

A State Bank

Do You Invest Successfully?

MANY successful money *makers* are unsuccessful money *investors*. They are successful earners because they know their special business unusually well. They are poor investors because they have only a general knowledge of this highly specialized field.

That is why this bank renders a free advisory service to investors. Making money work successfully is our particular business. Our experience and judgment are yours for the asking in the solution of your personal investment problems.

LEE Says:

SEEMS to us this
IS the rush age—we
RUSH from one place
TO get somewhere
ELSE and then we
RUSH to get back
AGAIN—husbands rush
HOME to find their
WIVES out—wives rush
TO get the meals ready
AND husbands are too
BADLY rushed to come
HOME to eat them—
WHOLE families rush
FROM morning till night
AND then rush to bed in
ORDER to get up in time
TO rush some more—we
WISH we could slow up
BUT if we did, we'd get
KNOCKED down and tramped
ON—and so, if you must
RUSH, we'd suggest that
YOU rush around this
WAY and see the new
SHOWING at the store here—
YOU'LL thank us for the
SUGGESTION when you
SEE them.
