

NEW LAWS HELP STATE HEALTH

Provide Tax to Pay Community Nurses

The application of three new laws enacted by the 54th general assembly will have a very wholesome effect upon the public health, according to a statement issued this week by Dr. Isaac D. Rawlings, state health director. Two of the laws relate to milk and the other to community nursing.

"One of the two new laws relating to milk supplies," said Dr. Rawlings "requires all milk pasteurizing plants except those concerned exclusively with markets in cities of 500,000 or more people, to secure a certificate of approval from the state department of public health. The certificates of approval can be issued only after an inspection of the plant by a milk sanitarian who must be satisfied that minimum sanitary standards are met and that a standard method of pasteurization is employed. Milk dealers who do not employ the standard pasteurizing process will be prohibited from advertising or labelling their products as pasteurized. Certificates of approval, which may be revoked for cause, are renewable annually upon payment of a fee of \$10 and satisfactory evidence that the plant is properly operated. This law becomes effective September 1, 1925.

"Another important law relating to milk is House Bill No. 176, which provides, among many other things relating to the tuberculin testing of cattle, that municipalities may prohibit the sale of milk from any herd that has not been tuberculin tested.

Provide for Nurses

"The third new law of public health importance is an enabling act which provides for the employment of community nurses in municipalities of from 5,000 to 100,000 people. Cities adopting this act may levy a three-tenths mill tax for paying the salaries of community nurses who are appointive by the mayor upon recommendation by the local board of health. The duties of the nurses will be such as may be prescribed by the municipal health officer.

"The application of these laws will be distinctly helpful in promoting public health conditions. In the past, instances have been found where milk has been offered for sale as pasteurized when actually it has not been subjected to an effective pasteurizing process and where other conditions were far from sanitary. Under the new law such practices will be illegal and will subject the dealers to fines of from \$10 to \$100 for each day of violation.

"Many of the public health nurses of the state depend upon private sources, involving fund raising campaigns and public subscriptions, for financial support. The new law provides a means for a reliable and constant source of income which will tend to stabilize one of the most important factors in first class public health service."

CONCEALED REBATING NOW BANNED BY LAW

A bill providing that all leases for property in the renting of which concessions or rebates of any kind are made shall be stamped prominently on their face "Concession Given", has just been passed by the Illinois legislature and signed by the governor. The new law, which was initiated by the Chicago Real Estate board and urged by the Illinois Association of Real Estate boards, went into effect June 1.

It has been commended by the Property Management division of the National Association of Real Estate boards as a measure which should eliminate one of the greatest evils affecting the sale, financing and management of improved property.

The division in its official report made to the association at its annual convention just closed in Detroit, Mich., recommended that real estate boards throughout the country urge the passage of similar acts in their own states.

The purpose of the act, as stated in the bill, is to regulate the practice of using written leases of real estate which, because of concessions to the lessees, do not truly state the real net rent being paid. It is recognized that such practice can be and frequently is used to mislead prospective purchasers, lessees and mortgage investors into a belief that the rental value of the building is greater than it is.

Mr. and Mrs. George Spencer of Oconomowoc, Wis., formerly of Winnetka, visited friends in the village last week prior to their departure for Seattle, and the West, for a prolonged visit with friends there.

J. F. Page, 633 Walden road, and Edmund B. Bartlett, 710 Walden road, are on a 10 days' fishing trip at Tenderfoot in northern Wisconsin.

Mrs. A. M. Kloefer, 325 Linden avenue, entertained 16 guests recently at bridge and midnight supper.

Sunset Ridge Club Holds Its First Annual "Soiree"

Sunset Ridge Country club will hold its first annual "soiree" and invitation golf tournament Wednesday and Thursday, July 22 and 23. According to officials of the club there will be numerous features of entertainment, although golf will be the main attraction. Qualifying rounds will be played Wednesday, and there will be many prizes for winners in the tournament. The course will be reserved for tournament players those two days. Members are invited to bring guests.

REDECORATE CHURCH

Redecoration of St. Joseph's church, Ridge and Lake avenues, was completed this week and the church will be open for inspection next week, according to the Rev. John Neumann, the pastor. The new decorations add much to the attractiveness of the church interior.

Walter Neubacher, son of Mr. and Mrs. F. O. Neubacher of Walden road, and George Hughes of Glencoe, left Thursday for Camp Owakonze, Ontario, for the remainder of the summer.

Mr. and Mrs. Walter Neubacher have just returned from a motor trip through the beautiful lake region of northern Wisconsin.

NEW RAILROAD ROUTING GUIDE TO OUR NATIONAL PARKS

"The Guide to Our National Parks" is the title of a new booklet just published by the Chicago & North Western Ry. It is not a picture book, but it is brimful of interesting information as to railroad routes and fares to Yellowstone, Rocky Mountain, Zion, Yosemite, Rainier, Glacier, and Mesa Verde National Parks, Canadian Rockies, Colorado, Utah, and the Black Hills. No one who is planning a trip to any of the Nation's Playgrounds should be without a copy, free upon application to Mr. M. H. Lieber, Ticket Agent, C. & N. W. Ry., Winnetka, Ill. Tel. 13.

Burley Shops

Exhibiting a New and Rare Collection of Genuine Antiques

SPAIN contributes liberally to the many rare and unusual pieces of antique furniture and decorative objects now being exhibited at the Burley Shops. Other superb examples being shown are from distinguished collections of English, French and Italian Antiques.

Pictured here is an antique Spanish Vargueno and stand in walnut, 17th Century original gilding and polychroming. The small door in the center opens revealing 3 drawers brilliantly colored—a particularly fine specimen. Small Spanish mirror 17th Century carved walnut, original gilding and mirror. The design of the carving is typically Spanish and so different from the Italian or French. This type of Vargueno is a Papalera, being used for papers and treasures. The other type has a flap that drops in front and can be used as a writing desk.

Seldom will you find anywhere so complete a collection of rare antiques—furniture, pottery, porcelain, glass and metal wares, leather and fabric, as at the BURLEY SHOPS. Your inspection is invited.
