

# Announcing ~ Metal Cabinet Frigidaire at New Low Prices

The new Frigidaires are equipped with either single or double-depth freezing trays, providing greater capacity for creams, ices, sherbets, salads and ice cubes.

You can have Frigidaire in your present ice-box. The "frost coil" (left) is placed in the ice compartment; and the compressor (below) in the basement or other convenient location. Frigidaire mechanisms for this purpose cost as little as \$190 f.o.b. Dayton, O.

**T**HE new metal cabinet Frigidaires are here! They offer, at their new low prices, the greatest of values in electric refrigerators. We invite you to visit our display room, see these new Frigidaire models, and learn what a wonderful service Frigidaire can render to your home.

You will be delighted with their beauty. They are built of steel—beautifully finished in enduring white Duco with bright metal trim—lined with heavy, seamless one-piece porcelain-enameled steel.\*

And you can be sure, too, that they measure up to the best standards of Frigidaire construction. All of them are equipped with the Frigidaire mechanical units which are already rendering dependable and economical service to more than 100,000 users. All of them are insulated with solid corkboard.

Perhaps you will be especially interested in the Model M-5-2. It is built complete with metal cabinet, has ample food capacity for the average

family, yet is small enough for apartment use. It can be moved as easily as an ordinary piece of furniture and its price is only \$245, plus a small charge for freight and installation.

Or, you may want to see the Frigidaire frost coil which can be placed in your present ice-box, which is equivalent to four tons of ice a year, which never melts, and never requires any attention.

You will be interested, too, in the new arrangements of Frigidaire freezing trays, a choice of either deep or shallow trays for the freezing of large or small quantities of ices, sherbets, creams, and salads—for the provision of a constant and ample supply of ice cubes.

Be sure to visit our display room and see the new Frigidaires. You will find the model which will just fit the needs of your family—you will find its price surprisingly low—you will find that the GMAC payment plan makes it very easy to buy.
