

May We Help You Plan a Budget?

THE FINANCIAL AFFAIRS of the well-regulated household are a matter of careful and deliberate planning. So much is budgeted for living expenses and other necessities, so much for savings and—if the income is being judiciously augmented—a semi-annual sum for profitable investment.

It has been our privilege to assist many of our friends in their purely personal finances as well as in business considerations. Our experience is by no means confined to the larger prospects of monetary matters. We welcome discussion and invite counsel on any phase of your economic problems.

There's a friendly chair waiting when you're ready for a chat.

LEE SAYS:

SO far we have MANAGED to stay NEUTRAL on this EVOLUTION business— IN other words, we WON'T kick if the MONKEYS don't—but HOLLISTER says that IT'S taken a million YEARS to make a man OUT of a monkey but IT takes a woman about FIVE minutes to REVERSE the process— ALL of which hasn't a SOLITARY thing to do WITH the fact that WE are mighty busy JUST now in our FILM developing DEPARTMENT and that a LOT of Kodak enthusiasts ARE having some fine SUCCESS with their PICTURES this season— BY the way, do you OWN a good Kodak?

Take your own movies with the new EAST-MAN CINE KODAK. Come in and let us show you.
