Tuesday Evening, Jan. 19, 1926

at 8:00 o'clock

The Lecture will be delivered in the Church Edifice

CENTRAL AVENUE AT TENTH STREET, WILMETTE, ILL.

Biggest Gym Class to Celebrate Anniversary

On January 14, station KYW will complete two years of daily broadcasting of morning exercises by the physical work staff of Central department Y. M. C. A. Chicago and will celebrate with a gala week. Many north shore people are members of this morning calisthenic class.

KYW was the first station in the world to put on these health exercises broadcasts as a daily feature. Over 50,000 different people have written in for a copy of the exercise charts, according to P. A. Leonhardt, director of physical education at Central "Y", who originated the plan. This is said to be the largest gymnasium class in the world and yet there is room for as many more as wish to join it and perfect privacy is assured for all.

Physical directors of the Young Men's Christian association, with the cooperation of local radio stations, have established similar radio morning exercises based on the Chicago example, in Detroit, Mich., Newark, N. J., Dallas, Texas, San Francisco, and Mexico City.

Begin Work on Stadium for Purple This Spring

Northwestern university is planning to break the first ground for its proposed new athletic stadium as early in the spring as the weather will permit. Work will then proceed rapidly and it is confidently believed that the initial structure of two decks with 49,000 permanent seats will be completed by the opening of the football season in the fall.

