

APPROVE NEW CHURCH

Winnetka Congregationalists Accept Recommendations for Structure to Seat 1,200 People.

At the meeting of the Winnetka Congregational church Monday night of this week, the church unanimously adopted the two recommendations of the church council in regard to the site and the size of the new church soon to be built. That means that the plan is to build a new structure on the location of the present church with a seating capacity of approximately 1,200.

John Leonard Hamilton, a member of the Church Building-Plan committee, presented in considerable detail the history of the study which the committee and the architect have made to date. He also showed some large ground plan drawings depicting the way in which Mr. Klauder, the architect, believes the problem can best be solved.

Great stress was laid on the fact that if the church was built on any other site it would also have to build a large Church House in order to provide for its Church school, it being entirely inexpedient to have the Church school classrooms separated from the church even by a single street. It is, therefore, extremely fortunate that it proves possible to place a beautiful and adequate church on the present land. Details have not been worked out, but it is suggested that the new church lie on the north and south axes instead of east and west and that the present church also be turned to lie north and south and be moved some distance to the west where it would be of great value as a chapel, to be used for smaller services and by the Church school.

There is much satisfaction in the prospect of retaining a structure that has, through the years, gathered so many hallowed memories about itself,

it was stated. The Church Building committee is now in a position to have complete plans drawn and submit them to the church for approval.

Names Electrical Board to Study New Regulations

Village President John S. Miller announced the appointment of an electrical commission which will recommend rules and regulations for electrical construction in the village, at the council meeting held Tuesday evening. The personnel of the commission is as follows: Harold Bohnen, chief electrical inspector for the Village, chairman; Paul Blake, an electrical contractor; Edward A. Peterson, journeyman electrician; Harold D. Hill, fire insurance agent, and H. L. Woolhiser, representative of the local electrical utility. The appointments were confirmed by the council and the commission will meet in the near future to draft the rules for the ordinance recently passed by the Village in accordance with a state statute which went into effect not long ago. After regulations have been drafted the commission will disband.

The New Trier circle will meet Tuesday, October 13, at the home of Mrs. Hyman Raclin, 528 Elder lane, at 2 o'clock. Members are all urged to attend this, the opening meeting of the season. Miss Janet Orwig will play several selections.

A Church Letter

The following letter, patterned after one sent out recently by a department store in a neighboring town, might be addressed to the residents of Winnetka:

Dear Mr. and Mrs. A:—

The fall season is officially announced. School has started, the leaves are falling and cool, crisp days are on the way. At this time of the year our church service is decidedly attractive.

The Winnetka Congregational is the nearest Community Church to your home, Mr. and Mrs. A., and you will be delighted with the wide variety of our merchandise in the line of activities and opportunities.

You will receive courteous welcome and attention when you choose to visit our place of worship.

Cordially yours,

Winnetka Congregational Church
