

# ANNOUNCEMENT

*For Your Convenience We  
Are Offering a New Service*

## *Your Old Furniture May Be Traded for New*

*You have often remarked to your friends: "Some day I am going to get a new set for that room, but I dislike to invest money in a new one until I can sell the old one. It is perfectly good, but it just doesn't fit in our general scheme as it used to."*

There are scores of families who have this problem in their homes right now. They would like to get a new suite, but they fear they cannot be properly compensated for pieces they have on hand.

You may now have the new furniture you have been wishing for so long, without losing what you think your old pieces are worth. Come into the store and select your new groups. Then we will call at your home and give you a fair estimate of what your old pieces are worth to some one else who has a place for them. Then we will take it off your hands, credit your new purchase, and place it in our exchange department.

*Make up your mind now to take  
advantage of this new plan*
