The U. S. Government Says:

"As a fur bearing animal propagated in captivity the Silver Fox has no rival, and both live foxes and their pelts are in demand. Probably no other live stock enterprise pays larger returns for the money invested."

Your money in Silver Foxes will earn for you more money than it ever did before.

President Harding Said—

(In a speech at Seattle, July 27, 1923)

"Fur farming will become as permanent a source of wealth as cotton in the South or corn in the Mid-West."

Get started today in a business where nature rules and profits are large. Silver Foxes make very profitable silent partners. Our terms fit every purse.

LEA SILVER FOX RANCH

INC.

5 N. Wabash Ave. — 1309 Kesner Bldg. — Chicago, Ill.

PROFITS in SILVER FOXES

are Naturally Large

Being a Live-Stock Proposition NATURE RULES

Nature is never on vacation. Nature works seven days a week and fifty-two weeks a year. 100% annually is not an unusual return in the Silver Fox Industry.

By purchasing Silver Foxes you take the sure road to financial independence. They will create for you and yours an income producing estate in a short while.

No infringement on your time—WE CARE FOR THEM. Your investment always safe.

In case of DEATH, ESCAPE, or THEFT we replace immediately with Foxes of equal quality. When buying Lea Foxes you build on a solid foundation. JNO. A. LEA of Lea Silver Fox Ranch has furnished over 75% OF ALL THE PRIZE WINNING BLOOD LINES IN THE UNITED STATES. SUPERIOR FOXES PRODUCE SUPERIOR PROGENY AND SUPERIOR FURS NATURALLY COMMAND GOOD PRICES, WHICH MEAN LARGE PROFITS.

