## TELLS MEN'S GROUP OF NOVEL BUSINESS PLAN

### Men's Class Hears McKinney Tell of New Employer-Em- ployee Relationship

At the Men's Sunday morning class last week there was a very interesting discussion of the possibility of carrying out Jesus' teachings in the midst of modern business conditions. The leader, William Ayer Mc Kinney, presented to the class a plan he is just presenting to his fellow stockholders of Speedamat Addressing Machinery, Inc., on which he invited discussion.

This plan proposes a number of things not usual in business set-ups at the present time. Not only are employes offered an opportunity to invest in the company's stock, but there is one class of stock which is for employes only. Employes are to be permitted to buy this for cash. It is hoped that eventually cash bonuses to employes out of a certain part of profits will furnish funds to them from which they may buy this stock, as well as from part of their regular wage or salary. All employes of whatever rank will be permitted to buy this employe stock.

#### Employes Gain Control

If the company attains a certain position financially, this employe stock, which meanwhile has had a limited vote, comes to have the sole vote. The management of the company then falls completely into the hands of the employes. They will elect the board of directors, which in turn will elect the officers. Salary fixing, employing, all functions of production, engineering, sales, accounting, and general management will reside in the hands of those chosen by these officers or this board, both of

which will be directly responsible to the employes as stockholders.

The one reservation is that limited dividends must be kept up on the investors' stock. Any default in them carries the vote back to the investors' stock, and the employe stock loses its vote entirely until these dividends have again been maintained for three years.

Somewhat similar plans are in effect in the A. Mark company, (the Golden Rule clothing factory) of Cincinnati, the Columbia Conservé company of Indianapolis, the American Cast Iron Pipe company in Alabama. A plan to which the one proposed is similar, though in no sense a copy of it, is in effect in the Dennison Manufacturing company of Framingham, Mass. All these are conspicuously successful concerns.

The discussion and attendance showed the interest in the subject. It is to be continued next Sunday morning at 9:30 in Community House. This will be the last session of the class this year, and the class will close with a brief study of Jesus' view of wealth.

All men interested, whether they have ever attended the class before or not, will be most welcome

### Award Contracts for New Paving, Water and Sewer

At the meeting of the Village council last Tuesday evening contracts for paving and installing sewer and water in Spruce street between Glendale avenue and Hibbard road were let. The paving contract was awarded to W. H. Goelitz, Oak Park, the amount being \$9,625.90; A Monaco of Chicago was given the sewer contract at a price of \$3,043.50 and the water contract was awarded James Viti and Son, of Highland Park, the amount being \$4,437.90. Work on the improvements will begin immediately, it is said

# OUR 1st ANNIVERSARY Saturday, May 22nd

For this day only we are offering our same good quality Fruits and Vegetables at cost prices. We want you to take part and help us celebrate on this occasion. Bear in mind that as always, we are distributing only the highest quality of goods obtainable.

### —THESE PRICES FOR SATURDAY ONLY—

Best White Potatoes, peck . . . . .	65c	New Onions, 3 lbs. . . . .	29c	Lemons, per doz. . . . .	35c
