## 30 DAYS' FREE TRIAL AND A MONEY-BACK GUARANTEE

That is the confidence we place in Copeland Electric Refrigeration. Did you read the Guarantee at the top of this page? No "ifs" or "ands" about it. No strings attached in any way. You are the sole judge. And on top of that strong guarantee we make this remarkable 30-day free trial offer. A thing never before attempted in the history of electrical refrigeration! Here it is—

### No Money Down

We install a Copeland System Refrigeration unit in your ice box. You pay no money down. Simply agree to use it for 30 days. Put it to every conceivable test. Note how much longer the contents stay fresh and useable. Observe that fruits and vegetables retain their freshness and flavor for much longer periods. That meats and milk are in perfect condition for at least twice as long as ice will keep them. Compute the magnitude of this saving over last year's time. Compare the advantages of the Copeland System with the disadvantages of the ice method. Then if you don't feel that a Copeland System will be one of the best investments you ever made we will take it away. It won't have cost you a penny except for the current consumed. This you will probably find amounts to less than the ice you would have used.

### You Are Protected

On the other hand, if you decide to keep the System, then our remarkable one year guarantee becomes effective at the end of the 30-day period. This backs up your decision. Assures you that without any additional charge whatever, your System will

be in perfect operating condition for 12 months. Protects you in every conceivable way.

### Have This Convenience During the Holidays

The Trial Period on every System installed before the Holidays will be extended until January 4, 1926. This gives you the many advantages of Copeland over the festive season. The turkey and other goodies may be procured several days before using and stored safely. Leftovers may be kept until they can be used conveniently. Or, you may make that usual holiday trip back home knowing that the refrigerator will be as sweet and clean when you return as when you left it.

### Payments by Budget Plan

Payment for your Copeland System may be made either on a cash basis at the end of the 30-day trial period or on the popular budget system—a small amount each month. Twelve months' time if you like. Makes it possible to enjoy the benefits of the Copeland System without disrupting the family financial arrangement in any way.

### 24-Page Booklet on Request

Therefore, without obligation, without the risk of a single penny, without having to lay out any sizeable sum at any one time, you can become the delighted possessor of Copeland System Electric Refrigeration. Take the first step toward perfect food preservation by returning the attached coupon today. Tear it out now.
