Beauty Lies in Healthy EYES

It's not so much the size or color of the EYES that makes them beautiful. Rather, it's the glow which radiates from them. Unless kept always clean and healthy, EYES lack this alluring lustre.

Millions of women throughout the world promote EYE health and beauty with **Murine**. It cleanses EYES of irritating particles and keeps them clear and bright. Contains no belladonna.

Our illustrated books on "Eye Care" or "Eye Beauty" are FREE on request.

The Murine Company Dept. 33, Chicago

Bicycles repaired and rebuilt. Lawn mowers sharpened, grinding and electrical repairs. Prompt service. 31T8-tfc

Sees 5,000,000 People in County in 25 Years

Cook county will have a population of 5,264,900 or a density of 5,650 persons per square mile in 1950, according to forecasts made in the recent report of the Power Survey committee of the Great Lakes Division, National Electric Light association. In 1920, when the last official census was taken, the county's population was slightly over 3,000,000 or an average of 3,273 per square mile.

Based on these forecasts, Illinois electric light and power companies will spend millions of dollars in extensions, says R. F. Schuchardt, Chicago, chairman of the committee. Three years and more than \$40,000 have been spent in preparation of the report, which covers nine Middle West states.

Although Illinois' population is expected to increase from 6,877,737 to 9,490,000 during the quarter century, the report indicates that the use of electricity will increase five times as fast as the population. On an average, Illinois now produces for each person 678 kilowatt-hours annually. By 1950 this use will have increased to 2,000 kilowatt-hours, and enormous enlargement of facilities must be made to meet this demand, the report states.

The Kenilworth Garden club met last Friday at the home of Mrs. Edward J. Phelps, 328 Leicester road. Mrs. A. W. Ruf gave a talk on "Soil."
