

Sees American Influence Only Hope for Near East

American influence, extending among the Christian people of the Near Eastern countries, is leading them to adopt American methods, and is developing a culture which, in view of the unsettled conditions in that section of the world, is the only real hope for its continued peace and prosperity. This was the statement this week of Dr. John Timothy Stone, pastor of the Fourth Presbyterian church, Chicago, who has just recently returned from a world tour, during which he spent considerable time in the Near East.

"American philanthropy," he said, "having begun the work of reconstruction among the refugees and orphans of the Bible lands through the Near East Relief, must finish the job, or else witness the destruction of what has already been accomplished."

"In the work which the Near East Relief is accomplishing wherever the refugees of the Near East are seen," he continued, "confined as it is to children and young people, that organization is insuring the future of their self-support; restoring to their varied natures that element of manhood and womanhood which insures life."

"Everywhere these children under the protection of the Near East Relief are industrious, responsive and capable. Their influence is felt upon their parents and relatives, and the refugee colonies show the same thrift, enterprise and diligence."

"It will not be necessary to continue this work for very many more years, but just now we have an obligation to

less fortunate nations, it seems to me, and the good will of the United States can in no way be regained and strengthened better than by this wise and far reaching expenditure."

New Trier Girls Club Entertains New Pupils

Wednesday afternoon New Trier high school was the scene of an attractive bridge and bunco party given by the social committee and the friendly committee of the Girls' club for the girls of the upper classes who are enrolled at New Trier this year for the first time. Prizes were given for the card games and refreshments were served for this affair which was planned to give new girls the opportunity of becoming acquainted with the rest of their schoolmates. Elizabeth Babcock is chairman of the friendly committee, and Helen Fraser heads the social committee of the club.

RIDING CLUB OPENS

The Spur and Saddle club has started upon its new season with an increasing membership list that includes Evanston and Wilmette members. Wednesday evenings, to the strains of music, members sally forth on their mounts for Harvest night rides at the conclusion of which they dance and have refreshments.

Mr. and Mrs. Sidney Y. Ball and their family have moved from Kenilworth into their new home at Indian Hill. Mr. and Mrs. Eberhart have taken the Ball's home at 307 Woodstock avenue.

What Goes on in Your Laundry?

Make it your business to know

Down in the laundry is where your clothes get the test of their life!

There, soaps may ruin or protect.

For the safety of your clothes, which cost 1/5 of your income, see that American Family is used for washing—so quick, so thorough, so pure.

