

**Winnetka Woman's Club**

On Wednesday evening, December 2, at 8:30 o'clock, the Winnetka Woman's club announces a program of especial interest. Aaron Sapiro will speak to the members, their husbands, and their friends on "Co-operation in Agriculture." Mr. Sapiro is the head of the co-operative marketing movement in this country. He is one of a group of leaders who are teaching better economic principles and adjusting the farmer's problem as a class to the problems and conditions of other groups in America. These thinkers are gradually compelling the political leaders to follow an economic program of adjustment rather than the old class program of class exploitation.

Mr. Sapiro has successfully reorganized many of the largest industries both here and abroad. His wheat reorganization in Canada, cotton and tobacco and dried fruits reorganizations in this country, his work on international trade with England and France are well known.

Mr. Sapiro is closely allied with Hoover in Washington, and is at present, assisting in working out the railroad rate-making situation. His work has been openly attacked by Henry Ford, it is stated. The libel suit against Mr. Ford, which Mr. Sapiro has instituted, is set for trial February 12, at Detroit. This trial will command national attention.

Not only is Mr. Sapiro a lawyer of extraordinary ability, but he is also a magnetic and brilliant speaker. His story of any industry is always dramatic, thought-compelling, and fascinating. For this reason, the Winnetka Woman's club is holding an open evening meeting to enable the husbands and their friends to hear a speaker of dynamic energy and power, whose work, it is stated, is of great importance in our national affairs.

Mrs. Florence Kiper Frank gave a reading of her own poems to a fascinated audience at the Woman's club Tuesday, November 17. Mrs. Frank is as well known in literary circles in New York as she is in Chicago, and her hearers went away not only thrilled with her lovely verse, but with the feeling that she belongs there and is a member of this club of our community.

The club meetings are being well attended, which is always gratifying to the board of managers.

Names of non-resident guests will be read at each meeting, giving an opportunity to members to welcome those who visit them.

Mrs. Charles Barker gave a report

of the morning session of the Tenth district, and Mrs. Howard Bowers reported for the afternoon.

Mrs. Prouty, president of the Library board, called attention to the display of children's books at the club and warned mothers against unwholesome books being circulated under the disguise of the Boy Scout cover, when, in fact, they are only dime novels, quite unfit to read.

The hostesses for the afternoon were Mrs. Oliver Knode, Mrs. Frederick Thomas, Mrs. Spencer Beman, Mrs. Chester Sargent, Mrs. Maurice Wilson, and Mrs. Charles Harding, Jr.

