

# Read Why Hupmobile Six Excels Cars Even Higher in Price

Hupmobile Six superiority is basic. It is conclusive. It does not exclude even cars above our price. Herewith are briefly detailed a few of the features.

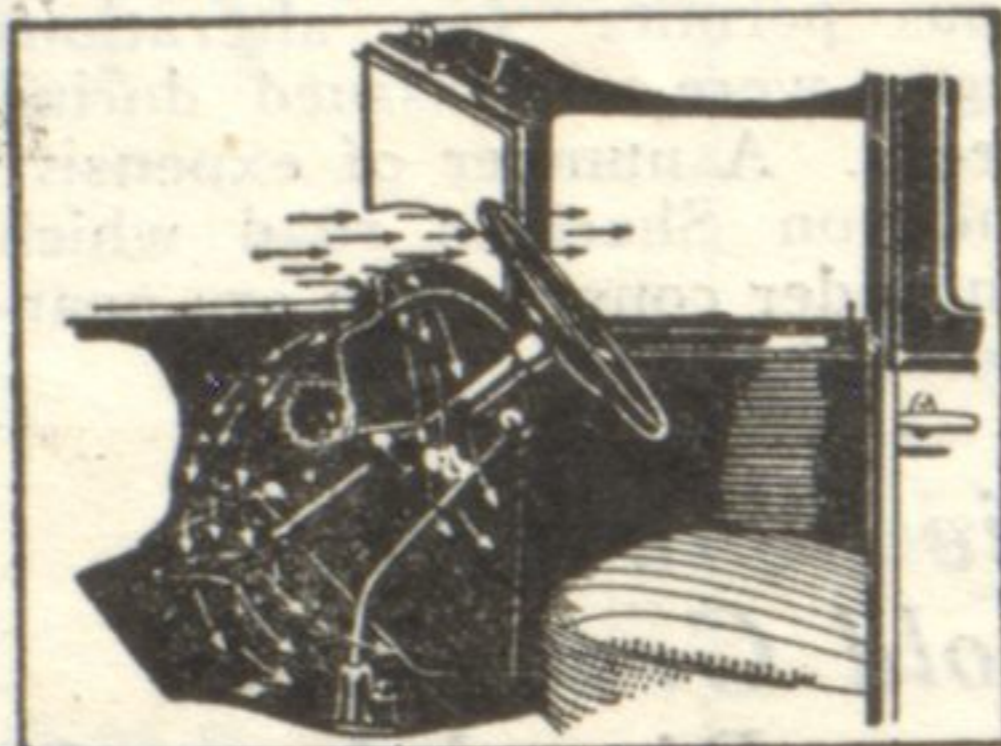

### Rigid, No-whip Crankshaft—

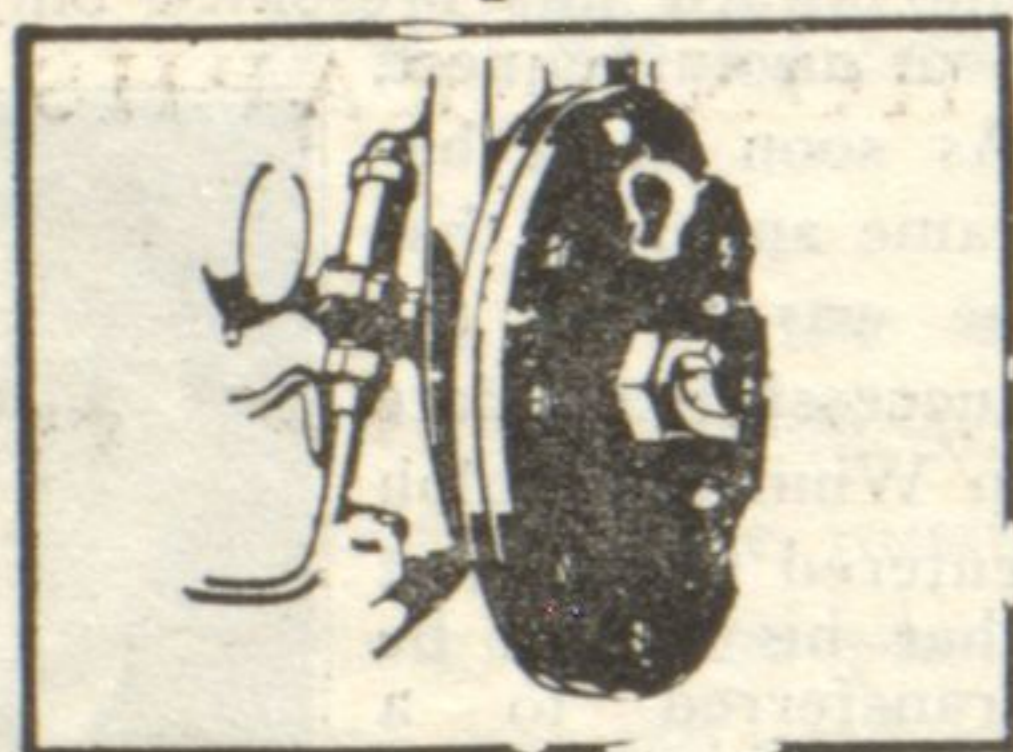

Hupmobile Six has a heavy, rigid crankshaft—the kind too costly for common use. Vibration is eliminated in a six by a rigid crankshaft to overcome whipping and bending, and by a damper to counteract the torsional or twisting tendency of a revolving crankshaft.

### Special Windshield Clear-Vision, Ventilating—

The one-piece, clear-vision windshield ventilates without tilting in or out. It raises vertically by a hand lifter, circulating a full-width sweep of air down into the driving compartment, and straight back into the car when desired, as shown by the arrows.

