

### Laundry Invites Inspection

During the week of October 26 to 31 a huge laundry party will be held in all modern laundries all over the country. The North Shore laundry, at 566 Chestnut street, especially invites all its friends and patrons to come any time during that week and inspect the local plant. All the processes of washing, drying and ironing the clothes will be shown and explained to visitors. The North Shore laundry has only recently moved into its new plant on Chestnut street which is said to be the most modern laundry in the whole world. Everything is done by electricity and the features of this plant are so unique that, during the Laundry Owner's convention held in Chicago recently, persons from all parts of the United States as well as those from other countries came to inspect the new plant of which they had only been in operation a short time.
