

— a page of aluminum ware

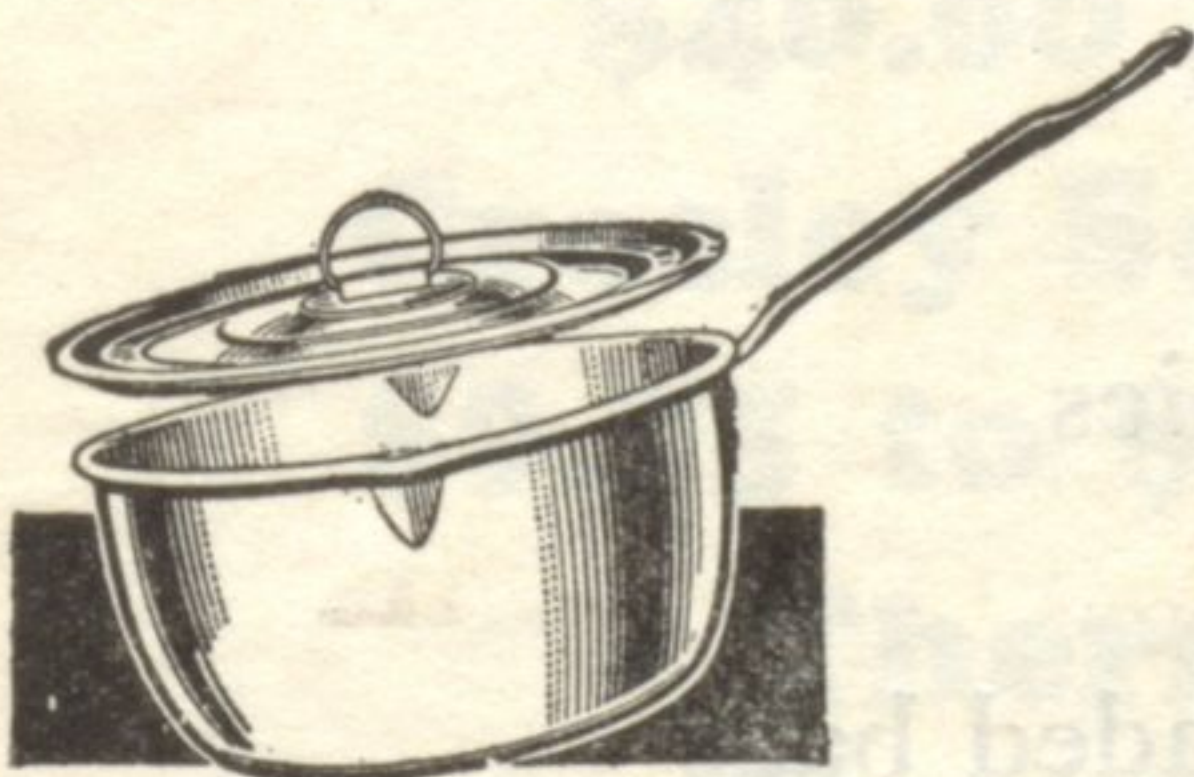

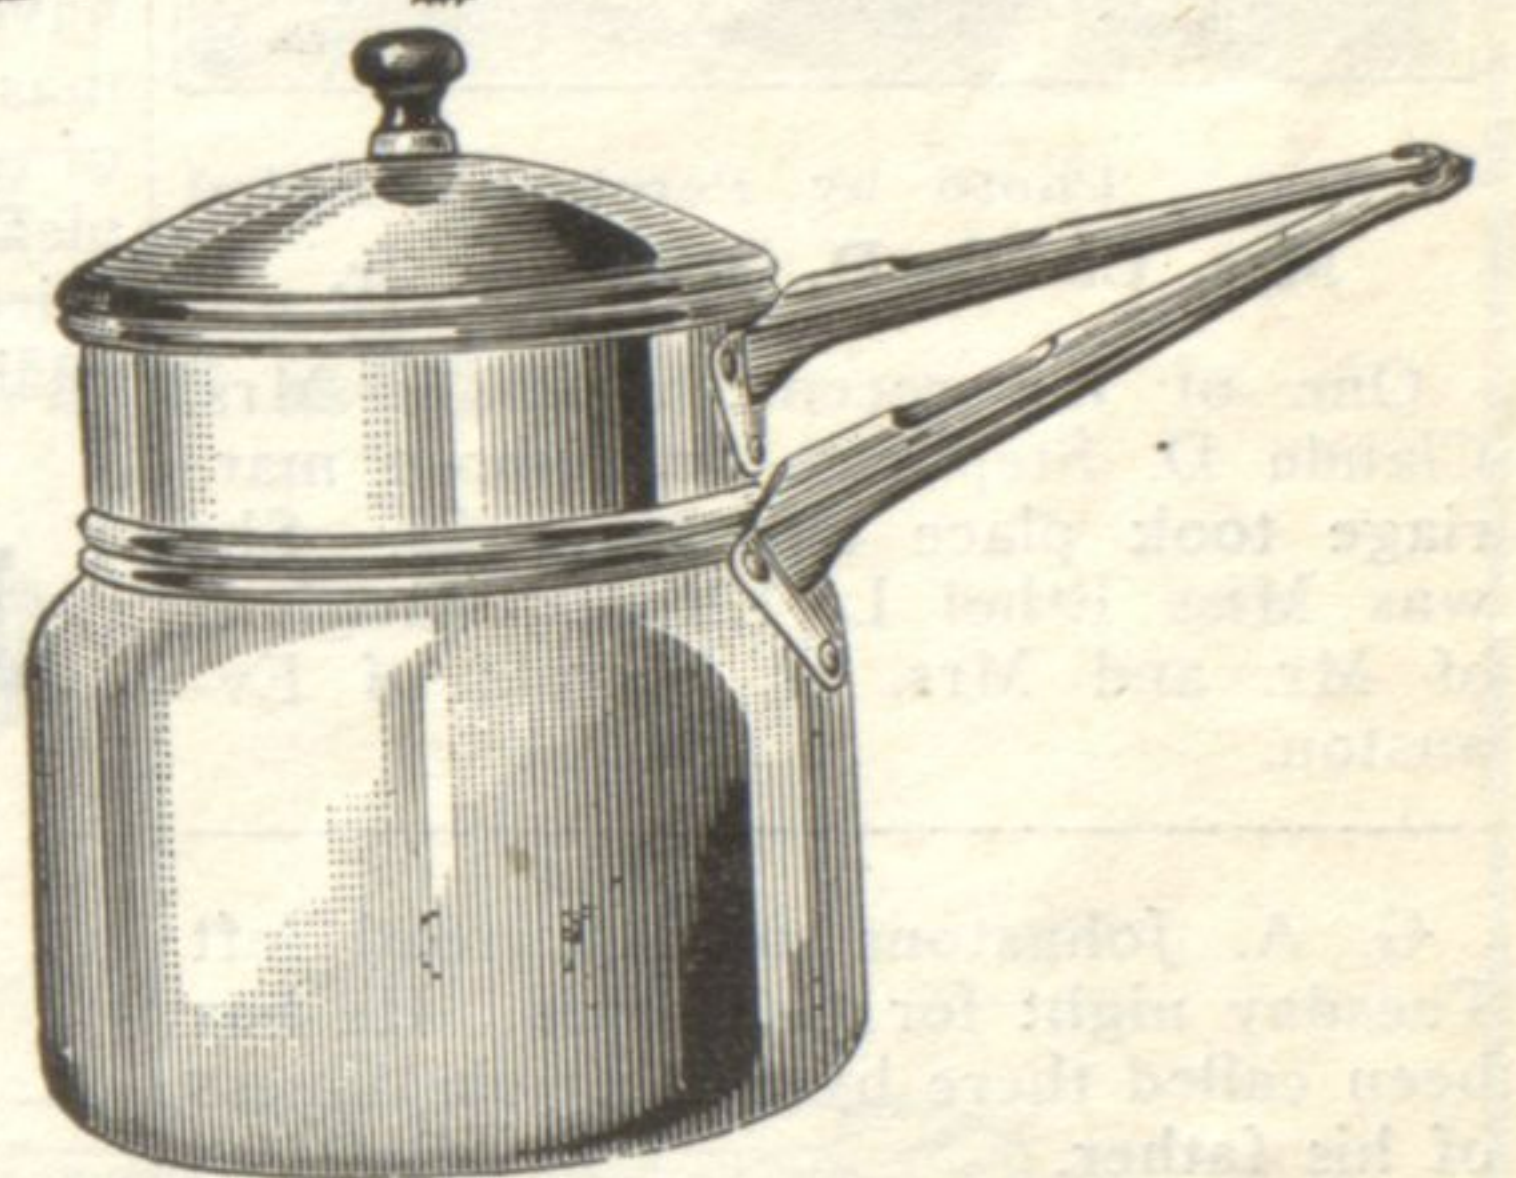

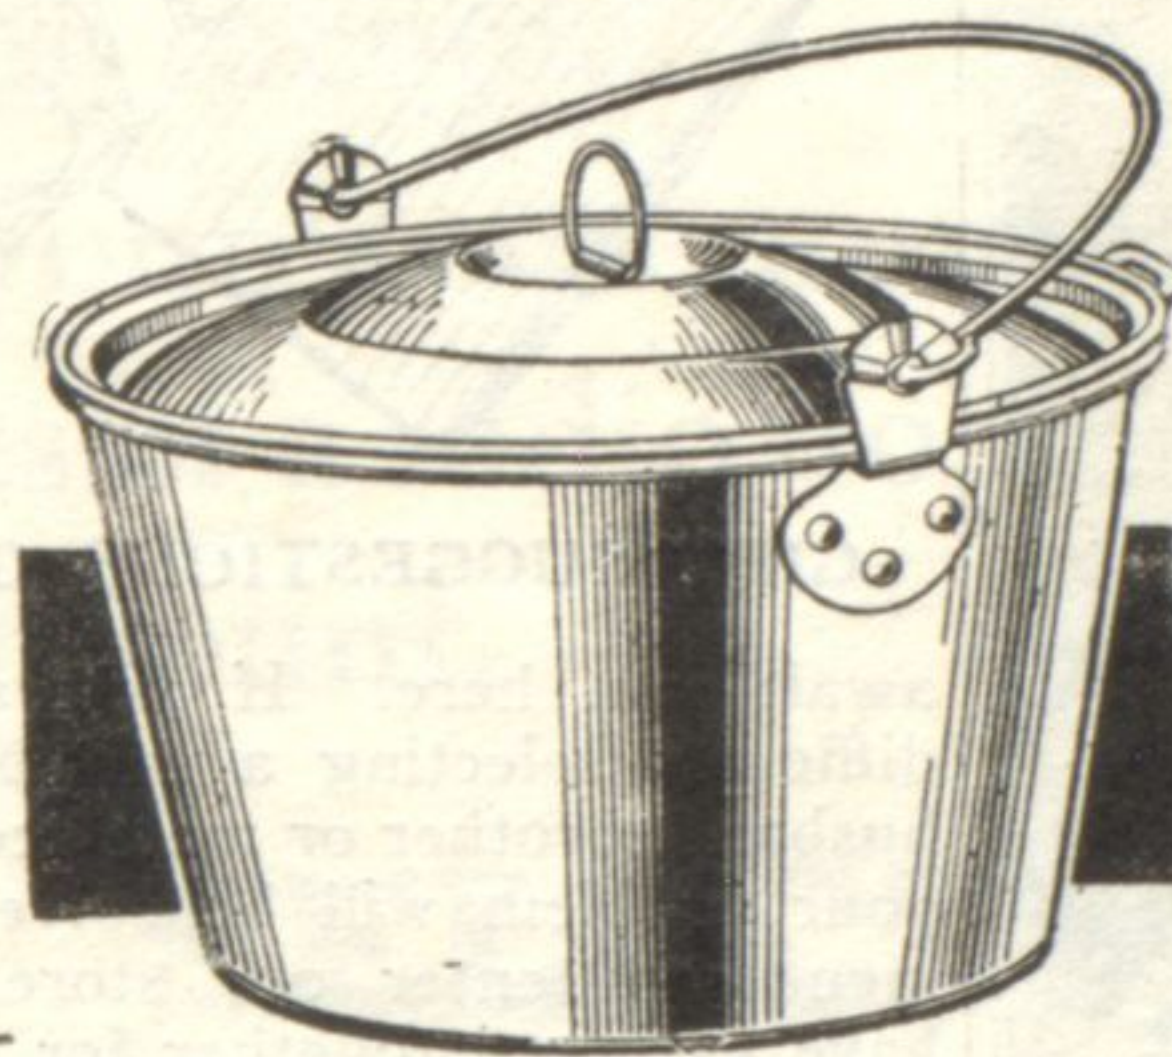

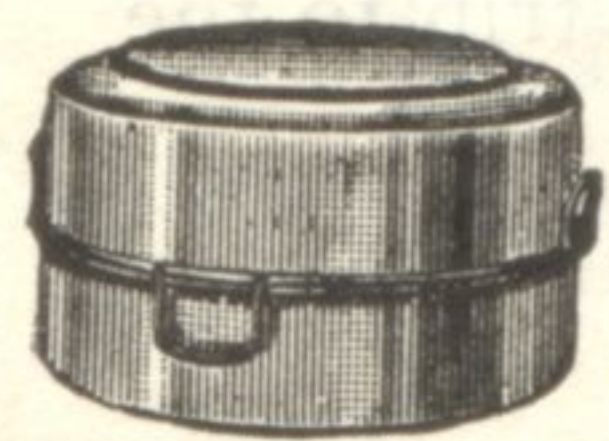

to suggest practical giving

HERE'S a gift idea that's hard to beat! Could anything be more useful and thoroughly practical than these splendid gifts of lasting aluminum? They'll make housework easier and pleasanter and your thoughtfulness will be genuinely appreciated. Give something of aluminum!

Look at this fine aluminum griddle—won't that be just the thing for making light, fluffy flapjacks on these crisp winter mornings? Or a percolator. Coffee is at its best when "perked" in one of these. And there are scores of other things that will go right into service at once in preparing the Christmas dinner—the roasting pan for the turkey, boilers for the pudding, sauce pans and stewing pans. Pans in hand sets of three sizes.

Aluminum wear is everlasting—it's good for more than a lifetime of constant service. We guarantee every piece we sell. Heavy gauge material and the best of workmanship make this aluminum wear supreme!

We've a wonderfully complete showing, arranged specially for your Christmas selection. Here's the tip for Dad and the rest of the family. Now's the time to choose!