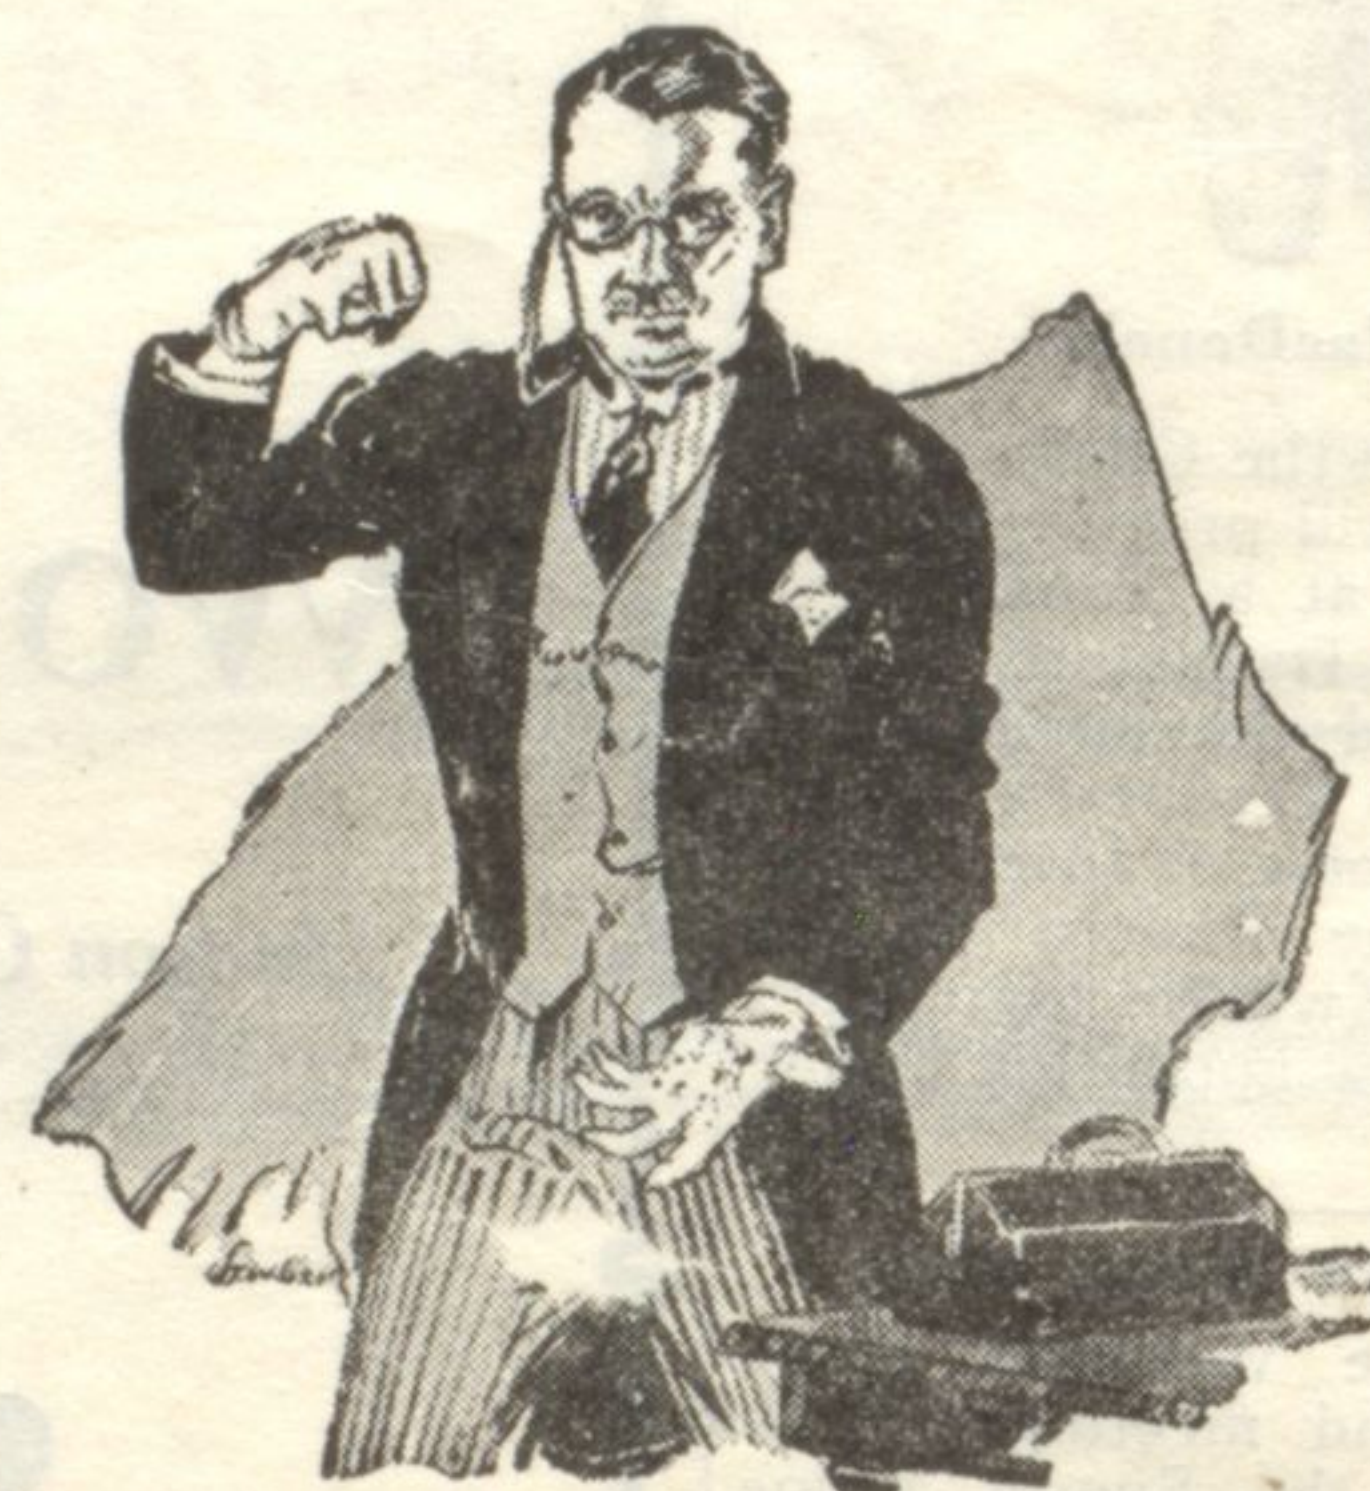

For 83 years it has been laundress to the Middle West.

No higher compliment could be paid.

"Don't Skim Your Milk!"

Doctors Warn

Because of the great and vital health value of whole cream milk, all doctors warn against skimming it. Doctor Herman N. Bundeson says, "The entire (whole) milk should be used, in order to obtain the benefits of its full food value."

BOWMAN'S MILK is just such whole milk. Nothing is taken from it—nothing added to it. It comes to you just as rich in cream as when it was taken from the cow.

This is the milk which for 50 years has been helping thousands of babies grow healthy and strong. Mix all the cream before using and then you will have Nature's greatest health food in all its richness and purity.

Insist on
