

WALTER SPRY TO TEACH ON SHORE

Noted Pianist and Teacher with Columbia School

Walter Spry, well-known pianist and teacher, has been added to the list of instructors who will represent the Columbia School of Music at Winnetka the coming season, where he will teach one day a week.

Mr. Spry has been associated with the Columbia School for the past 10 years and prior to that conducted his own school in Chicago. Wishing to devote his time to the development of advanced students, he joined the Columbia school and took with him many of his associates. This proved to be an important step in the school's progress.

Pupils of Mr. Spry have won considerable honors in the music world. Miss Margaret Farr, one of his pupil-artists, won first place in the contest held under the auspices of the Society of American Musicians two years ago and was given an appearance with the Chicago Symphony orchestra under Frederick Stock. Howard Feiges, a lad of 13 years, and also a pupil of Mr. Fry, played Beethoven's C. minor concert last season with the Little Symphony orchestra under George Dasch.

During the past summer, Mr. Spry held a Master Class for pianists at Alabama College, Montevilla, Ala. President Palmer of the college has invited him to return next summer.

"Lessons in Piano Playing," recently published by the Clayton F. Summy company is a text book from Mr. Spry's pen and reveals his thorough acquaintance with music pedagogy. Natural technique, rather than dogmatic system are the secret of his principles of piano technique. He has an immense knowledge of musical literature, being an authority on the various schools of composition.

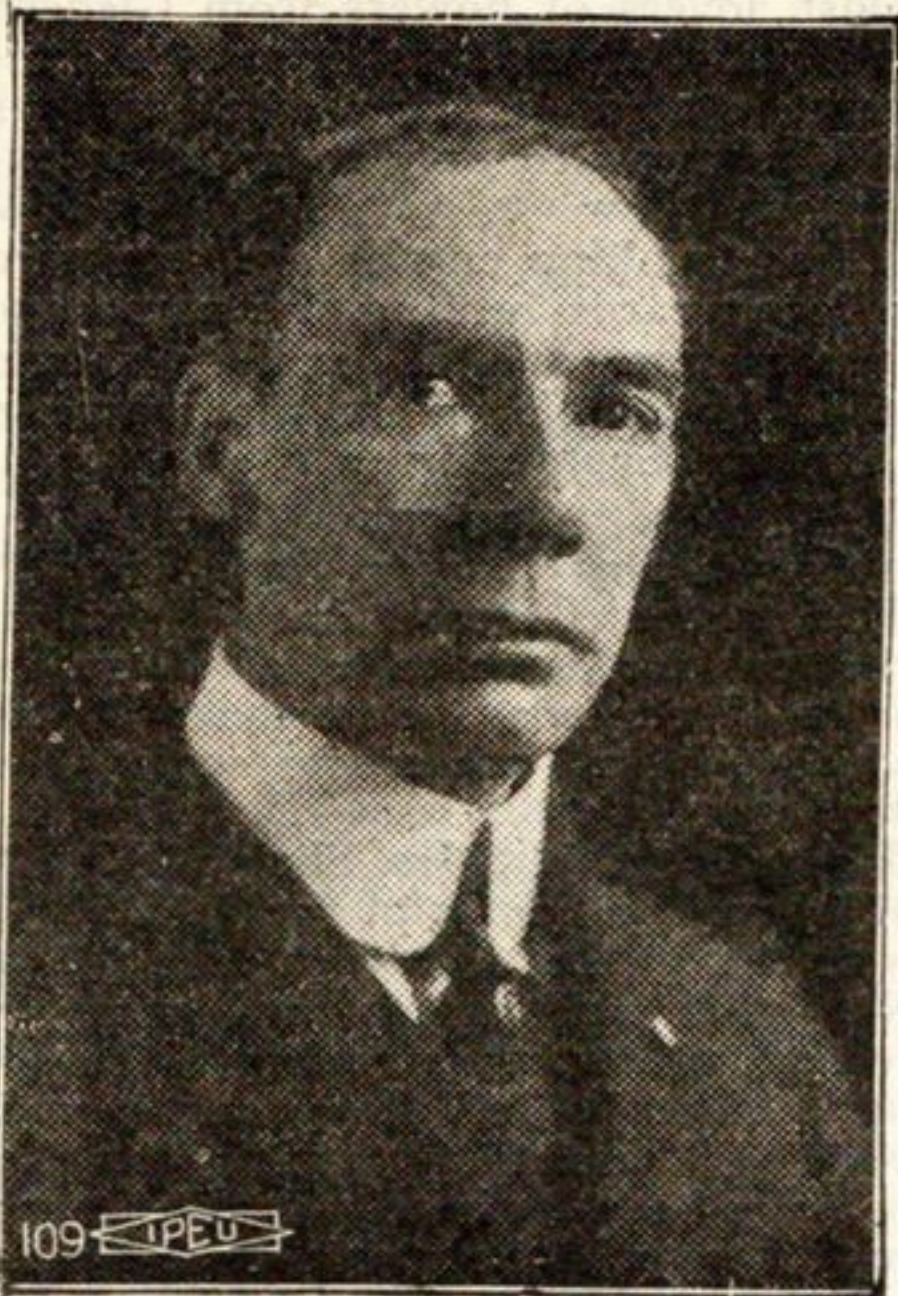

Several recitals will be given by Mr. Spry this winter in north shore suburbs; private musicales and public recitals will be included in his program. Among the most important will be that before the University Guild at Harris hall, Northwestern university, on January 4.

