COUNTY CANDIDATES EXPLAIN POLICIES

County Board Presidential and County Treasurer Candidates Answer Questions

Candidates for election at the County Primaries on April 13 have been sending in very full and comprehensive replies to the questionnaires sent out by the Winnetka League of Women Voters, as to their policies in various important matters. Their letters will be mimeographed in full and distributed to members of the league before the primaries. Anyone else desiring access to this first hand material about the candidates can obtain a copy by communicating with Mrs. Walter Benson, president of the league. Extracts from the letters from the candidates for President of the Cook County Board of Commissioners, and for County Treasurer are printed below. Next week the replies from candidates for Sheriff, County Judge, and County Clerk will be printed.

William Busse

Candidates for President, Cook County Board of Commissioners. William Busse, Mount Prospect, Cook County, Ill., Republican, Deneen faction. Occupation: merchant and banker, president William Busse and Son (merchants), and chairman Board of Directors, Mt. Prospect State bank. Education: public schools of Cook county. Public offices: member and president County board; president Village of Mount Prospect; member school board, 12 years. Party offices, County central committee.

Platform: "It has always been my firm belief that the holder of a public office should give the same careful attention to his duties that he would to his private business.

"If I am nominated and elected, I shall do my best to see that the af-

fairs of Cook county and the Forest Preserve district are managed in an efficient and economical manner and that the program for that purpose, heretofore installed, be maintained and further extended as experience warrants, to the end that taxation will be reduced wherever possible.

"I will also do all in my power to see that the dependants of the county have the best possible accommodations and care in accordance with the latest scientific and humane methods.

"I shall urge that all public improvements, including the good roads program, erection of a new criminal court building and county jail, and the full development of the Forest Preserves, etc., be completed as rapidly as possible.

"It is the duty to enforce the criminal laws rests with the executive officers of the various cities, villages and towns, and the sheriff and state's attorney of the county, will advocate the refusal of licenses to undesirable roadhouses in unorganized territory, over which the County Board has jurisdiction and the making of any necessary appropriation to law enforcing officers to wipe out and prevent crime, and also to adequately police the Forest Preserves and highways with competent men of good character."

Position regarding road houses: "I certainly would approve the immediate revocation of the license of any road house found to be violating any law. Before granting or renewing any license, the moral character of each applicant should be established to the satisfaction of the whole board, after a thorough investigation as to the applicant's fitness has been made such as is contemplated by law. Because this procedure was not followed and the present licenses issued to the holders in a group, my associates upon the board, Messrs. Miller, Pierson and Penfield from the country towns and Goodnow from the city, and myself voted against the issuance of these licenses. After licenses are issued, I believe that a close watch should be kept by the law enforcing officers to see that each road house is obeying the law."

Favors shorter ballot and reforming primary law.

