- Two Chairs 15.00

other prices on request

MOTH LIFE can today be totally destroyed by our process. This vault is the same as is now being used by the United States Government Department of Entomology, Washington, D. C., and this system has their approval.

We absolutely guarantee to destroy moths, moth larvae and moth eggs, and all insect life by this treatment.

The articles to be treated are brought to our plant by our trucks, and placed in the fumigating vault. Our special fumigant is placed in the receptacle in the vault, which is closed and locked. Being airtight, our fumigant diffuses into a gas which is deadly to all moth and insect life, penetrating through rugs, clothing, upholstery, overstuffing, etc. Here goods are allowed to remain for twenty-four hours, after which they are removed, vacuum cleaned by our special process, and returned to you absolutely sterile and clean. This process has no effect whatever upon the finish or covering of fine furniture, and will not injure the most delicate fabric.
