

WINNETKA TALK

Contribution to Culture

Programs of music are varied and plentiful in this select suburban region, but few, if any, other artists can so justly claim popular support as the Symphony Players of Chicago, who, with their able director, George Dasch, have appeared so frequently at New Trier auditorium. The next concert by this group of artists is scheduled for Tuesday, November 24. The New Trier Orchestral association is responsible for this valuable contribution to the culture of our community.