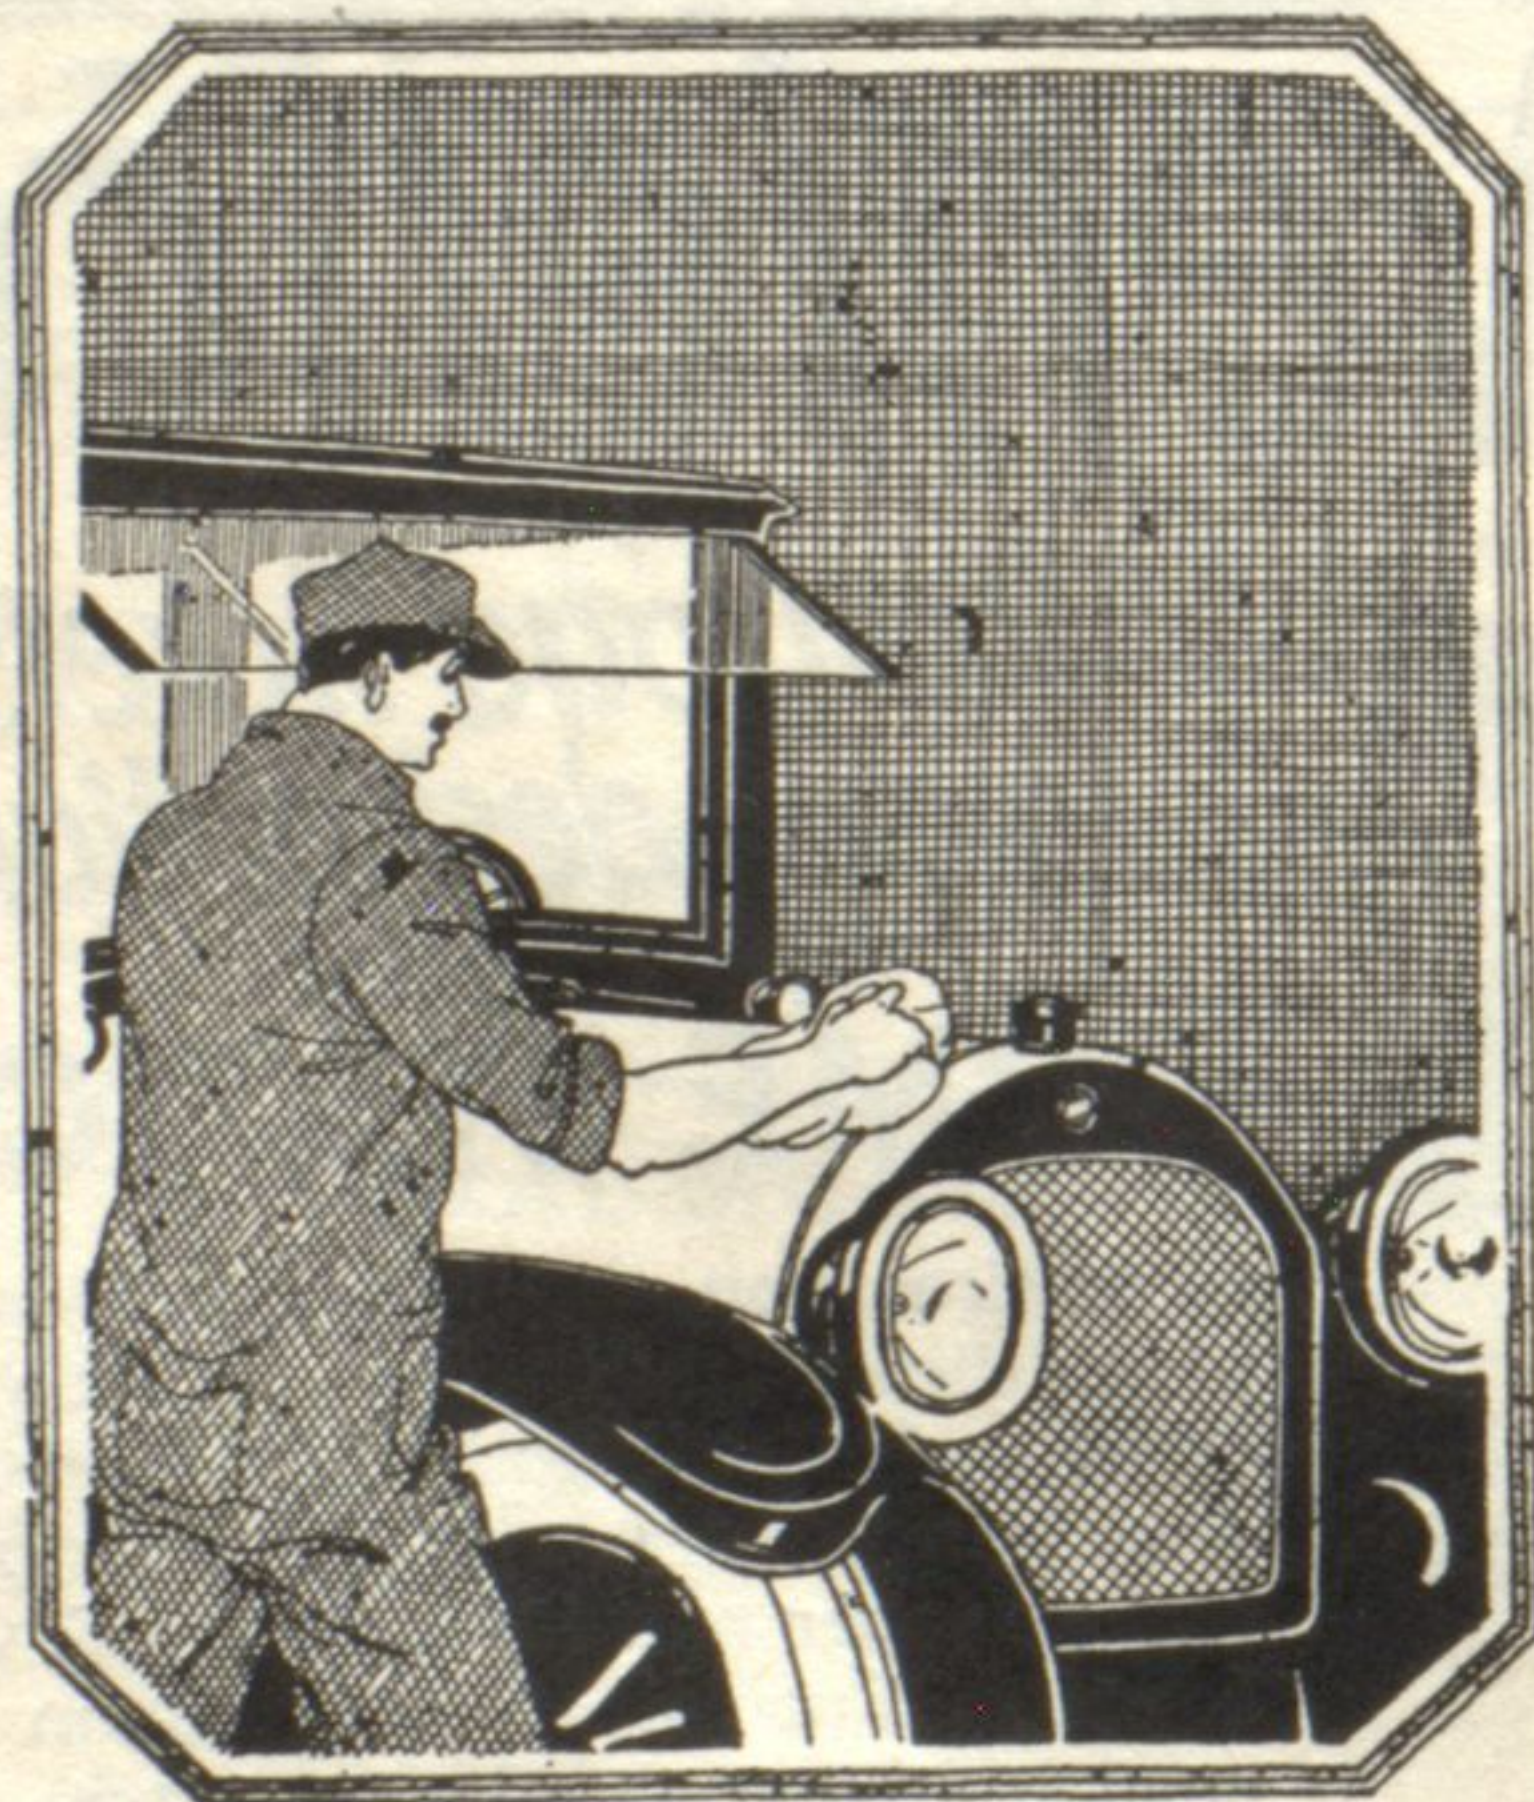

Anton J. Cermak

Anton J. Cermak, 2348 S. Millard avenue, Chicago. Present president Cook County Board of Commissioners. Business: Real estate, President Roman Building and Loan Assoc., Director Lawndale National Bank and Lawndale State bank. Public offices: Member general assembly, chief bailiff Municipal court, Alderman, President County Board. Party offices: Member Democratic Managing Committee, Chairman County Central Committee:

PLATFORM: "Continuance of the policies and performance that have marked the three years of my incumbency. Continued economy of the sort actuating me in my successful campaign for installation of labor saving devices throughout the County service. The carrying on of a campaign for efficiency in every department of the service, the same to be along the lines marked out nearly three years ago by the efficiency engineers I called in and put on survey with a view to discovery of methods through which a greater efficiency everywhere might come into being; the reforms then indicated were promptly put into force, are in force today and it will be my aim to keep them in effect and to add to them as long as I have official standing enabling me to do so. The allocation of funds permitting of an adequate aid to the needy poor, of properly caring for the needy sick of our County hospital, for the aged, infirm and tubercular at our Oak Forest institutions, for the many hundreds of bereaved mothers with families whose needs compel them to seek the bounties of our provision for Mothers' pensions; for placing dependent children in boarding homes (we were able to set apart \$150,000 for this purpose this year). The carrying on of our program of popularizing the Forest Preserves by adding to their conveniences, seemliness, accessibility. Continuance of our fine highway building program. Continuance of efforts towards replacing any remaining inertia in the service with an energy as greatly vibrant as has been and is the essential spirit from the creative force of which has come the greatness of this metropolitan area embraced within the County of Cook."

Road Houses: It is a plain matter of decency, multiplicity of regulations will not help. Immorality first, gambling second, these are what we have to be most watchful for; and, after these, other disorder repugnant to public taste. Too minute a specifying of what will not be permissible frequently plays into the hands of un-

Good Repairing Makes Good Running! —

"The Home of the Well Groomed Car"

Let us keep your car in good repair — engine and electrical equipment especially — and it will run satisfactorily. Bring it in and let us make sure that it is in good condition for touring and town use.