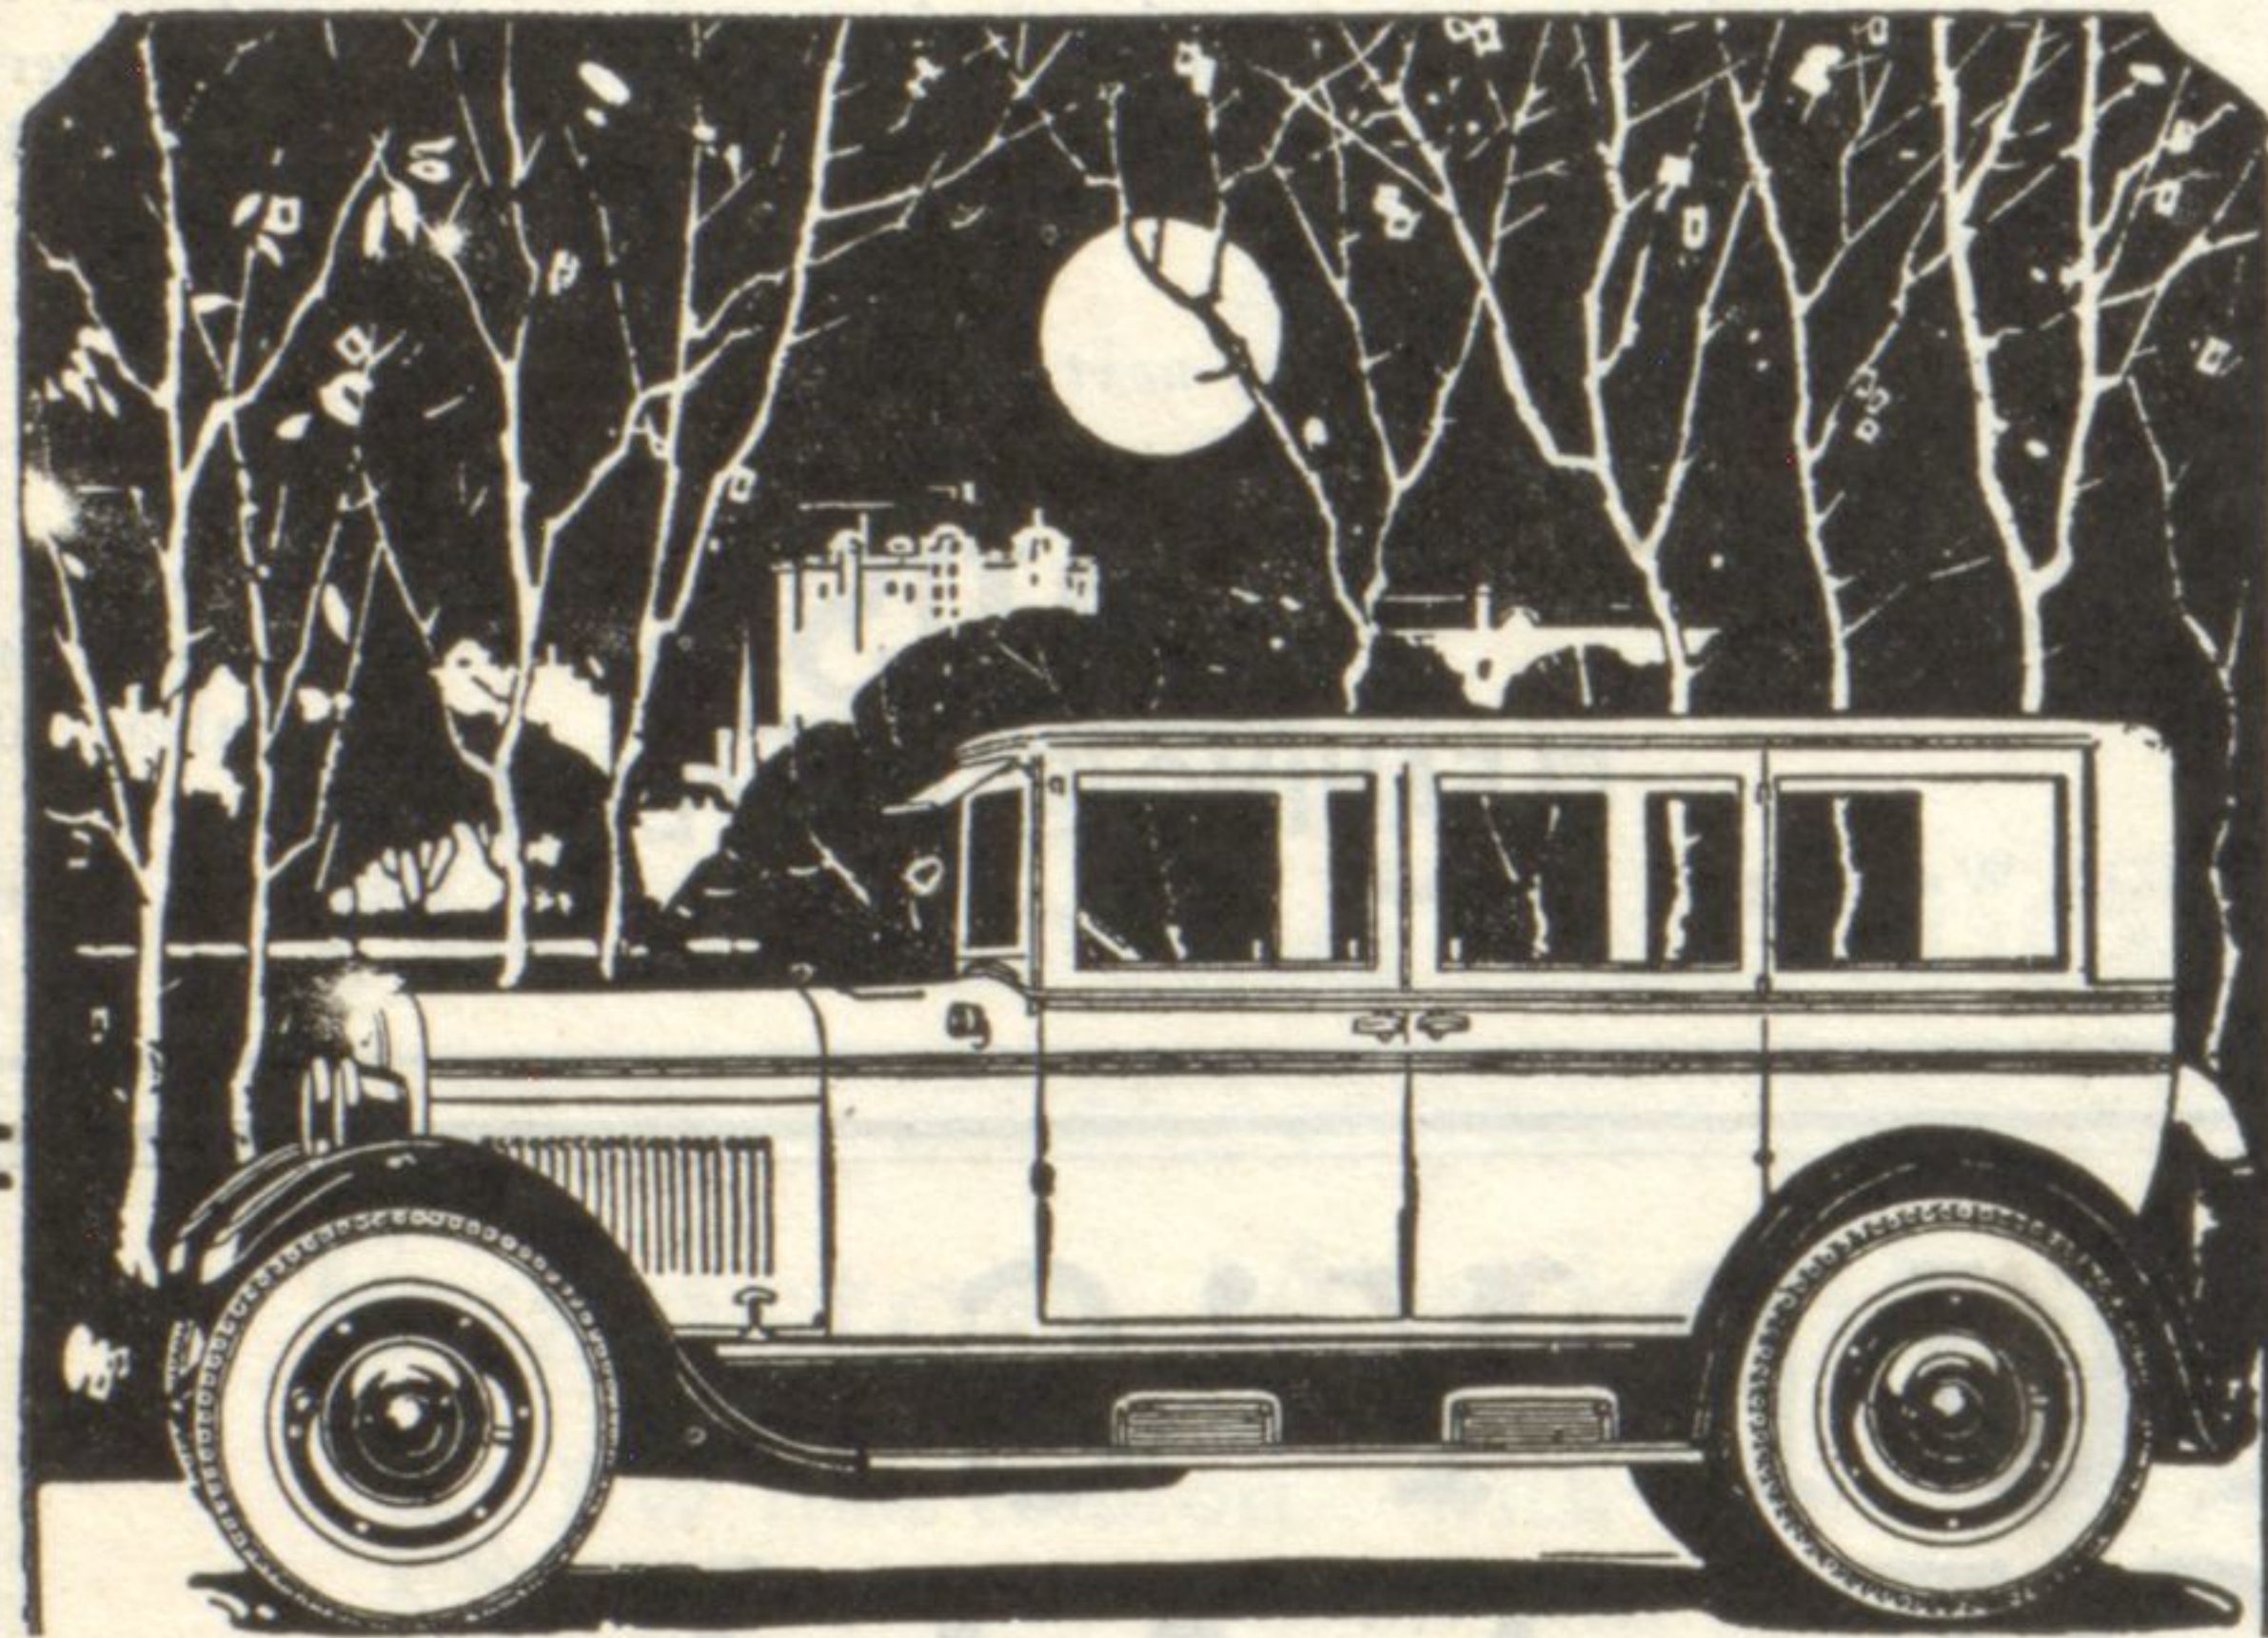

The Purple stadium is planned as a three-decker and is so shown in the photographs, but due to the rigid zoning ordinance existent in the City of Evanston only two decks, 80 feet in height, will be constructed at this time. The third deck will be added, with the consent of the Evanston city fathers, when the need is acute. The three-decker, however, is the stadium as planned by James Gamble Rogers, New York architect, and Gavin Hadden, stadium engineer. When entirely finished the structure will be 126 feet high, with a total seating capacity, including end seats, of about 75,000. Next fall, when the big game brings an unusual demand for tickets, the two-decker stadium probably will be taxed to capacity, in which event temporary end seats to accommodate at least 6,000 will be erected.

K. of C. Members to Enjoy "Dinty" Feast

Ouilmette Council, Knights of Columbus, will attend a "Dinty Moore" dinner at the St. James church at Highwood Tuesday evening, January 26. The group will be the guests of the Rev. Francis Magner, formerly chaplain of the council, and following the banquet a regular business meeting of the council will be held, the first regular meeting ever held outside the local hall, it is said. Corned beef and cabbage will form the main portion of the dinner and all members of the council are expected to be on hand to partake of this feast.

J. F. Octigan and his family of 592 Cherry street moved to Chandler, Ariz., Saturday, January 9.

Miss Jeannette and Miss Cecilia Keil recently left for Lakeland, Fla., where they will spend the balance of the winter.

New Improved Sedan

\$1565

at Lansing plus tax

New! Standard Control and
Standard Gear Shift
Plus- Split-Second Braking

COME IN AND SEE THIS NEW SEDAN

No printed picture can reproduce the lines and appointments of this New and Improved Reo Sedan.

Printed words can give you only a scant outline of its merits and distinction:

Standard gear Shift—
New Standard Control Plus
Split-Second Braking—
Lengthened lines—

Soundless 6 ground-cylinder motor—

Many minor refinements and improvements enhancing beauty, comfort and dependability.

And the same long-life, far outlasting its honest speedometer, so characteristic of every Reo.

Come in and see it.
