

Great Rail Systems Halt Traffic to Do Honor to War Heroes

The Chicago, North Shore and Milwaukee railroad joined in paying tribute to America's war dead on Armistice day. Immediately on the hour of 11 o'clock in the morning, every train on this high-speed electric transportation system between Chicago and Milwaukee stopped, remaining stationary for one minute while employes and passengers joined in silent homage to those who made the great sacrifice.

Buglers from North Shore Line Post, the American Legion, were stationed on the platforms at Milwaukee, Racine, Kenosha, Waukegan and Highwood. As soon as the signal had brought all wheels to a standstill, the buglers sounded taps.

All cars and stations along the North Shore line were decorated for the occasion.

Similar ceremonies were conducted over the entire system of the Chicago Rapid Transit company. Buglers sounded taps from the four overhead bridges in the Loop, following a signal for cessation of traffic, sounded from the sirens in the three traffic towers in the Loop. Rapid Transit cars, overhead bridges and the two stations serving Soldiers' Field, where dedication services were held, were decorated.

The Current Topics class will hold its next meeting at the home of Mrs. William Morse of 433 Provident avenue.

University Alumni to Attend Novel Reunion

A number of University of Chicago alumni are keenly interested in, and will be present at the unique class reunion of the classes Monday, November 16, when two members from every class that has been graduated from the University of Chicago since it opened in 1892 will meet in the most novel reunion ever held by the Midway institute. Instead of the usual procedure of each class meeting separately, representatives of the 32 classes will meet together, each class represented by one man and one woman. Max Mason, president of the university, will speak at the "get-together" which will be held at noon in the East room of the Hotel LaSalle.

North Shore Residents Enjoy Class Reunion

The fortieth annual reunion of the class of '85 of the Chicago West Division High school, which was held last Thursday evening at Maillard's restaurant in the Straus building held much interest for many members living on the north shore. The dinner was served at 7 o'clock.

George W. Dixon, James Gamble Rogers, and Dr. Robert B. Preble gave talks on "Chicago's Growth in the Last Forty Years." Mrs. Ida Tucker Morris of 801 Bryant place, president of the class, presided as toast mistress. Ernest M. Kimball of Glencoe was the class treasurer.

"Mortals and Immortals" Lesson-Sermon Nov. 15

The lesson sermon at the First Church of Christ, Scientist, on Sunday morning, November 15, will be "Mortals and Immortals." Services are held in the Masonic

temple at 708 Elm street, at 11 o'clock, and the testimonial meeting is held on Wednesday evening at 8 o'clock. Sunday school convenes at 9:35 o'clock.

Demand These 3 Things of Your Oil Burner

The only part of your heating plant you need see or touch when you have Kleen-Heet—this thermostat in your living room. Every Kleen-Heet is equipped with a Minneapolis thermostat and thermometer. This thermometer is your check on the accuracy of Kleen-Heet automatic control.

1. Combustion Efficiency

Kleen-Heet's exclusive method of vaporizing oil in its scientifically constructed fire pot insures instant combustion efficiency. No oil-burner without such a fire pot can operate efficiently and economically under automatic control.

2. Economy

Kleen-Heet is absolutely automatic. It turns itself on and off—keeping your home constantly at an even temperature—without waste of oil. You simply set the thermostat. Kleen-Heet takes care of all your heating problems—automatically.

3. Dependability

Kleen-Heet's record of unfailing service—over five years' time—is more than 20,000 homes from Miami to Winnipeg—is assurance of its absolute dependability. Let users tell you. In Chicago, home of the oil-burner industry, more Kleen-Heets were installed last year than oil-burners of any two other makes combined.

Have Kleen-Heet installed in your home for this winter. It involves no change in your heating plant. Quick installation.
