The membership has been increased by nearly 100 names and about 300 persons have contributed some effort in putting on the year's program, it is said. Young Men's Group Plans Discussion, Baseball Program

The Young Men's class of the Winnetka Congregational church school, has just completed a series of discussions on Fosdick's book, "The Modern Use of the Bible," and now plans a series of timely religious questions, as follows:

May 2, "The Meaning of Church Membership." May 9, "Can God and Evolution Go Together?" May 16, "How Should a Christian Spend Sunday."

The class plans to take advantage of the long "daylight-saving" evenings to play some baseball. The first game, with an indoor ball, is scheduled to be played on the Lake Front park, Sheridan road and Maple street, on Thursday, May 6, from 6 p. m. until dark.

A cordial welcome is extended to all young men above the high school age too attend any or all of these meetings. The Sunday sessions are held at 10 o'clock in the North Neighborhood room of Community House.

VISIT PIRATE SHIP

Miss Marian Elwell and Miss Dorothy LeBo's third grade pupils of Horace Mann school, made a trip to Lincoln park, Thursday afternoon of this week, to visit the old English pirate ship, which has been on exhibition in and about Chicago for some time. The children are studying the Vikings in connection with Norse history.

Ralph Varney of 535 Cherry street was one of the hosts at the dinner given Friday, April 30, at the Art institute, for 40 or more local architects who graduated from Massachusetts Institute of Technology. Prof. William Emerson, head of the architectural department, and Jacques Carln, professor of architectural design, were the guests of honor.
