

A State Bank

What Does a Bank Have to Sell?

EVERY BUSINESS exists because it has something to sell that the public needs and desires.

The Banking business is no exception. Its stock in trade is service to the community.

As a customer who seeks the right sort of commodity, no matter what it may be, you expect willing cooperation, convenience, modern methods and courteous interest.

Judge us by these standards. Determine our usefulness by the benefits we bring to you and the spirit in which we do it!

LEE Says:

WHEN your family DOCTOR fills out a PRESCRIPTION blank and HANDS it to you, it CALLS for something MORE than the materials THOSE little signs AND SYMBOLS designate— IN the first place, IT calls for the SERVICES of a trained AND licensed pharmacist: IT also calls for the MOST careful attention TO every detail; and IT assumes that the MATERIALS are pure and FRESH.

NOW, just a word about THE prescription service OF the Adams Drug Store— WE have two licensed PHARMACISTS; every PRESCRIPTION is TRIPLE checked in order TO make sure every ITEM is correct; and WE have a fine and COMPLETE stock of drugs.
