

Reader to Augment Card Party Planned By Voters' League

Mrs. Hathaway Watson of 900 Sunset road will open her home for a reading by Mrs. Burton Hanson, which will be given in addition to the League of Women Voters' card party Thursday, November 12. The day for this affair, which is also a league benefit, will be announced later, and tickets purchased for the card party will also be good for the reading, it is explained. Mrs. Hanson, who will give the program, tells dialect stories and gives character readings of the South and of Canada.

Mrs. William A. Thrall of 416 Elder lane is in charge of refreshments for the card party. The money raised is to be used to help finance the work of the league. It has always been the policy of this organization to keep dues so low that every women interested can afford to join, and for that reason, the entire budget cannot be met by dues alone. If sufficient money is raised, the league hopes to send a delegate to the National Voters' League convention to be held at St. Louis in April.

Rudolph Ingerle is president of the league. Applications for membership can be made to Mrs. Edward A. Brion, 775 Greenwood avenue, Glencoe.

Benjamin Affleck, 695 Lincoln avenue, was among the patrons of the lecture at the meeting of the Government club Tuesday afternoon in the English room of the Blackstone hotel, when Mrs. George E. Owens of New York City, president of the organization, spoke.

Report Rapid Progress on Village Hall Work

Very satisfactory progress with the construction of the new Village hall has been made, according to reports at the Village council meeting Tuesday evening. Trustee J. D. Pierce reported that most of the rough work has been completed. The bell has been hung in the belfry in the tower, the sidewalk in front of the building is being laid by Paul Reschke, and the heating plant is in operation so that the plaster inside may be dried out. Most of the windows have been glazed and the remainder will probably be in by the first of the coming week. Workmen are beginning the laying of ornamental tile work inside the structure and the finer work is beginning to show up. It seems probable that the building will be ready for occupancy well within the time limit.
