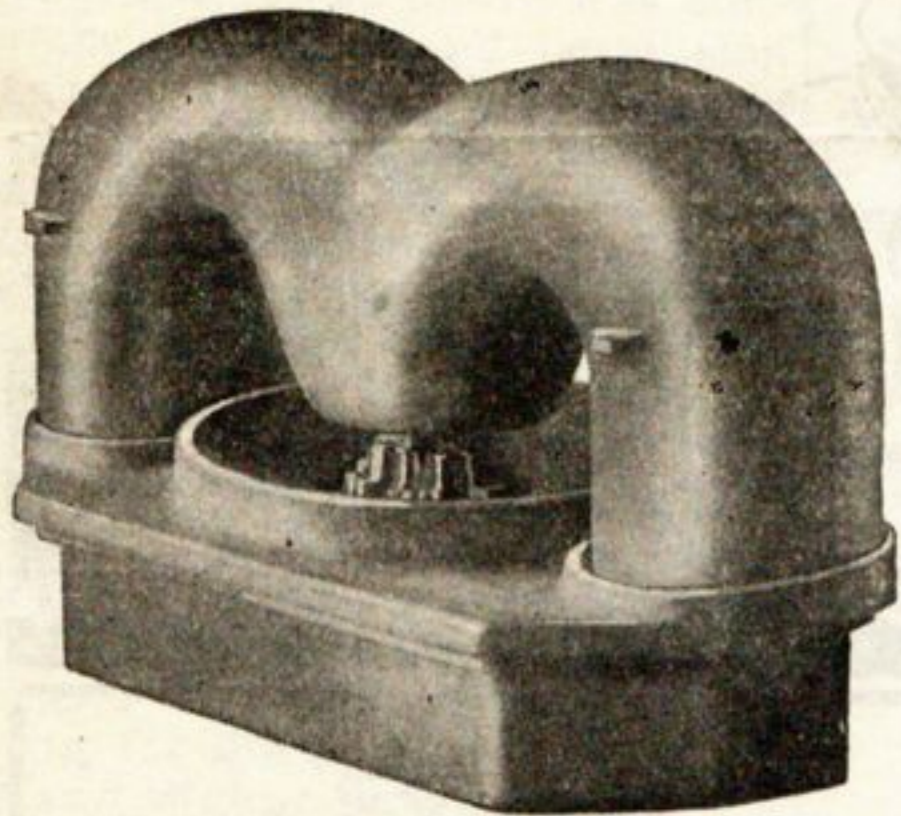

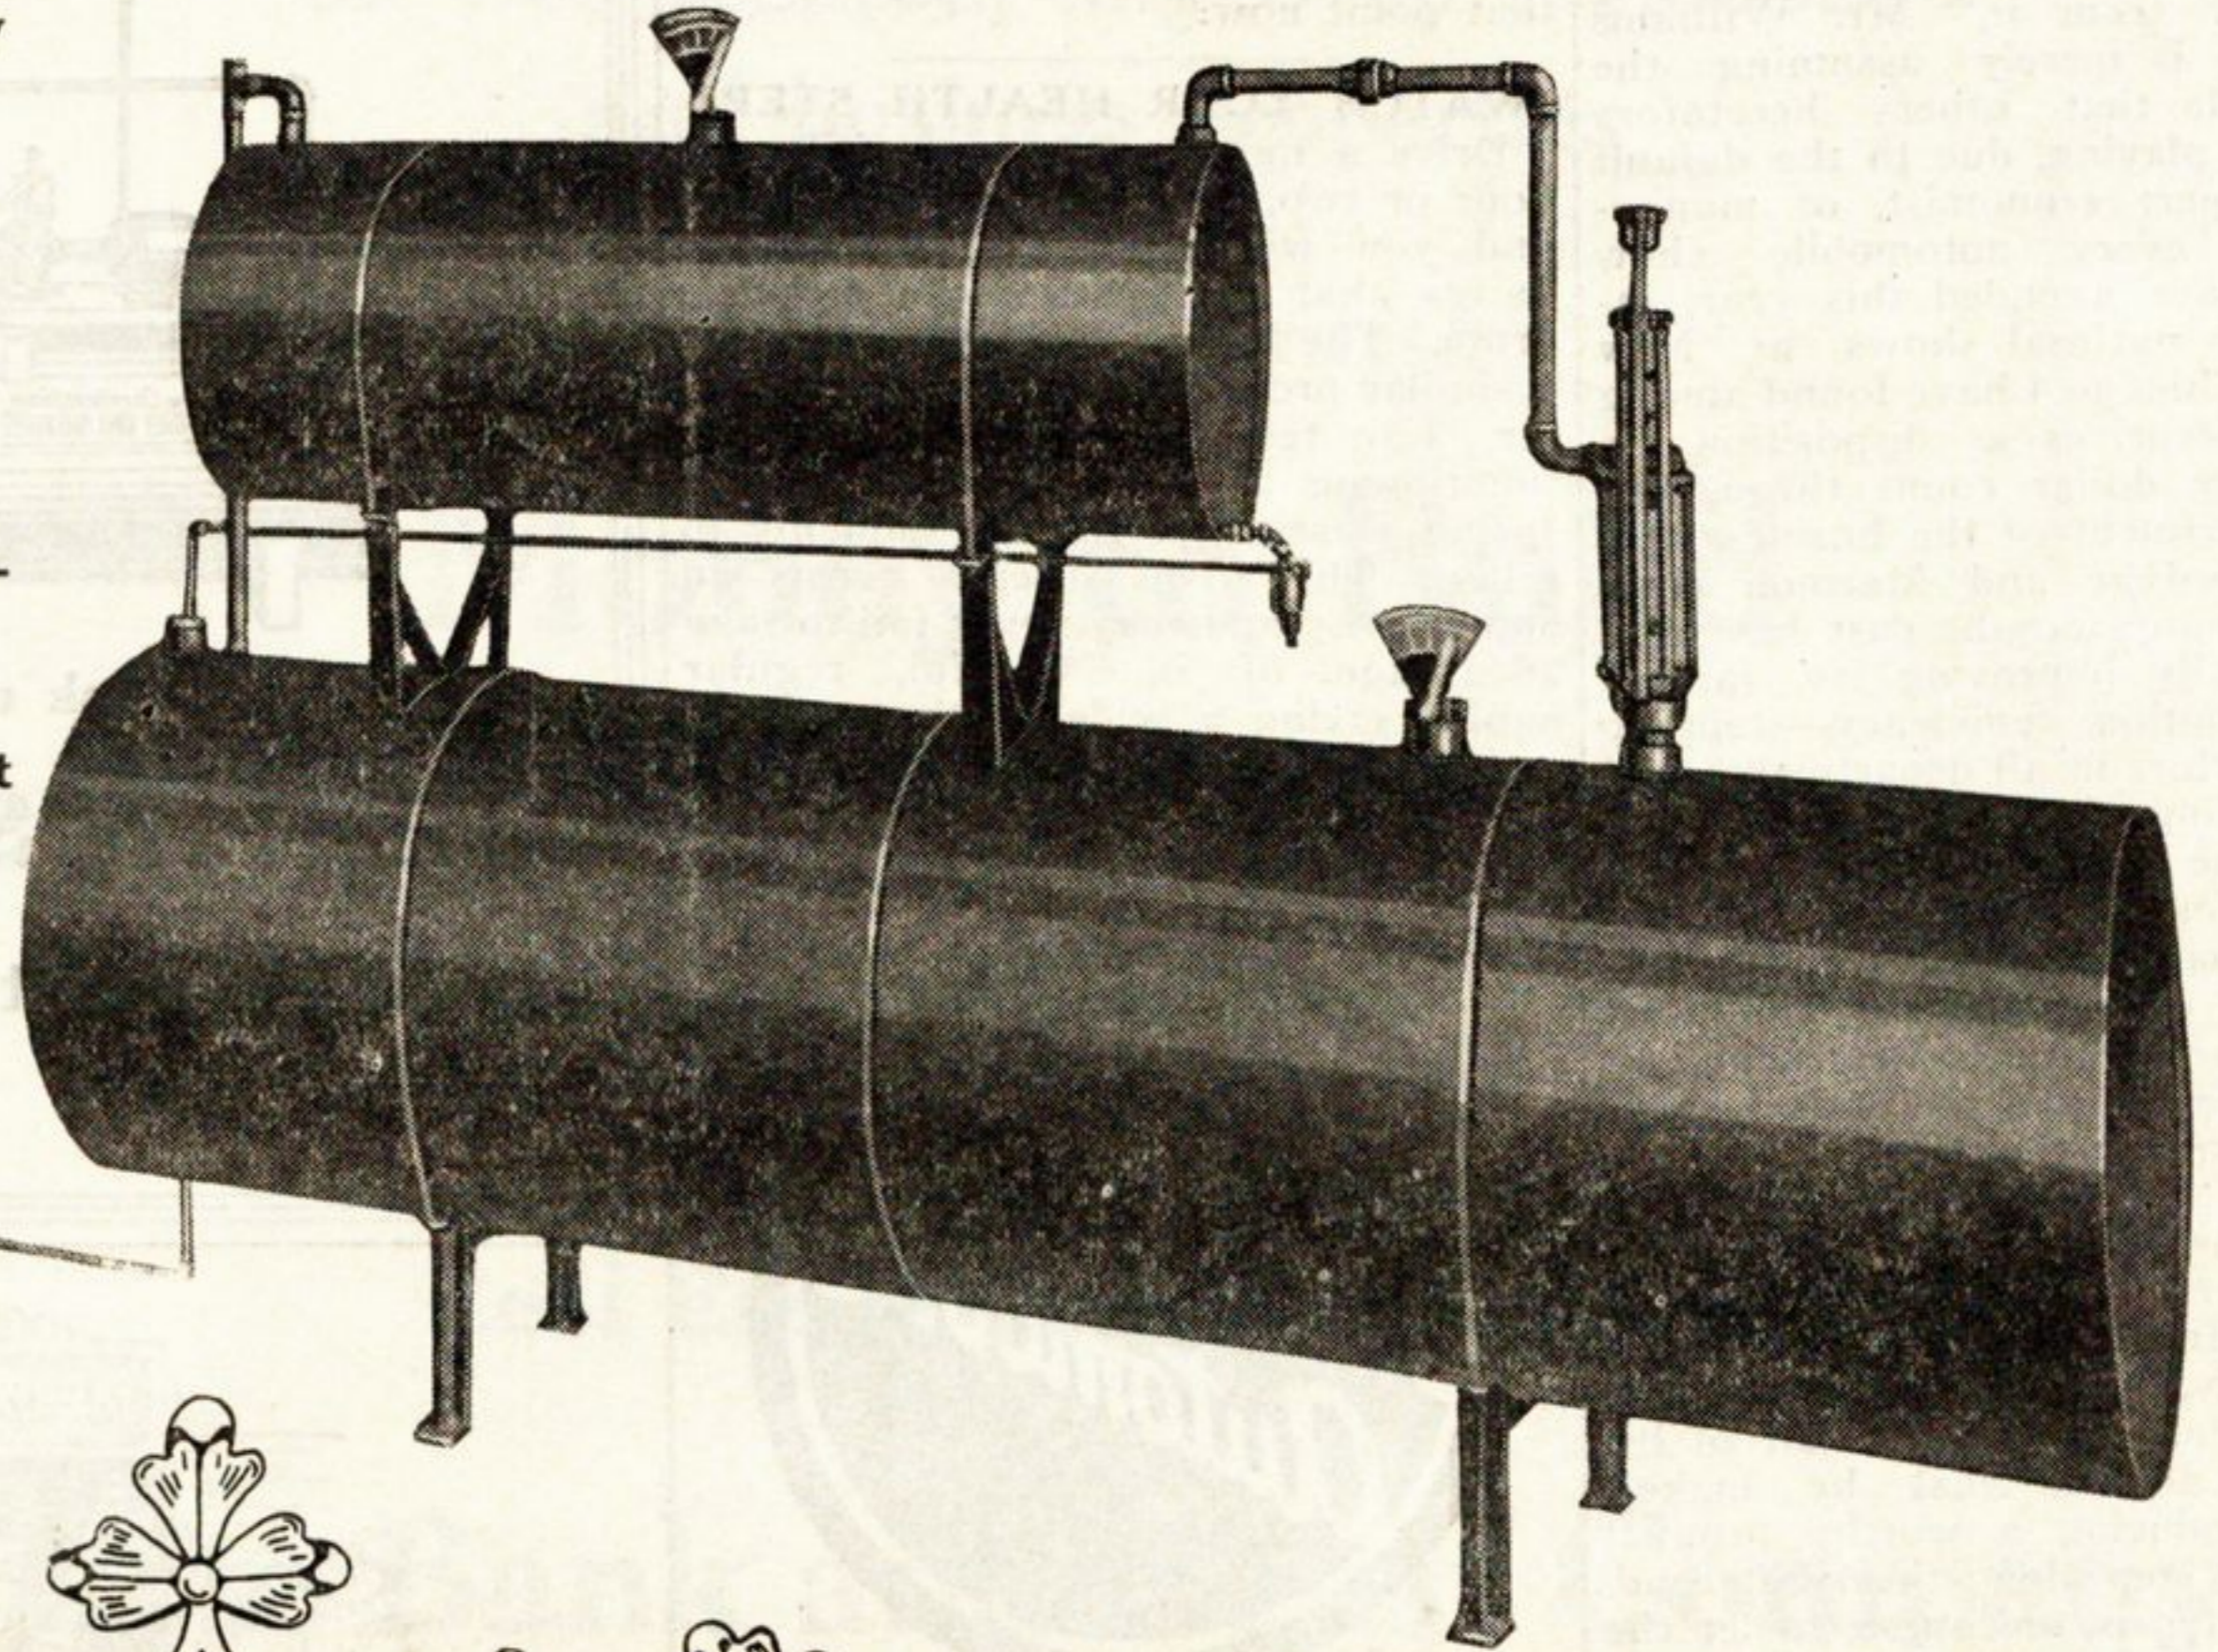

Why put up with coal any longer? Why tolerate the inconvenience of hauling ashes, firing up your furnace or boiler, and all the mess, bother and dirt that goes with coal. Now—at last—you can install an oil burner **AT LITTLE COST** to give you all of the same advantages of the higher priced burners.

The Crown is even better because it is **POSITIVELY FOOL PROOF**. You do not have to bother with gas and electricity. There are no complicated parts—no mysterious mechanism—nothing to go out of order when you need heat the most. The Crown is safe, simple and sure—it is a **GRAVITY FEED** burner—the only dependable kind made.

5 Simple Reasons Why You Should Prefer A Crown Oil Burner

- 1—The first cost is low—
- 2—The operation is simple—
- 3—The operating cost is low—
- 4—The heat is dependable—
- 5—There is nothing to go out of order—

