

SUMMER CAMPS HALF ENROLLED

**Big Increase in Applications
Over 1924**

The Adjutant General of the Army at Washington, D. C., has just released the information that 25,000 formal applications had been received by the Commanding Generals of the nine Corps Areas on April 20, 1925, for attendance at the 43 camps to be held throughout the United States and Porto Rico for the Citizens' Military Training Camps this summer. This number represents 50 per cent of the number of enrollments desired. On the same date last year but 16,000 applications had been received, indicating that the privilege of attending these camps and the necessity for making early application, to be sure of a place, is beginning to be more generally appreciated by young men and their parents.

While the enrollment for the entire United States is 50 per cent of the number desired, in a number of the Corps Areas the percentage of enrollments desired is far in excess of this percentage. For the Sixth Corps Area, which includes the states of Illinois, Michigan and Wisconsin, the percentage of enrollments has reached 78 per cent, and at the rate that applications are reaching headquarters at Chicago the entire number desired will be filled by May 20, 1925.

Any healthy, normal young man between 17 and 24 years can attend these camps, where the cost of transportation to and from the camp is paid by the government, also food, medical attention, uniforms and laundry is provided without cost to the young men attending.

Col. C. H. Boyden is chairman of the C. M. T. C. committee in Wilmette and will be pleased to confer with boys in regard to applications for the summer camp. He may be reached at Wilmette 483. Maj. T. E. Bullivant is adjutant of the local committee of Reserve Officers and may be reached at Wilmette 2554.

Roos Has Title Role in Senior Production

New Trier High school seniors will present as their class play this year Booth Tarkington's comedy, "Clarence." It will be staged Saturday evening, May 23, at the school auditorium, and rehearsals are now going on. John F. Roos has the title role.

The following are the members of the cast:

Mrs. Martyn ... Genevieve Gallagher
Mr. Wheeler ... Dan Burrill
Mrs. Wheeler ... Madeline Truitt
Bobby Wheeler ... Robert English
Cora Wheeler ... Margaret Brewer
Clarence ... John F. Roos
Della ... Alice Channer
Dinwiddie ... Walter Braun
Hubert Stem ... Morgan Yost

CHRYSLER BIDS FOR CAMEL JOB

**Runs Over Long Period on
Original Water**

A most extraordinary feat for a motor car, in which a Chrysler demonstrated its camel-like qualities by going around the world on a single supply of water, was recently reported to J. W. Nikart, Chrysler dealer in South Bend, Ind.

Last September, a Chrysler roadster was sold to Norman A. Parker of South Bend. After driving it 5,000 miles throughout the United States and Canada, he took it to New Zealand. In a letter just received from Mr. Parker, the following sensational news was revealed.

"I brought it out to New Zealand with me, and it has excited admiration wherever I have been. The water you put in the radiator is still there, and I have not so far found it necessary to add one drop."

Mr. Parker's experience reveals a quality in the Chrysler that has excited the comment of many other Chrysler owners as well. That quality is the efficient cooling system.

Extra large water passages completely surround each cylinder and valve of the Chrysler motor. They give a minimum of one-half inch clear water circulation space between each cylinder. Moreover, the casting of

the block is so designed as to insure no possibility of obstructed or constricted water passages.

Consequently, overheating is a negative factor in the Chrysler motor, and a single water supply will go for a long period of time with a minimum of evaporation.

Ever since the Chrysler was introduced a year ago, owners have reported this camel-esque feature.

Perhaps the Chrysler stands a good chance of entering the Sahara market and usurping the place now held by the faithful dromedary.

TUESDAY MAY 12

"LOVE AND GLORY"

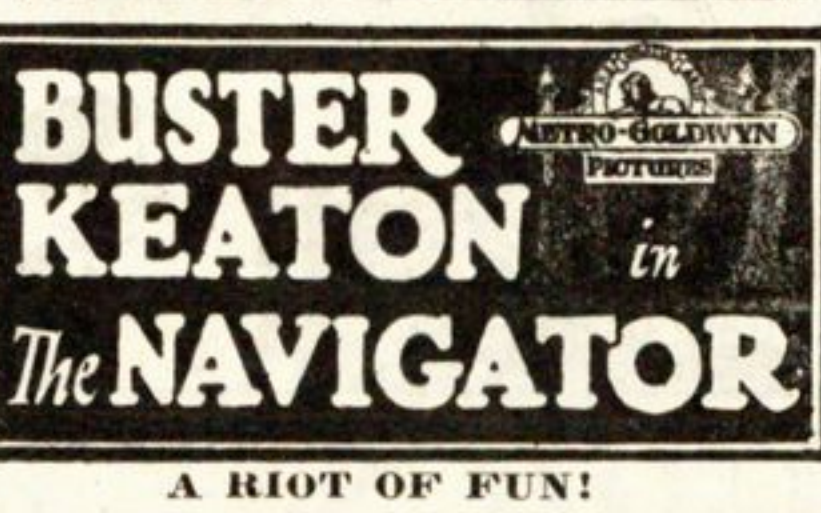

It takes you from a peaceful French village to the blazing sands of the Sahara. There a French bugler is captured in a skirmish. Standing over him with drawn sword the Moorish Commander orders him to blow the retreat. Smiling into the face of death the bugler, Anatole Picard, raised the bugle to his lips and blew—not the Retreat—but the Charge!

You will never forget this picture.
