

Profits in Silver Foxes

Money in Silver Foxes will create an income-producing estate for you in a very short while

ASSETS ARE BORN

We print below a table that is very conservative. We base the increase on only two pups to the litter (the ordinary litters are 4, 5 and 6), assuming that the extra foxes will pay up-keep:

Year	Foxes	Increase	Total Foxes
First	2	2	4
Second	4	4	8
Third	8	8	16
Fourth	16	16	32
Fifth	32	32	64

As table shows, there should be 64 Silver Foxes after five breeding seasons. It is a foregone conclusion that 64 Silver Foxes can be readily sold

for the insignificant sum of \$100 per Fox or \$6,400. Deducting the original investment of \$1,750, there should remain a net profit of \$4,650, or 260 per cent, an average of 52 per cent per annum. The final analysis shows that by an investment in Silver Foxes, \$1,750 would produce, based on the figures above, an annual profit equivalent to 4 per cent on \$23,250.

No infringement on your time. We ranch for you and guarantee to replace with Foxes of equal quality in case of death, escape or theft. Get started today in a business that will pay you well.