Mr. Spry believes that Winnetka is fast becoming the music center of the north shore and points to the Winnetka Music club and the Symphony concerts given under the direction of George Dasch at New Trier high school as proof of this tendency.

GIVES SECOND LECTURE

Albert Vail, Baha'i lecturer, will give an address on the subject "The Eternal and the New Ten Commandments" Tuesday evening, September 15, at the home of Louis Bourgeois, 536 Sheridan road, across from the Baha'i temple foundation. This is the second of a series of three lectures.

Talks on Lincoln

Rep. H. R. Rathbone

Stone markers, placed at the graves of Thomas Lincoln and Sara Bush Lincoln, father and step-mother of Abraham Lincoln, were dedicated Thursday afternoon, September 10, at Shiloh cemetery, Coles county, about nine miles south of Charlestown, Ill.

The ceremonies were under the auspices of the Kiwanis club of Danville. Congressman-at-large Henry R Rathbone of Kenilworth, delivered the address. Congressman Rathbone has a nation-wide reputation as a student of Lincoln. He was chosen as the Lincoln's Birthday orator before the House of Representatives and his address delivered before that body on February 12, 1924, attracted widespread attention.

Know Illinois!

Illinois has, on an average, 10,000,000 acres of corn each year.

Coal in the United States was first discovered by Joliet and Marquette in 1673 near what is now Utica, Illinois.

The public utilities of Illinois that are under private management and are regulated by the State are owned by more than 750,000 investors.

Illinois produces four times as much mineral wealth each year as Colorado.

Illinois ranks twenty-third in area of the states, but third in population.

There are more than 7,000 miles of high-voltage electric transmission lines in Illinois' super-power system.

Illinois is the home of the greatest edifice ever built by human hands, a structure larger than the Great Pyramids of Egypt. This is the pre-historic mound at Cahokia, which has been taken over by the state for a park.

Chicago's famous State Street will be the most brilliant "White Way" in

the world, according to plans for a new electric street lighting system.

GREAT GRID PROSPECT

E. F. Nelson of Wilmette is one of the brightest prospects on the University football this fall, according to reports from Urbana this week. Nelson is seeking a regular job on the Illini forward defense.

Their successful benefit card-party over, Sunset Ridge bridge players are returning this week to their regular Friday afternoon party. Assisting Mrs. Elbert Clark as card hostess for the month are Mrs. W. H. McKillip of Deerfield, and Mrs. Robert Burrows of Winnetka.

Mr. and Mrs. Alexander Grey and daughter, of New York, formerly of Chicago, are the guests of Mr. and Mrs. Thomas Brooks of 439 Walnut street. Mr. Grey has a leading part in "Naughty Riquette", which is playing at the Apollo theater.

Read All the Want Ads

Mr. and Mrs. Harvey L. King of 278 Ridge avenue left yesterday for a trip east. They will visit Mr. King's parents in Syracuse, N. Y.

A service of quiet elegance

The quiet elegance of the modern funeral is not necessarily high-priced. We will arrange the details of a funeral at a figure commensurate with your means and you will not be disappointed in the equipment or in the manner in which your orders are carried out.

Parachute Jump from 3000 Feet**

**Looping the Loop 10 times in succession Sunday, Sept. 13th,
Hibbard and Willow Streets, Winnetka**

ROY AHEARN

Winner of the Stunt Event at the Great Lakes Air Meet, will give his Exhibition of Aerobatics.

At the St. Louis Pulitzer Races over 150,000 people paid an average of \$2.00 admission. The principal feature of this meet was the Pylon Turn, made by the Speed Planes. Little bits of steel hurling through space at over 260 miles per hour at an altitude of less than fifty feet suddenly rising perpendicularly to 500 feet and swerving into less than a right angle turn. Roy Ahearn will demonstrate this turn Sunday, September 13th. This stunt can only be seen from the field. He will also loop the loop ten times in succession and tailspin from 5,000 feet.

DAREDEVIL LOUIS O'REILLY

The most daring wing walker and parachute jumper in this section of the country, will hang by his toes from the landing gear of the airplane while in flight.

He will also make a parachute jump from the dizzy height of 3,000 feet, maneuvering his chute so as to land in the field.

Enjoy the thrill of thrills. Fly with your friend or girl at your side, in this mighty three passenger plane. 2,000 feet above the slow crawling earthbound vehicles, travel 20 miles in 15 minutes for \$5.00.

See the earth spread out like a mighty checker board, Winnetka below you, Glencoe to the North, Chicago to the South, the lake to the East, and the farms to the West.

Bring your camera and take a picture of your home from the air.
