High School Girls Add New Feature to Activities and Design Year's Program

Fieldball, a game new to New Trier high school, will be a feature of girls' athletics at the school this fall, according to the announcement by Miss May P. Fogg, head of the girls' physical culture department. Miss Fogg has outlined an ambitious program for her charges and expects to make it a big year for the girl athletes of the school.

Fieldball is a combination of basketball, hurlball, and soccer. It will take the place of volleyball this year, followed by the usual program, soccer, hockey and swimming.

New tests and new charts are being planned. The Red Cross tests will be given as usual.

During the winter there will be basketball games and swimming meets, and a new feature—an indoor meet. This will be held between the gym classes and will contain such events as apparatus work, relays and comic races.

Track, baseball, and tennis will take up the attention of the girls' gym department during the Spring. Miss Fogg hopes to carry out this whole program though as yet it is only a plan.

ENTER GOLF TOURNEY

Among the entrants listed from Chicago in the women's national golf tournament being played at Clayton, Mo., are the names of the following north shoreites who qualified for the match: Mrs. Joseph Francis Horn (Miriam Burns) of Westmoreland; Mrs. John Arends of the Wilmette Golf club, and Miss Dorothy Klotz of Indian Hill.

It Tunes Through Everything

The new Super-Zenith is NOT regenerative. It is a six-tube set with a new unique and really different patented circuit controlled exclusively by the Zenith Radio Corporation. For the first time, you have here a set that—

- 1—tunes through **everything** and selects the station you really want.
- 2—requires only **two** hands — **not three**—to operate.
- 3—brings in each station at **only one point on the dial.**
- 4—affords such mathematical precision and simplicity that you can run over the entire dial in 1½ minutes and pick up **more** stations with greater clarity and volume than any other set on the market. Direct comparisons invited.