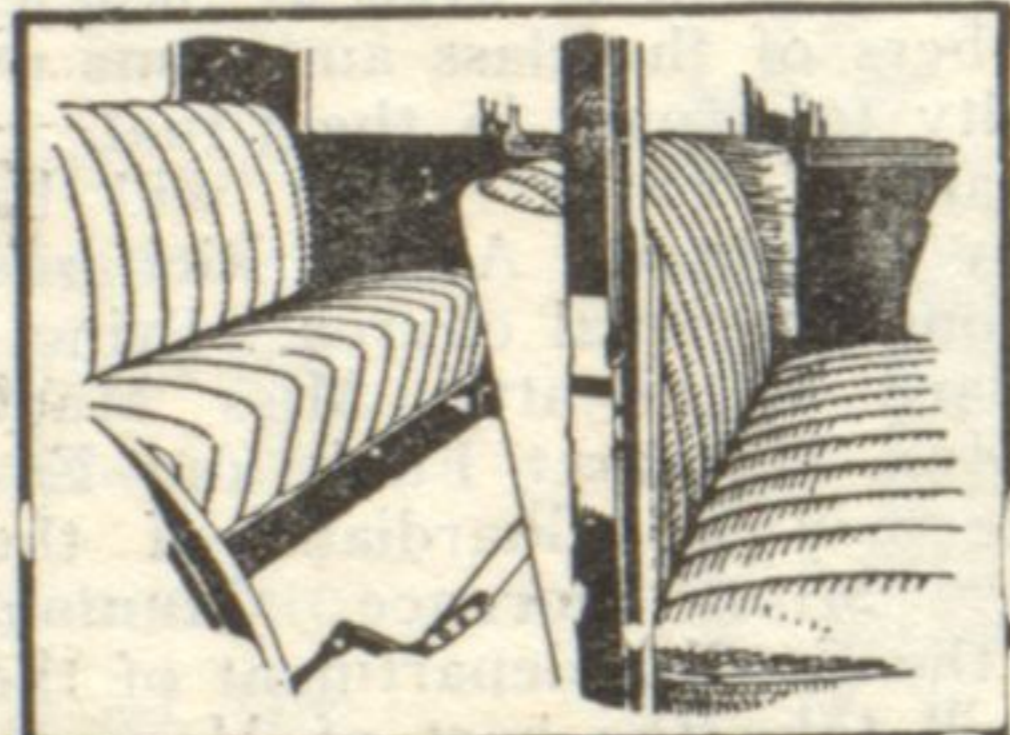

### Special Vibration Damper—

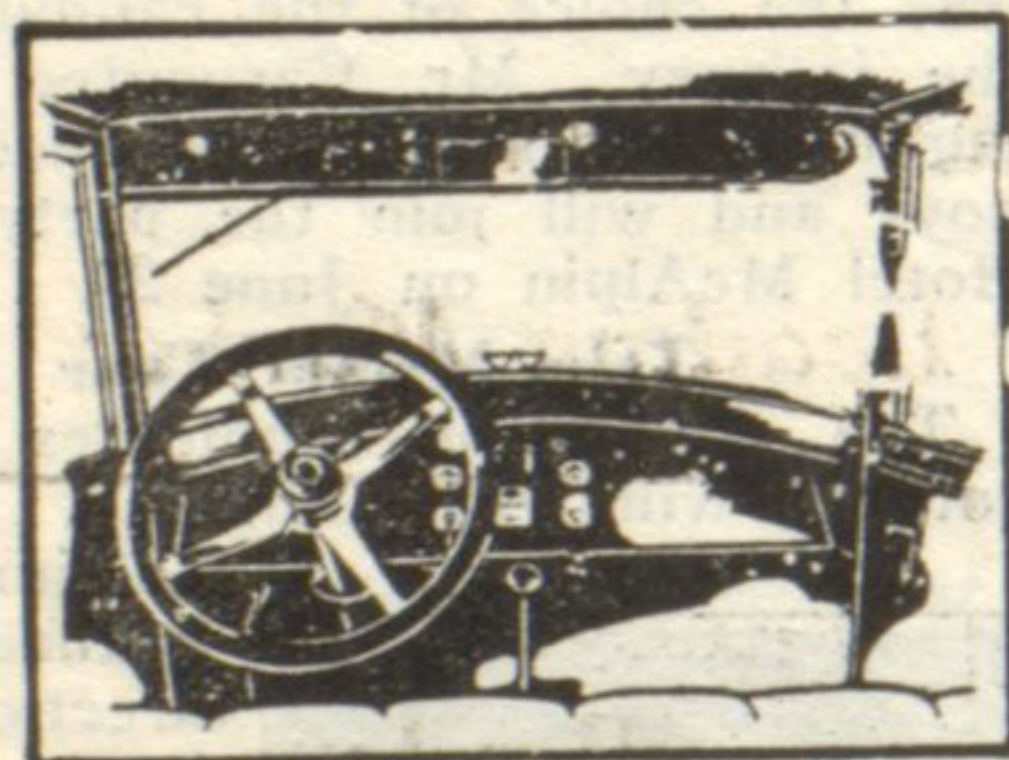

No vibration damper can do more than eliminate the torsional vibration already referred to. And without a heavy, rigid crankshaft such as this engine has, a damper itself means little. The Hupmobile Six damper is a special and improved design.

### Newest Upholstery in Latest Mode—

Closed car upholstery is a new shade of blue-gray, best described as platinum, in a deep pile fabric. Cushions are soft and deep, built over springs which contribute greatly to comfort.

### Safety in the Clear-Vision Bodies—

Hupmobile bodies have narrow pillars for clear vision. At the pillars, the internal framing is of steel. Elsewhere the framing is of wood. This composite construction affords all advantages of both steel and wood, and eliminates the disadvantages of all-steel and all-wood.

## MUST PRESERVE IDEALS, MEMORIAL DAY MESSAGE

**William H. King Tells Audience Here We Must Keep Alive the Spirit of Heroic Dead**

What has been termed by many as the most impressive Memorial Day observance in the history of Winnetka brought several hundred villagers to the Village Commons last Monday morning to join with the members of Winnetka Post of the American Legion in paying tribute to those who sacrificed their lives in defense of the ideals of our country.

Especially effective on the program were the brief remarks of William H. King, Jr., a Winnetka citizen, who gave the principal address. Mr. King made a stirring appeal for the preservation of those ideals upon which the nation was founded—equality of opportunity and political rights. These ideals must be preserved, he said, even at the cost of our lives. Memorial Day is a mockery, he asserted, unless those who participate in its ceremonies have alive within them the same spirit displayed by the dead whom they purpose to honor.

In his address Mr. King said in part: **Beautiful Custom**