This Is the Burner

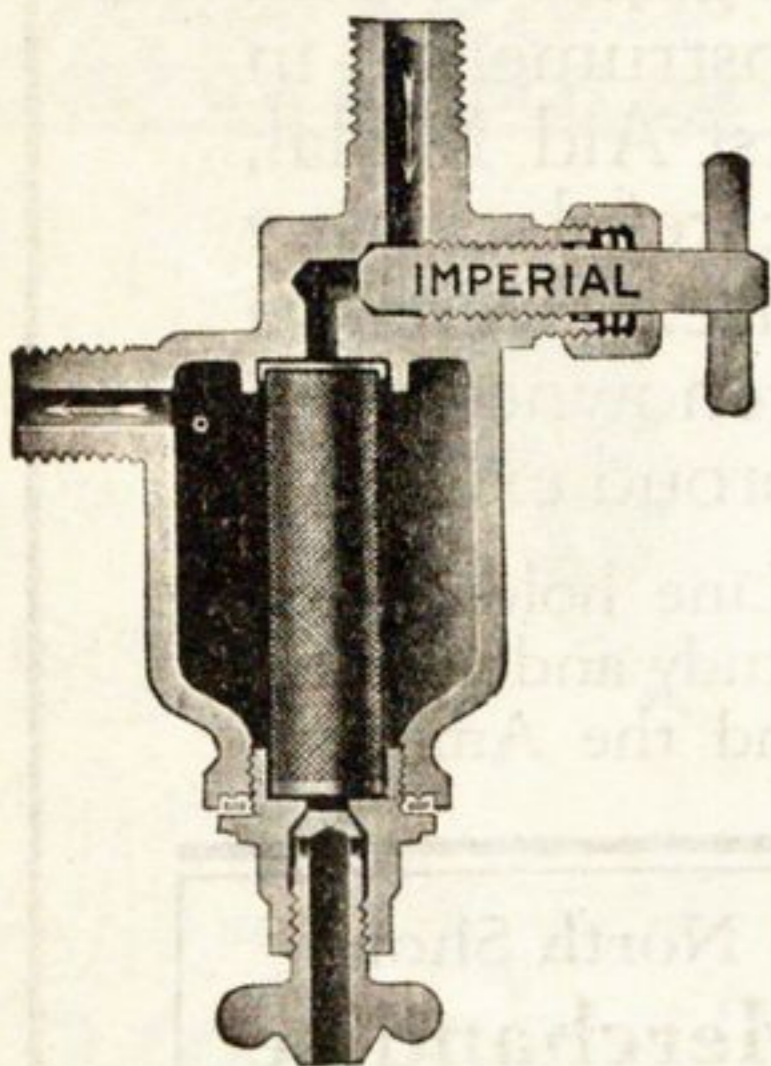

The air intake is bridged in the center so as to effect even distribution of air in the two separate chambers. The air and oil come in contact only at the mixing point. This eliminates fluctuation and uneven fire.

By simply turning a notched wheel, you regulate the amount of heat you want—from just a flicker in milder weather to a roaring flame when the wind howls and the thermometer hovers around zero.

Fits Any Kind of Heating Plant

It makes no difference what kind of heating plant you now have—hot air furnace, steam, hot water or vapor boilers—the Crown will fit it.

Without making any change in your present heater, we will install the Crown Oil Burner. Do not wonder if a Crown will fit your furnace or boiler. It will! Install one and you will appreciate what it means to have greater comfort and convenience than you ever thought oil could supply.

The Oil Strainer

This strainer has a cylindrical screen—providing an unusually large straining area. It is attached directly to the bottom of the fuel tank.

It will overcome any possibility of line becoming clogged with dirt. The strainer may be removed and cleaned in a few seconds.

\$250.00

Complete with 200 Gal. Storage tank and 50 Gal. Service tank Including Installation

**EASY PAYMENTS IF DESIRED
NO EXTRAS TO BUY**

The complete Crown Oil Burning Unit installed in your home, store or building for the reasonable sum of \$250.00, consists of the Crown Oil Burner assembly with the approved heat regulator valve with automatic shut-off, pipe line strainer, two oil tanks with Sills, Gauges, Pump and all necessary inside and outside fittings. No details overlooked.

Note the compact system of oil storage. It complies with the regulation of the fire underwriters. The tanks are attractive, efficient and neatly finished. The pump is used for pumping oil from the storage to service tank. Gauges on both tanks indicate the amount of oil in the tanks.

