Y. School Figures Show the Value of All-Year Program

While the controversy regarding lengthening of the public school program to include the summer months continues to attract great interest, an examination of a private school where the summer session is regularly offered reveals that not only is it an advantage to the school, but that a majority of students elect the summer school

Figures compiled by H. F. Hancox, director of the Central Y. M. C. A. schools, shows that in the day and evening classes in the high schools, the enrollment is 30 per cent as large as in the regular terms. In the college of arts and sciences, the proportion is 60 per cent, while the Junior school for boys from 10 to 17 years of age, 75 per cent of the number in the nine months' school represents the summer enroll-

The summer school plan has been in use continuously in the Y. M. C. A. schools since 1904, and is said to be one of the chief reasons for the low pupil cost despite the small number in classes. For the year 1924, each student in the schools cost \$56, as compared with a cost of \$80 per student in the Chicago public elementary schools, \$157 in the public high schools and \$410

Summarizing the advantages of the able fabrikoid, reverse with green all-year school program from the reflannel for card playing. Will call sults of more than 20 years' experience to show sample, measure any table, of the Y. M. C. A. schools, Mr. Hancox

said yesterday: "To students, it means a saving of 10 to 12 weeks a year; greater progress because of continuous attention to stuall glass; 2 small wall cases: for dies, especially in mathematics, languages and science; pleasant summer occupation compared with the absolute FOR SALE-BOY'S RANGER BI- idleness of a three months' vacation, cycle, new ridden once. Cost \$50. and entrance into high school or col-
