

Invite Parents to "Question Box" at Horace Mann School

The Horace Mann school will hold its first evening meeting of the school year Friday, December 4, at 8 o'clock in the school auditorium, it was announced this week.

The program is to be in the nature of a question and answer scheme, with President Ernest Ballard of the school board, Superintendent of Schools Washburne, and Mrs. Walter Fisher, president of the Parent-Teacher association, prepared to give reply to any queries the mothers and fathers of school children may care to propound.

Written questions sent in to Mrs. D. P. Green, 329 Chestnut street, chairman of the school, before the meeting, will eliminate any duplicate questions, it is suggested.

After written questions have been taken care of, all questions from the floor will be answered.

The room that has the largest attendance of parents at the meeting will receive a new book for its shelves, it is explained.

All parents of the school are urged to attend and are invited to be free in asking questions.

TO UNVEIL TABLET

Winnetka members of the Chicago and North Shore branch of the Society of Colonial Dames will unveil a tablet to the memory of LaSalle and Henry de Tonty, his Indian lieutenant, Saturday, December 5, on the Michigan avenue bridge. Wheeler Williams, sculptor of the tablet, and Mrs. J. A. Lamar of New York, national president of the Dames, will be in charge of the ceremony which will be followed by exercises in the rooms of the Chicago Historical society.

There's HEALTH in the Kleen-Heet-ed Home!

Seven out of ten winter ailments, doctors say, come from homes over-heated or under-heated—uneven, fluctuating temperatures indoors. Now all unnecessary! With Kleen-Heet you can have just the temperature you want—say, 70°—constantly, uniformly, hour after hour. Let the children play where they will. No danger of chills or of over-heating.

That's why so many hospitals and schools prefer Kleen-Heet to old-fashioned coal. They value the cleanliness, the quiet, the safety from fires caused by "live" cinders—but above all, this even, healthful, dependable heat.

When you want "just a little" heat

The days with a chill in the air, when you don't like to build a coal fire and can't control it if you do, think of the Kleen-Heet-ed home! Kleen-Heet turns itself on just long enough to warm up the house, then turns itself off. Think of the difference in comfort—of the work and waste if you heat up with coal—of the economy of the Kleen-Heet way!

In every sort of weather, through more than five years, Kleen-Heet has proved itself. In 20,000 homes from Miami to Winnipeg, users have found it as simple, as dependable, as trouble-free as their lights or water! In Chicago, home of the oil heating industry and the most competitive market in the world, more Kleen-Heets were installed last year than burners of ANY TWO other makes COMBINED.

For any size home

There are models of Kleen-Heet to fit every need, from bungalow to skyscraper. For steam, hot water, vapor, or hot air furnaces. You are SURE of getting the most economical size for your home, with Kleen-Heet. Convenient terms make it easy to buy.

Shouldn't YOUR family have this aid to comfort and health THIS winter? They can, if you act quickly. Learn what Kleen-Heet users have learned! Let us arrange for you to see Kleen-Heet in a home near yours. Not in the showroom, but on the job! Phone, or mail coupon—NOW! No obligation.