GUARANTEE

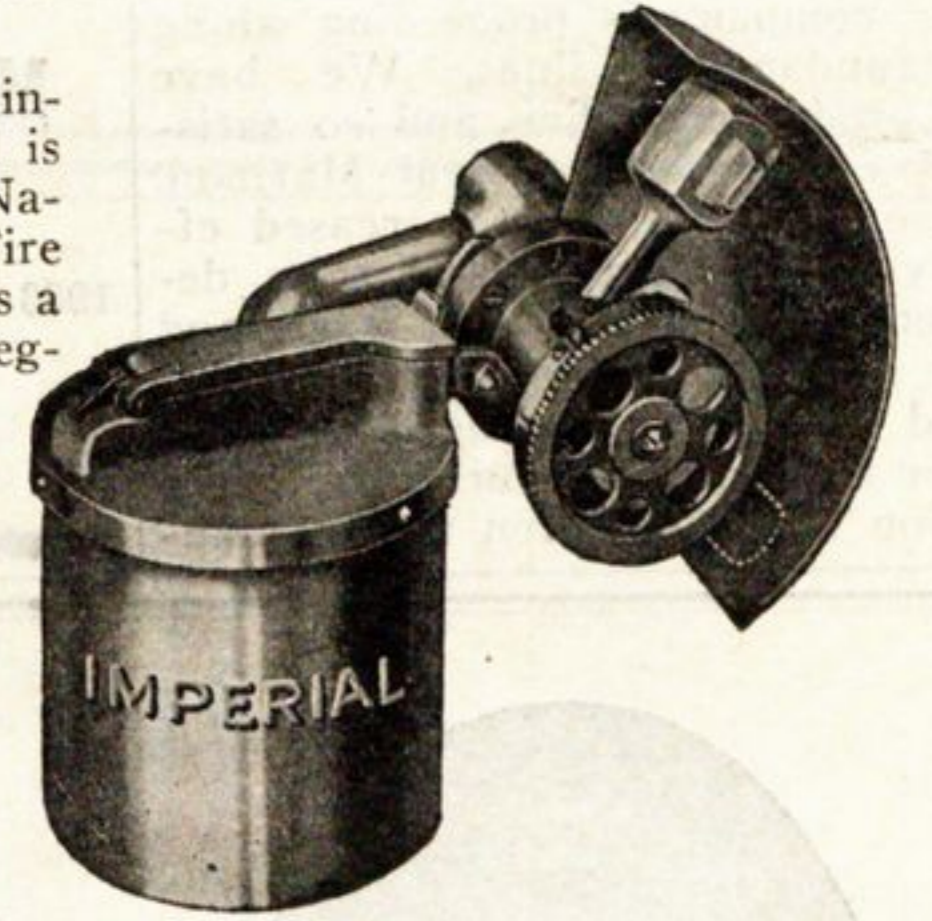

If upon installing the Crown Oil Burner in your home you are not thoroughly pleased with it we will remove it and refund your money.

This Is the Heat Regulator and Oil Control Valve with Automatic Shut-Off

This is a most ingenious device, and is approved by the National Board of Fire Underwriters. It is a combination oil regulating and anti-flooding device and is used in the Crown gravity feed oil burner.

It is intended to cut off the oil supply and prevent flooding of the burner and surrounding floor space if for any reason the fire is extinguished or the oil flow is greater than the burner is capable of consuming.

No Electricity—No Gas JUST OIL

Selecting an oil burner requires careful consideration. Cost is important. The Crown Oil Burner is most economical. No gas or electricity is used. Oil is the only fuel you need. The Crown is the lowest priced high-grade oil burner on the market. It is a gravity feed burner with no intricate parts—no motors—fans—suction pumps—dynamos. It is absolutely free from all risky appliances. Owners of Crown Oil Burners never have to worry about parts going out of order. Clean, odorless, comfortable uniform heat is assured.

Send the Coupon for Further Facts

It costs you nothing to investigate. Simply fill in and mail coupon. Let us tell you more about the Crown Oil Burner.
