PACKARD

How Often Do You Buy a War Tax?

EACH time you buy a motor car you pay for five things in which you never can take a ride:

These are: war tax—freight charge—factory's profit—dealer's profit—salesman's commission.

Once every five years or more is often enough to afford yourself the luxury of such purchases.

Those who buy the Packard Six expect, on the average, to keep their cars more than five years, spending the minimum in war tax and other outside charges.

Packard encourages its owners in keeping their cars, through retaining the beauty of Packard lines and in announcing no yearly models. It is now more than ten years since Packard offered yearly models.

The most recent evidence of Packard's interest in its owners is the chassis lubricator and motor oil rectifier—which together double the life of the car.

The price of the Packard Six 5-passenger Sedan, including spare tire, tube and cover delivered is \$2818.60 or under our budget payment plan
