

## Stability and Harmony

"Home" to the average American is an ideal. It represents the worth while things of life—the foundation around which the entire family structure is built. Perfect beauty of home and grounds calls for stability and harmony throughout. No detail should be neglected—for such neglect will mar the attractiveness and character of the whole. To this average American we offer a special service—a garage, which will harmonize with home and grounds. We will gladly help you in making your selection, and our financing plan will make it possible for you to pay for the garage like rent. We can also build for you an 18x18, 2-car garage as low as \$245.
