

Child Safety Campaign Spreads Throughout U. S.

The Chicago and Cook County Citizens Child Safety campaign has been made national in its scope, O. G. Temme, general chairman, announced this week after being informed of plans for placing A-B-C (always be careful) visual education books into the hands of several million school children in other cities.

The campaign was taken up in San Francisco where T. A. Tomasini is general chairman and Senator Shortridge, Major Rolph and other prominent citizens honorary chairmen. They plan to extend the campaign to all the territory along the coast and will organize a Pacific coast division with San Francisco, Los Angeles and Seattle as the large branches.

St. Louis school children probably will receive A-B-C books through the agency of the St. Louis chamber of commerce. A citizens child safety committee was organized there and the chamber of commerce examined the visual education plan with the idea of putting it to a vote of directors and expanding the campaign.

Omaha business men visited the Chi-

cago office and looked over the campaign for several days, then decided to place the books in Omaha and to suggest to other cities of Nebraska that they try a year of campaigning to end the slaughter of children by automobiles.

Several smaller cities have campaigns in full swing.

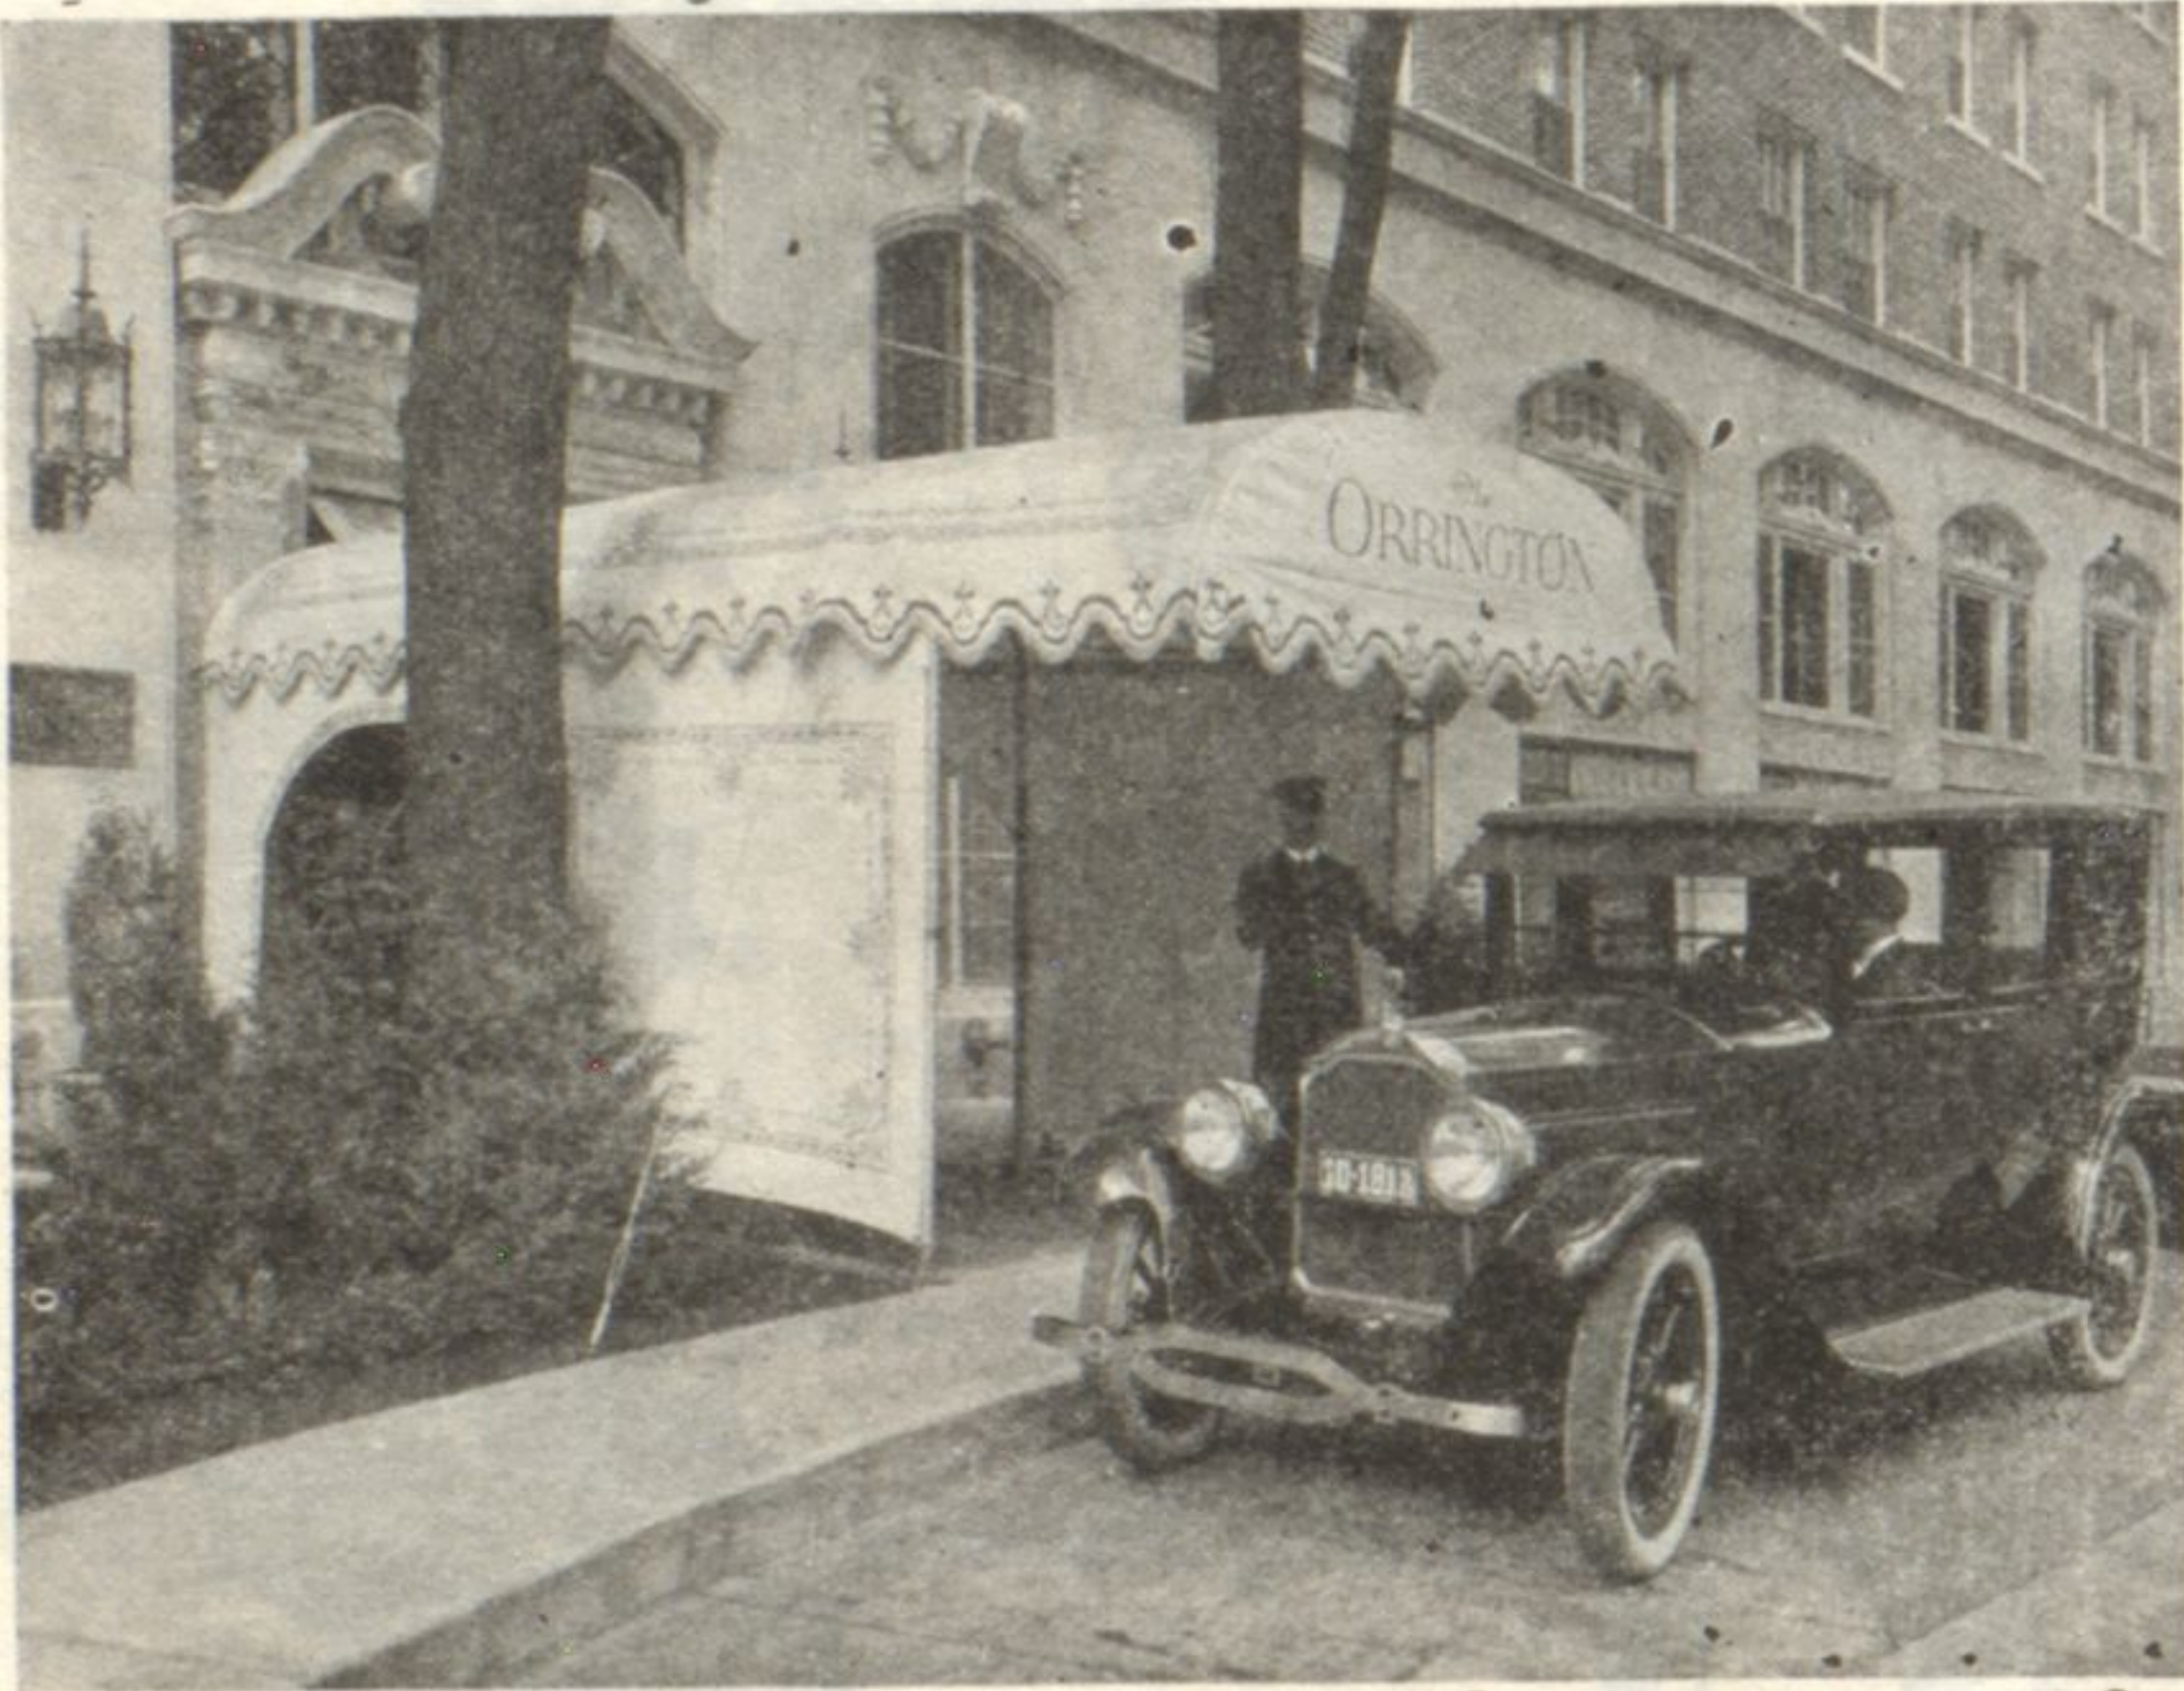

HEAD TEACHERS' GROUP

Miss Laura F. Ullrich, instructor at New Trier High school, has recently been made president of the State Association of High School Teachers of History and Social Science. This is a large organization which includes members from nearly all high schools in the state.

VASSAR CLUB TO MEET

Mrs. Keith Preston will entertain the members of the North Shore Vassar club at her home, 729 Emerson street, Evanston, Monday afternoon, December 21, at 3 o'clock.

Mrs. William Fillmore Campbell of New Wilmington, Pa., arrived in Winnetka Friday to spend the holidays with her mother, Mrs. William McKinne of 605 Cherry street.

AGAIN, this winter,
the season's smartest
events of the social calendar
will take place—
as a matter of course—at

No smoky gas to burn off

When you replenish your fire with Chicago Solvay Coke you don't need to stand around while the smoky gases burn off. You don't have to wait to make several adjustments of dampers. Firing with Chicago Solvay Coke consists simply of putting in more coke—with your drafts properly set to produce the desired heat.

Chicago Solvay Coke contains more heat—ton for ton—than hard coal and costs you 30% less. It has almost double the heat of soft coal, yet it costs less per ton. There are few ashes, no smoke and no destructive soot when you use Chicago Solvay Coke.

Your fuel merchant will send a Service Man to look over your hot air furnace, boiler or stove and show you how easily and economically you can burn Chicago Solvay Coke. The established dealer deserves your business—telephone him and place your order.
