

THREE PRACTICAL GIFTS

for the HOME

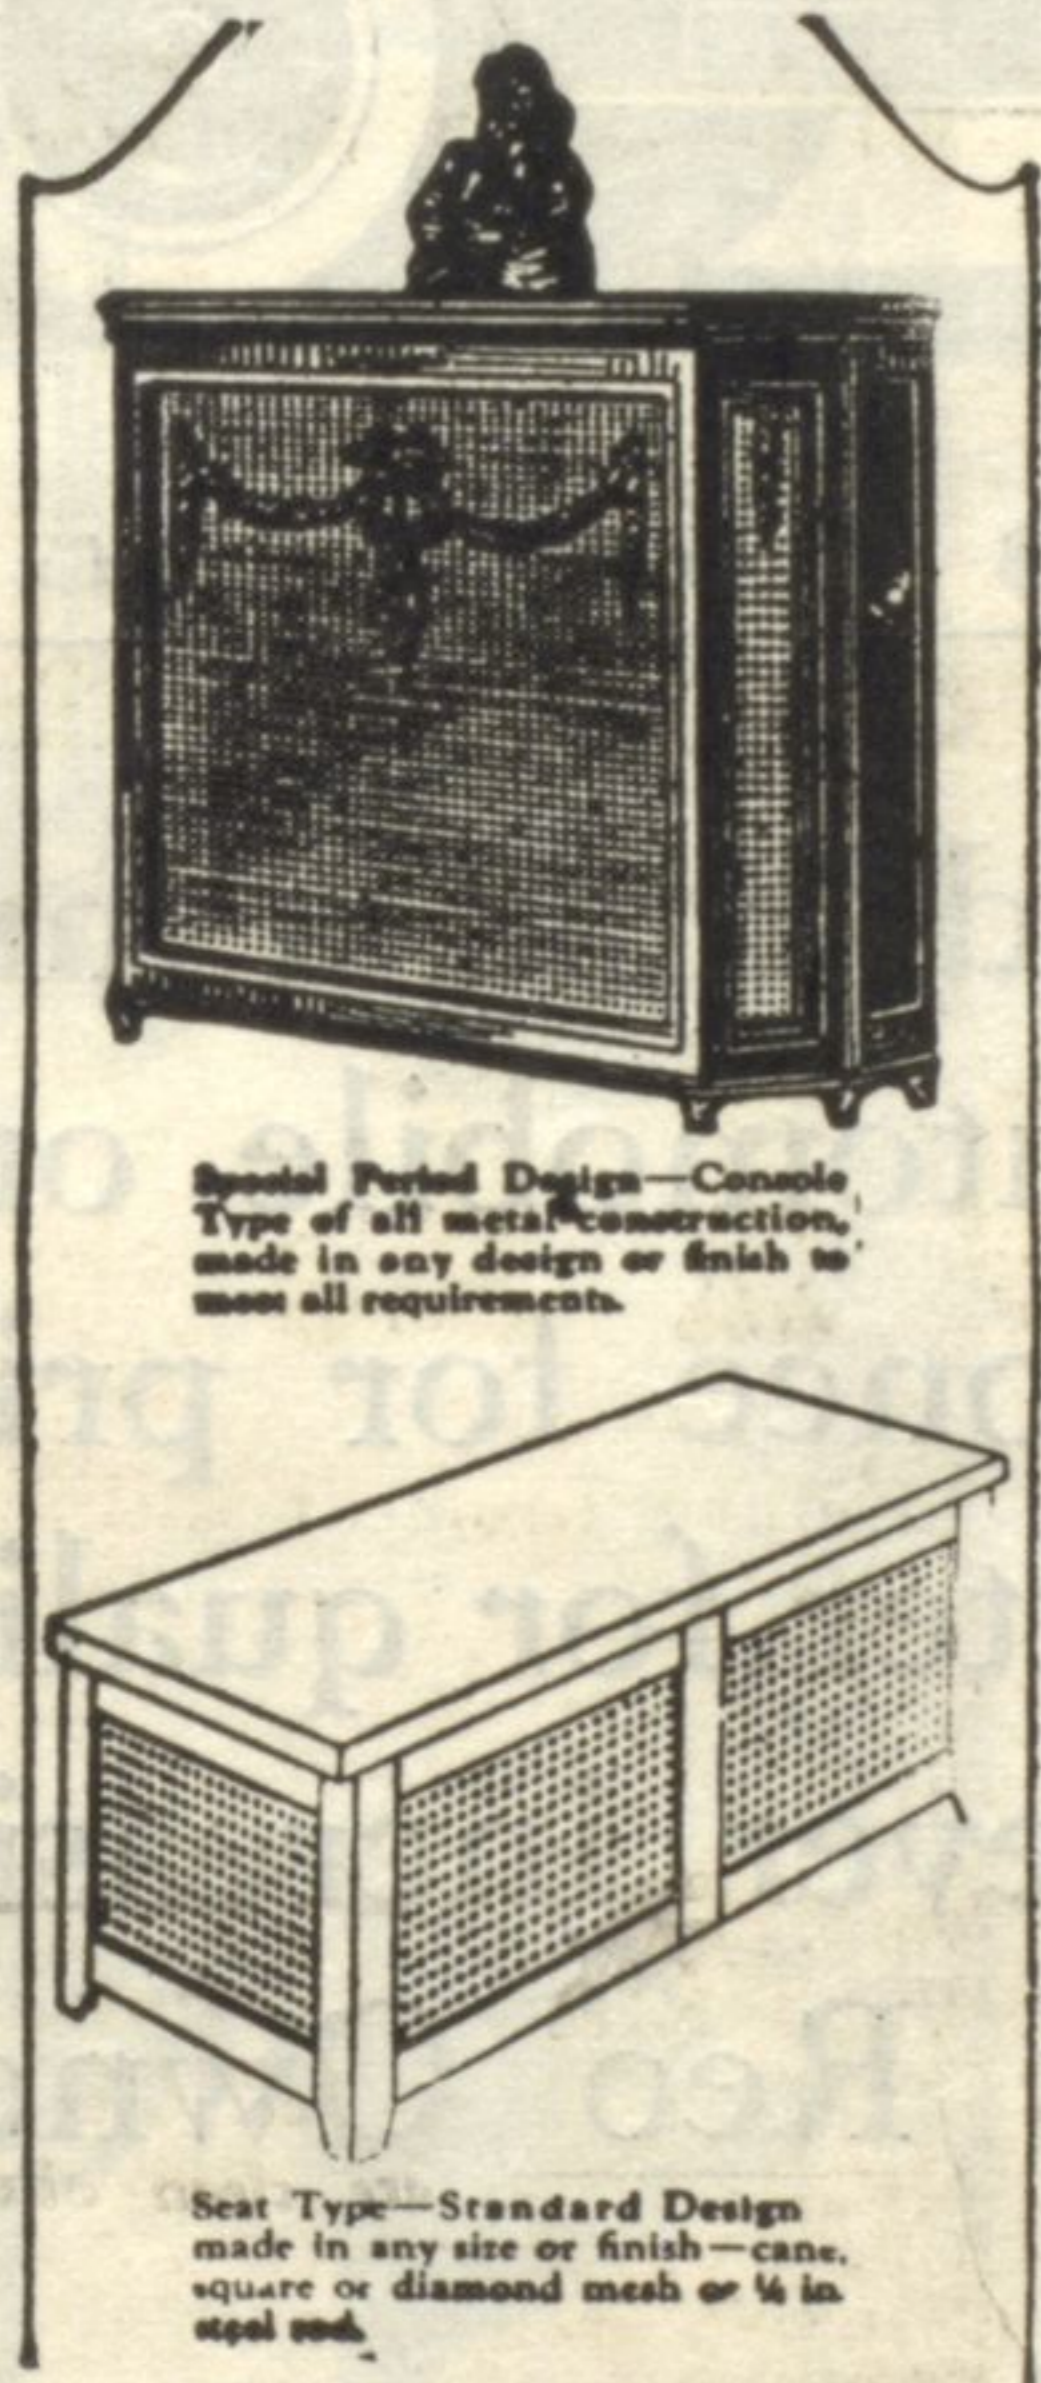

Make Living More Enjoyable for Every Member of the Family

OIL-O-MATIC HEAT can be installed promptly. Only slight interruption to your heat. Thereafter your heating problems are at an end. Your home is automatically heated to just the temperature you like without attention. No fluctuation, no fuss, no muss. Oil-O-Matic is outselling every other burner two to one.

COPELAND Electric Refrigeration for your refrigerator means an end to food preservation troubles in your home. No more iceman—no more mussy floors, but a dry, even temperature in your ice box much colder than ice can make it. Fruits and vegetables not only keep much longer but retain their original flavor and freshness. A Copeland System can be installed promptly. Has several very desirable features which are exclusive.

HUMIDIATORS, the artistic humidifying radiator shields, add greatly to the beauty of your rooms. Prevent unsightly black streaks above your radiators. Change the desert-dry atmosphere of your home to air that is fit to breathe. Greatly reduce susceptibility to colds and other respiratory diseases. Finished to harmonize with any decorative scheme.

Special Perforated Design—Console Type of all metal construction, made in any design or finish to meet all requirements.

Seat Type—Standard Design made in any size or finish—cane, square or diamond mesh or 1/4 in. steel rods.
