# Graded Up to a Standard— Not Down to a Price

Because ice cream is not sold by "grade" some people think that all ice cream is of the same quality. Of course, this is far from true. One manufacturer may use rich, sweet cream—another butter. One may use pure cane sugar—another, glucose. One may use genuine fruits and flavors — another, extracts and imitations.

HYDROX Ice Cream is graded up to a standard—not down to a price. It never is sold by agents who boast about the fact that they can sell you any grade of ice cream they choose to buy. But you will find it in the stores of agents who believe in giving you the best in quality that can be made.