**Sponging and Pressing**

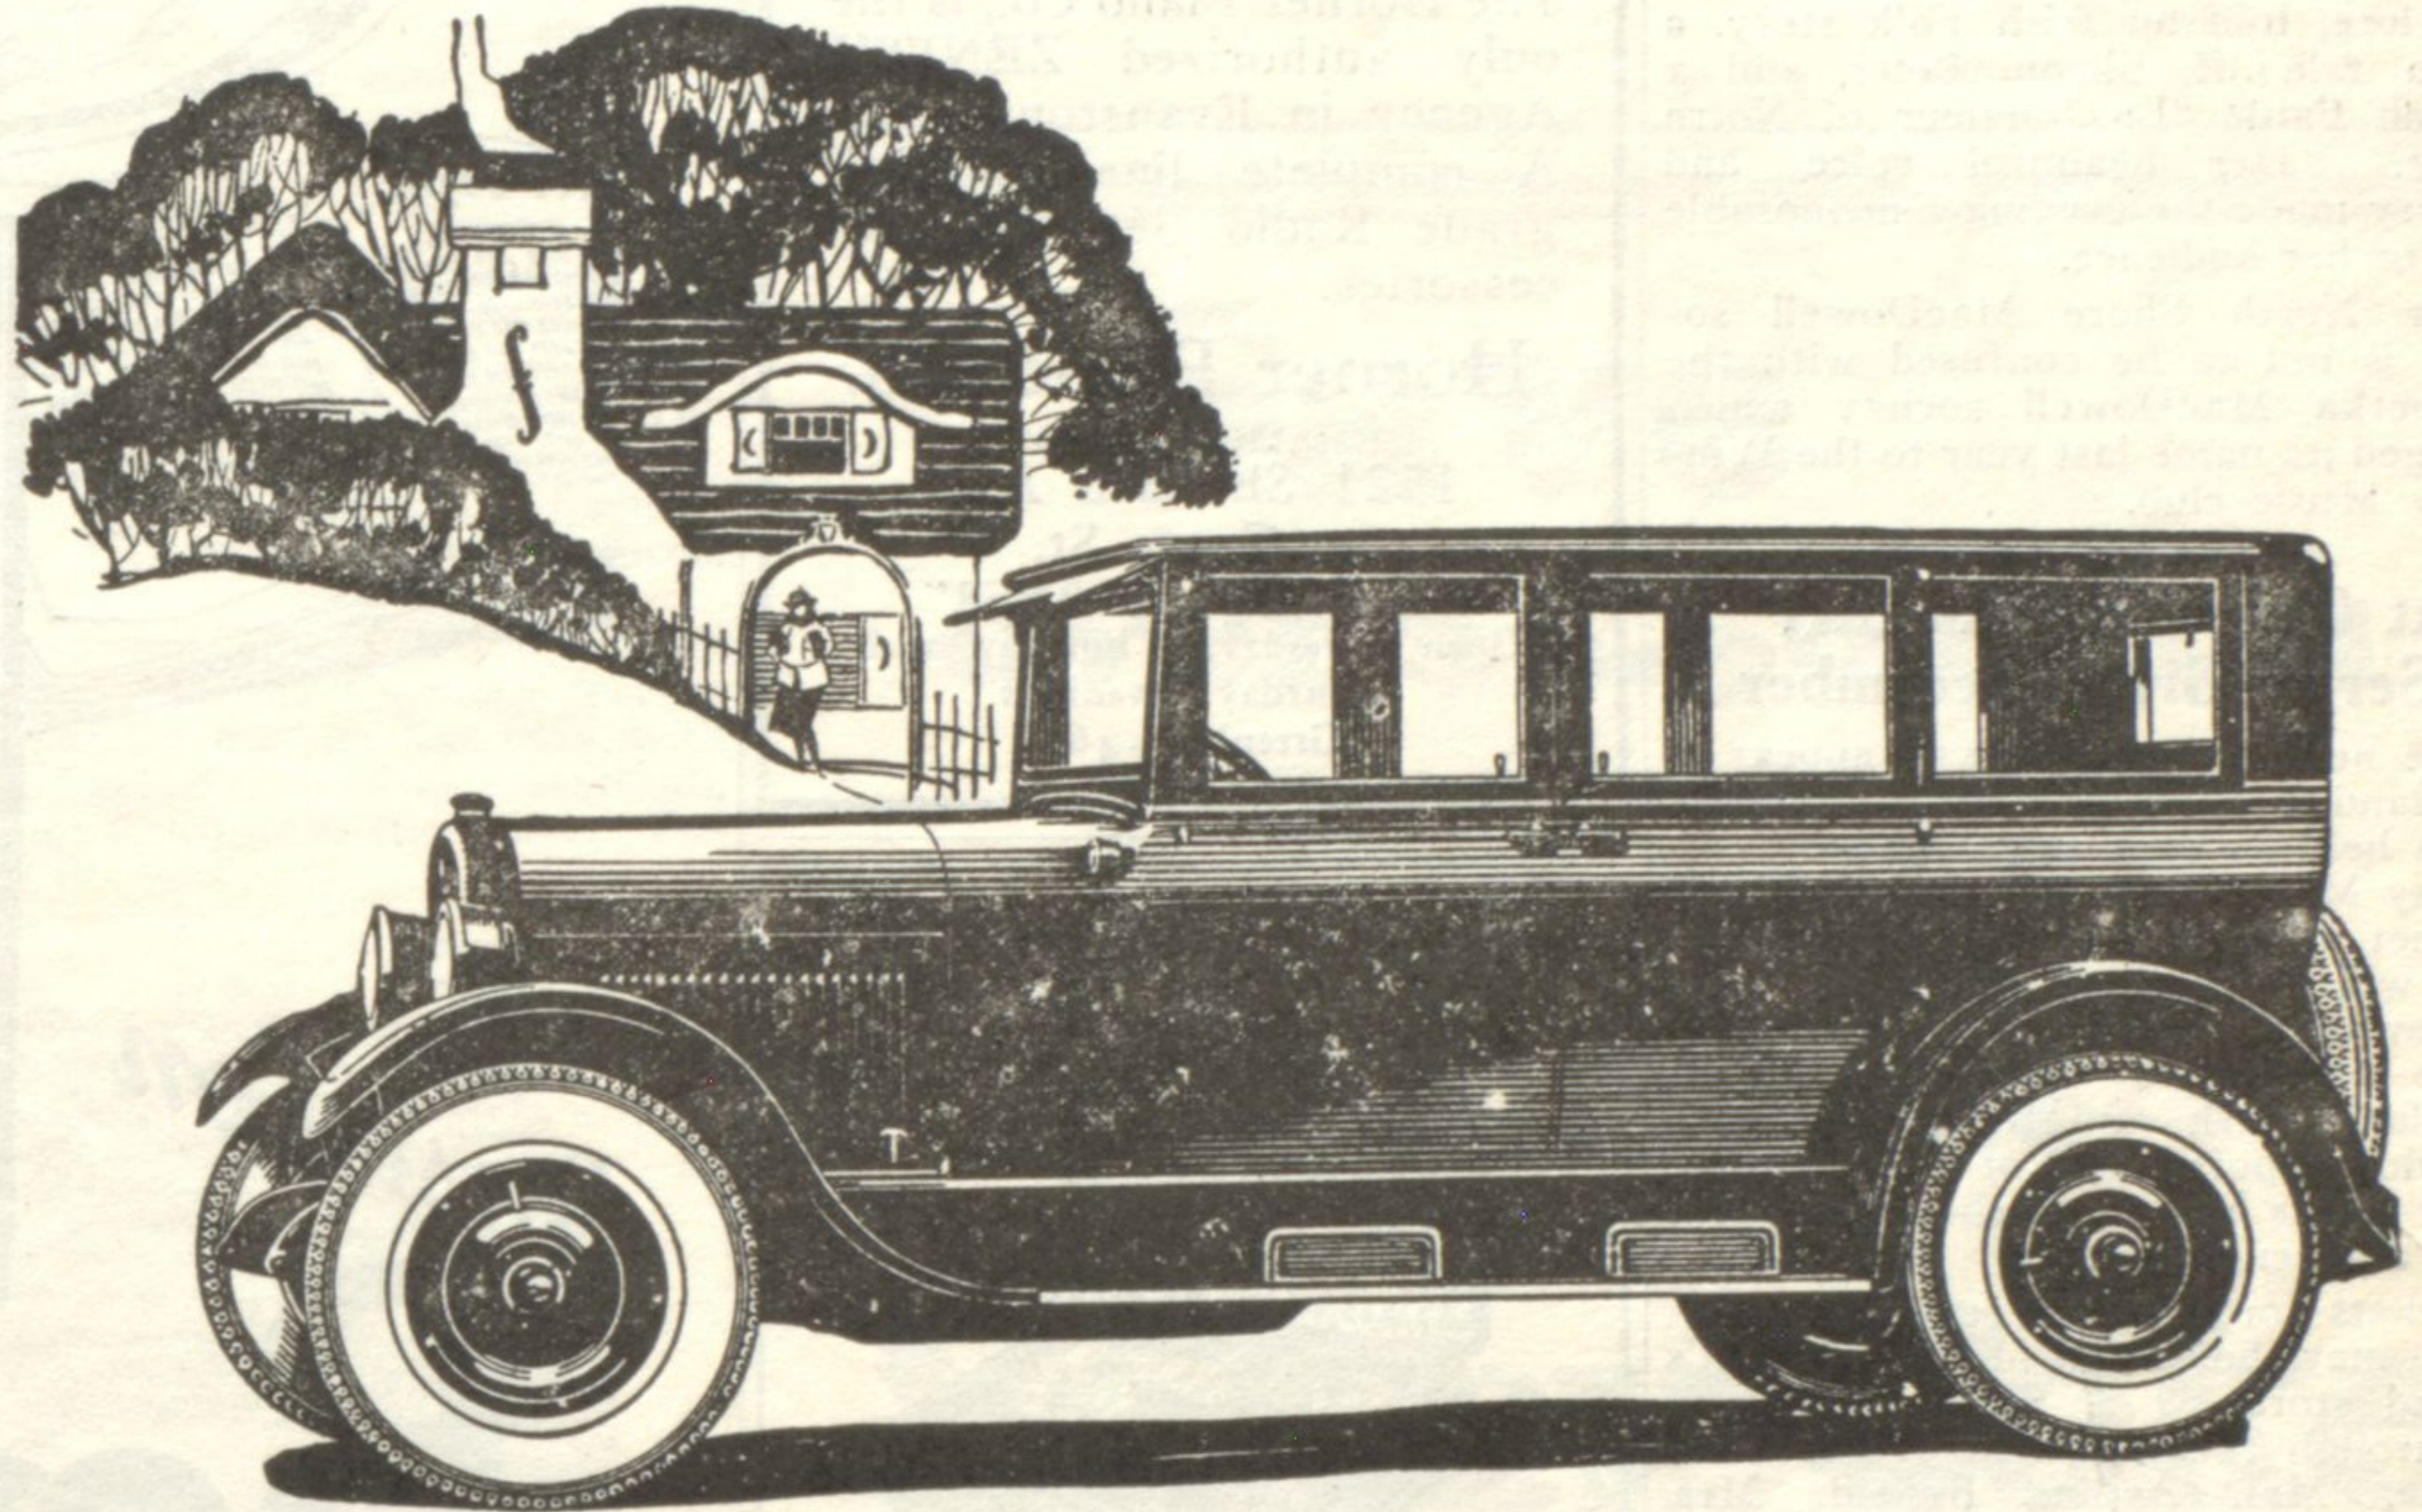

There is no one better equipped to do this work than a **MASTER CLEANER**. We return your clothes the same day we call for them.