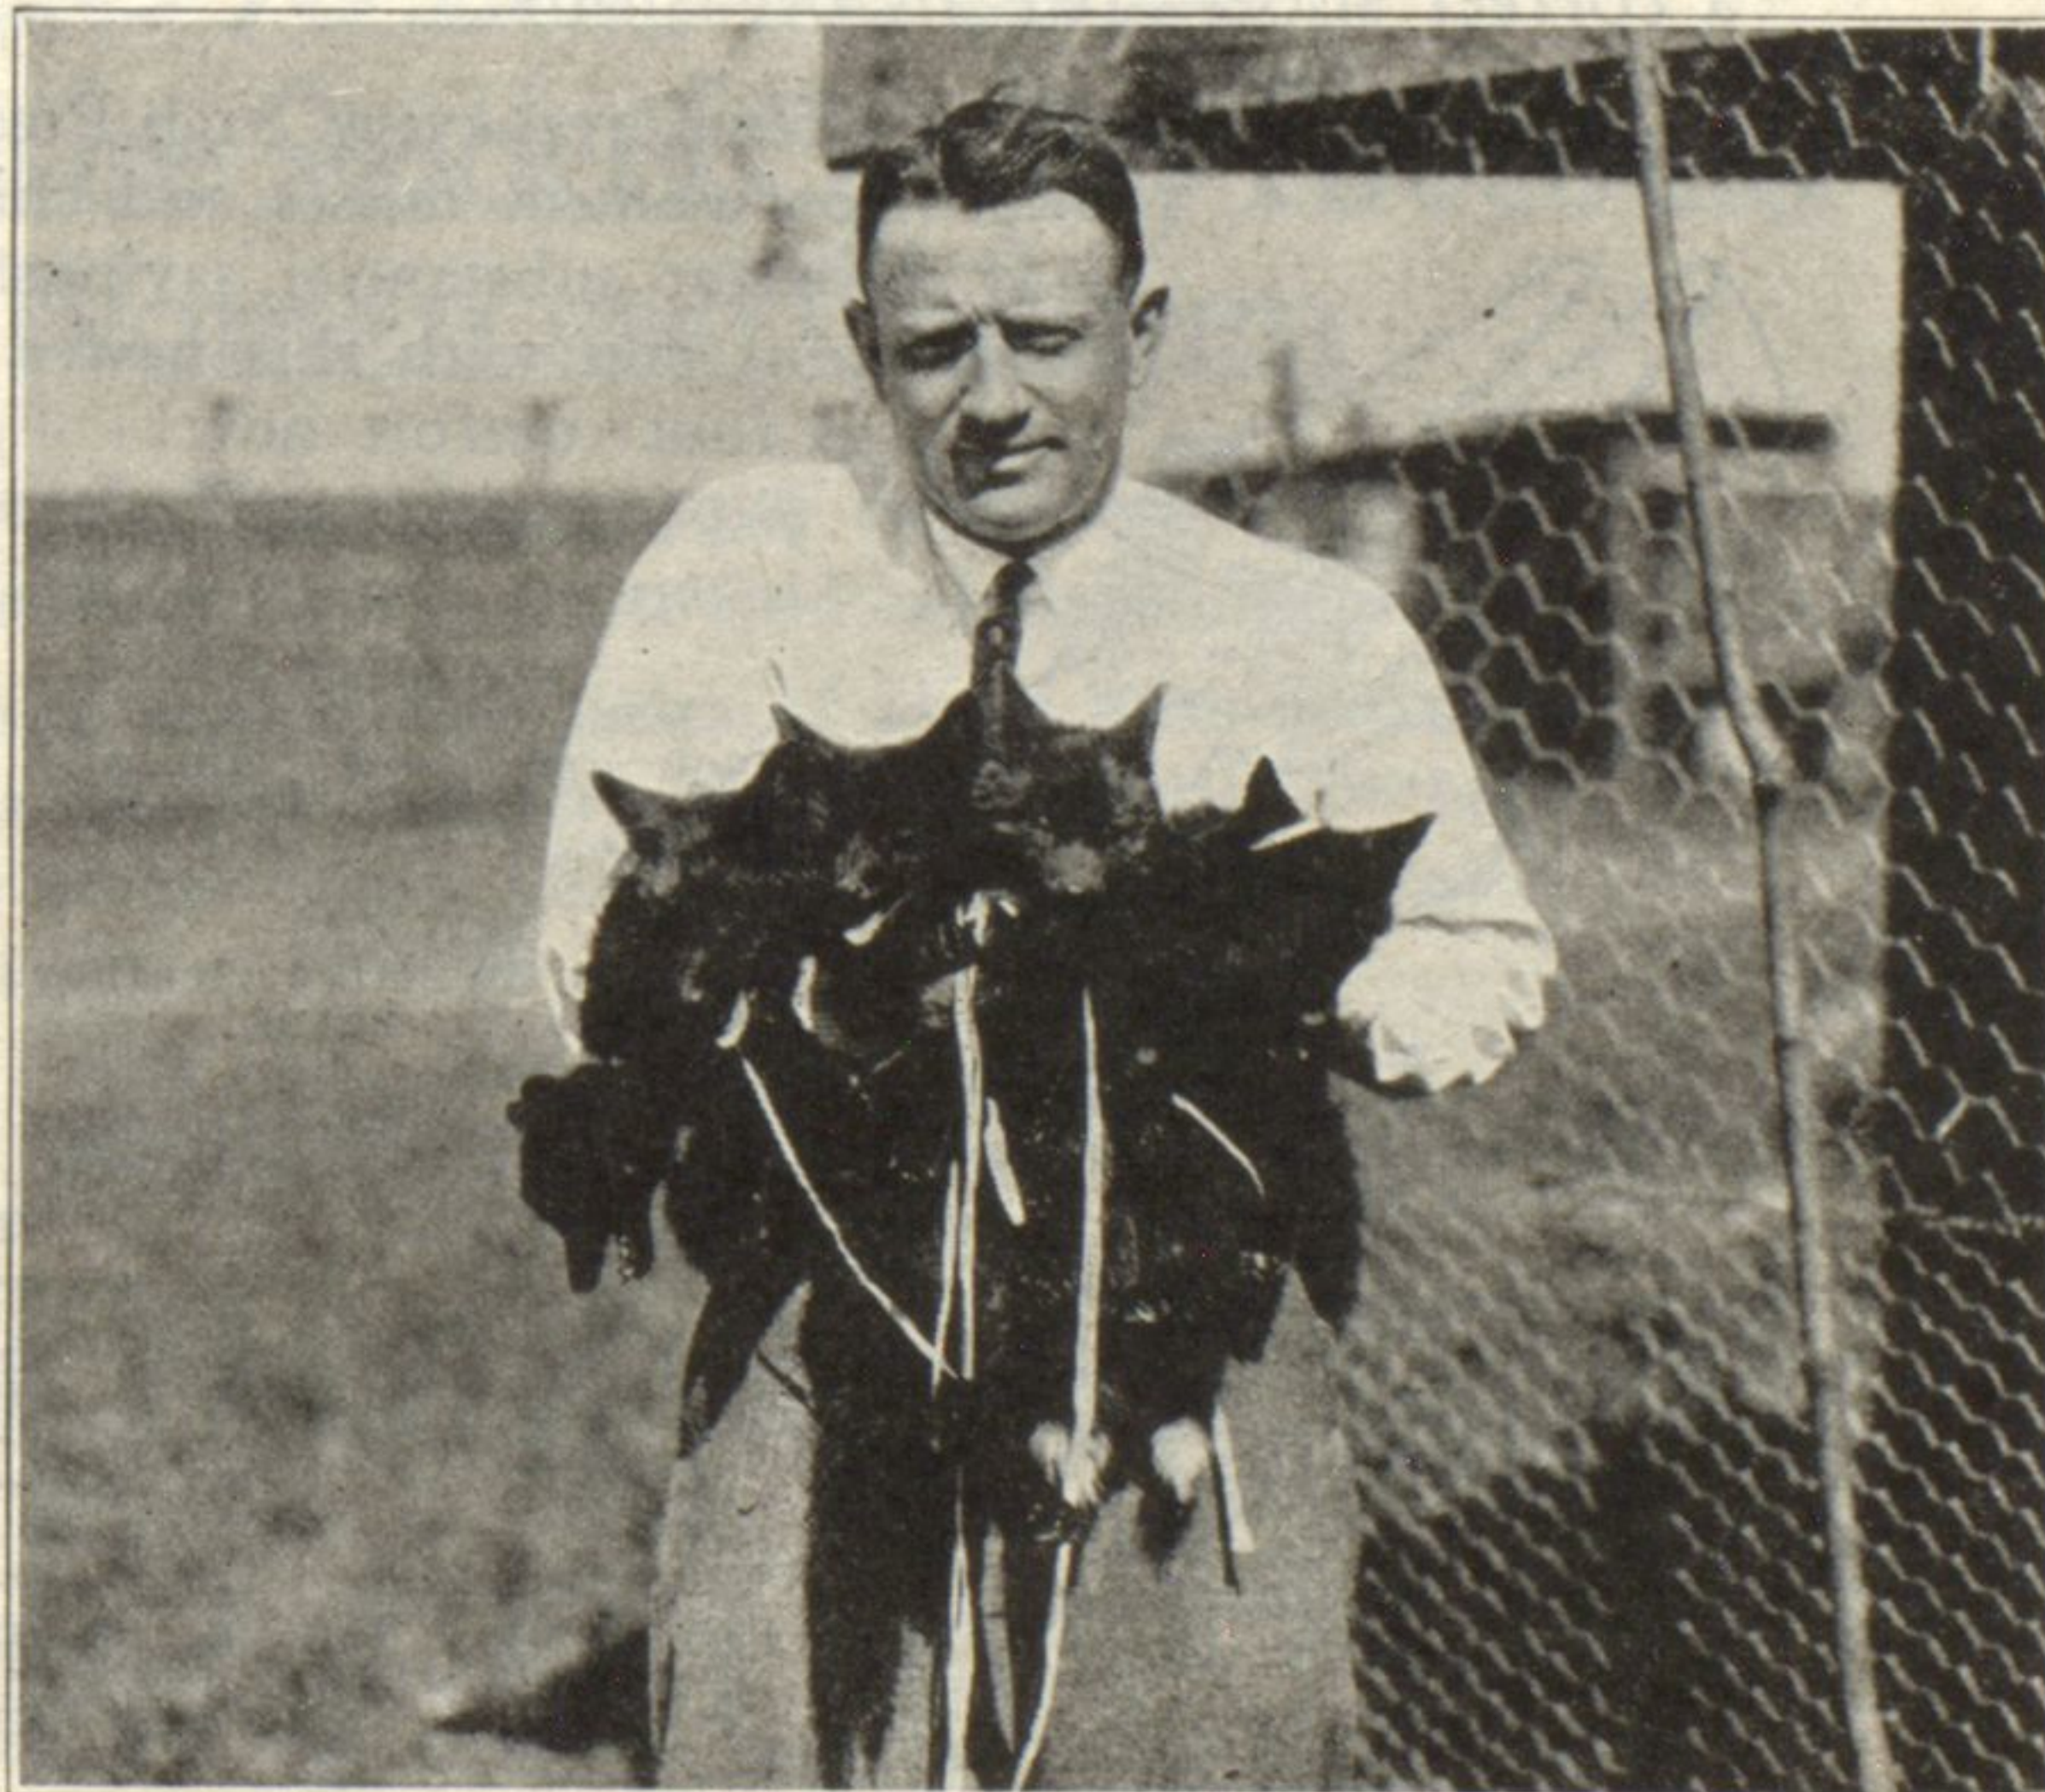

Conservative Estimate of Profits a Purchaser May Reasonably Expect.

We print below a table that is very, very conservative. We base the increase on only two pups to the litter (the ordinary litters are 4, 5 and 6), assuming that the EXTRA FOXES will PAY UPKEEP:

YEAR	FOXES	INCREASE	TOTAL FOXES
First	2	2	4
Second	4	4	8
Third	8	8	16
Fourth	16	16	32
Fifth	32	32	64

As table shows, there should be 64 Silver Foxes after five breeding seasons. It is a foregone conclusion that 64 Silver Foxes can be readily sold for the insignificant sum of \$100 per Fox or \$6,400. Deducting the original investment of \$1,750, there would remain a net profit of \$4,650, or 260 per cent, an average of 52 per cent per annum. The final analysis shows that by an investment in Silver, \$1,750 would produce, based on the figures above, an annual profit equivalent to 6 per cent on \$15,500.

Assets Are Born

Six Pups of a litter of ten produced and raised by a pair of Lea Foxes.