"Memorial Day sprang from a beautiful custom, inaugurated by women of the South, of placing flowers in the early spring upon the graves of their soldiers and although in some localities the day is now observed as an occasion for commemorating all dead, it nevertheless remains essentially a day set apart for honoring those who died in the military service of the country.

"I cannot help but feel these Memorial Day exercises, this decorating of graves, gatherings of this sort, are but

mere idle ceremonies unless we who participate in them have alive within us the same spirit displayed by the dead we are here to honor.

"They demonstrated at the cost of their lives that there are things worth fighting for and dying for and I suggest that unless we who approach these exercises, are in the belief that there exist today things worth more than life itself, this whole ceremony, instead of being in honor of the dead, is in mockery of them.

### Must Preserve Ideals

"For my part, I am one of those who do believe that there exist today within our government ideals which should be preserved even at the cost of life. Time does not permit me to speak of them all, but I should like to mention one which interests me particularly. I refer to that equality of opportunity and of political rights which is embodied in our government. The birth of our government brought into the world a conception of equality then unknown. It came as a result of the war. A great and costly civil war preserved it and some instinct within us which made us realize that it was endangered led us into the World War. It is therefore a precious heritage from three great privileges we are at times somewhat forgetful of what a great blessing it is. If, however, we look to peoples who have not enjoyed it and to other generations who did not enjoy it, we begin to see what a wonderful thing it is.

### Cites Citizenship Duty

"My great grandmother, upon the death of her husband, took her five small children, embarked in a small sailing vessel and set sail for America in the hope that she would find here equality of opportunity and of political rights for her children. She found it! My grandfather at the age of fifteen left his parents, relatives and friends in the same manner with the
