

Stage and Screen News and Reviews

VILLAGE THEATRE

Peter B. Kyne's story, "The Golden Strain," will be the feature attraction at the Village theatre next Monday and Tuesday, March 22 and 23.

This colorful story, starring Madge Bellamy, Kenneth Harlan, Ann Pennington, Hobart Bosworth, Frank McGlynn, Jr., Frank Beal and others, was filmed by Victor Schertzinger in the very heart of the locale once frequented by some of the worst—and a few of the best—men who have figured in the making of the West.

It is one of the best westerns which have ever been shown on the screen. There will also be a Hal Roach comedy, "Hurry, Doctor" and a Pathe news reel.

On Wednesday only, "Rose of the World," starring Patsy Ruth Miller, Pauline Garon, Alan Forrest and Rockliffe Fellows, will be shown. In addition there will be an Aesop's Fable, "The Little Brown Jug," and a Pathe review.

One of the best pictures of the year, from any standpoint.

That is a terse description of "Lights of Old Broadway," Marion Davies' initial starring Cosmopolitan production which will be seen Thursday, Friday and Saturday, March 25, 26 and 27.

As is usual with Miss Davies' pictures, she gives us a lesson in the history of America which makes us proud of being Americans. This time she has chosen the colorful and romantic seventies when New York was changing from a straggling overgrown town to a modern metropolis.

The story is a much-changed screen adaptation of Laurence Eyre's "Merry Wives of Gotham," but the change has been for the better.

In addition to the feature picture there will be a Harry Langdon comedy, "The Sea Squawk" and a Pathe news reel.

HOYBURN THEATRE

Louis has a role somewhat similar to his past performance in "His Secretary," the Hobart Henley production for Metro-Goldwyn-Mayer, which is coming to the Hoyburn theatre next Monday, Tuesday and Wednesday, March 22, 23 and 24. He essays the role of a middle-aged lawyer, who surrounds himself with pretty stenographers, that is, until his wife finds out the state of affairs.

Norma Shearer is starring in "His Secretary" with Lew Cody, and others in the cast are Mabel Van Buren, Karl Dane, Gwen Lee, Estelle Clark and Ernest Gillen.

In "Rainbow Riley," Johnny Hines exhibits another side of his athletic prowess by his uncanny ability to throw the Australian boomerang. This feat is a most difficult one to master and it was only after persistent practice that the ingenious comedian was finally able to use it with sufficient proficiency in his latest First National production, which will be seen at the Hoyburn Thursday, Friday and Saturday. There will also be the usual comedy and news weekly.

THE NEW EVANSTON

Rex Beach, author of "Winds of Chance," which Frank Lloyd has produced for the First National Pictures, with a cast including such famous players as Anna Q. Nilsson, Viola Dana, Ben Lyon, Victor McLaglen, Hobart Bosworth and Claude Gillingwater, is regarded as the foremost writer of Alaskan literature.

He participated in the famous gold rush of 1897 and 1898, of which he has written in "Winds of Chance," and since the Klondike boom has died down has made several trips into the interior

of the northern territory in search of adventure about which to write.

Beach's popularity and authority is best attested by the fact that he is the recipient of numerous signal honors bestowed by Alaskan organizations and clubs, such as Sons and Daughters of the Frozen North, the Artic Club, Artic Brotherhood and Alaskan Club, composed of pioneers and residents of Alaska.

"Winds of Chance," which the author declares to be the most accurately produced Alaskan story, is to be shown at the New Evanston theatre, beginning next Monday, March 22. In addition there will be a comedy and news weekly.

Offer Advice to War Veterans on Insurance Matter

Thursday night, March 25, an opportunity will be offered to all ex-service men and women to get first hand information regarding the advantages of converting or reinstating their Government insurance.

On that night, through the courtesy of Evanston Post No. 42 of the American Legion, an open meeting will be held at Post headquarters, 1709 Benson avenue, Evanston, which will be addressed by Captain Dickson, insurance expert of the Veterans' Bureau of Chicago, who will explain how anyone who was in the service can take advantage of the "insurance at cost" which the Government is offering.

"No man in this age should need to be convinced that life insurance is desirable," the legion leaders declare. "Every World war service man should know that the Government can give him as good insurance as he can get from any private company and at much lower premiums.

"Only thirteen more weeks remain to take advantage of this liberal offer from Uncle Sam, for at midnight, July 2, 1926, the opportunity will forever cease. Do not delay, but get the facts now, as there will be an awful congestion the last few weeks."

Mrs. C. W. Hubbard of 849 Foxdale avenue departed March 17, to spend a few days in Lexington, Ky.

Christian Science Churches

"Substance" was the subject of the lesson sermon in all Churches of Christ, Scientist, Sunday, March 14.

The Golden Text was from II Cor. 4:18, "The things which are seen are temporal; but the things which are not seen are eternal."

Among the citations which comprised the sermon was the following pertinent selection from the Bible: "But as it is written, Eye hath not seen, nor ear heard, neither have entered into the heart of man, the things which God hath prepared for them that love him. But God hath revealed them unto us by his Spirit: for the Spirit searcheth all things, yea, the deep things of God.

Now we have received, not the spirit of the world, but the spirit which is of God; that we might know the things that are freely given to us of God" (I Cor. 2:9, 10, 12).

Also a corresponding passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "The substance, Life, intelligence, Truth, and Love, which constitute Deity, are reflected by His creation; and when we subordinate the false testimony of the corporeal senses to the facts of Science, we shall see this true likeness and reflection everywhere" (p. 516).
