

Class

We believe the Auburn has the most power on hills of any car today—and are ready to prove it. And it is marvelously smooth power, *fluid* power like turning on a faucet from a tiny trickle to a rushing torrent. It is a new, different, distinctive, smarter car. If necessary drive it all day—day after day at 50 miles an hour or more and you will be amazed at its steady, reliable, effortless performance. One of its most delightful characteristics is high speed on rough roads. You will marvel at the way it holds the road itself and the absence of arm-fatigue.

Long wheelbase, very finest materials and sturdy construction all contribute to your enjoyment and safety and to the car's extraordinary stamina. No more climbing over the fender to get into the rear seat. Get the thrill of your life—get an Auburn Roadster.

Adding New Power to a Strong Organization

WHEREVER you live on the North Shore you are nearby a Bondurant Auburn branch. Bondurant Motor Sales is now in Wilmette at 332 Linden Avenue and in Highland Park at 15 N. St. John's Avenue—and at 1027 Davis street in Evanston.

At any one of three places you may see the new Auburn models and secure prompt Auburn Service. Fortunate is the owner of an Auburn—especially fortunate is the Auburn owner who lives on the North Shore!
