

GIRLS' SPORTS HAVE GOOD YEAR AT N. T.

More Than 200 Girls Have Taken Part in Swimming, Soccer and Other Sports

The girls' athletic department at New Trier high school has just completed the most successful year of its history, it was announced this week. Statistics show that of the 600 girls in the school one-third have taken part in the various sports offered at New Trier.

It is the aim of the department to increase this number to one-half, and finally to reach the point where every girl is participating in some game at least one night a week. Their plan is to have everyone enjoy the games and take part in them, because of the pleasure they derive from the sport.

It is very interesting to note how many girls have received recognition in the past year for their part in athletics and approximately how many have participated in each sport.

There were 43 girls given numerals for making hockey teams and ten received points toward Girls' Athletic association membership. There were about 25 others who participated in the game, but did not receive recognition, making a total of 75 girls interested in hockey alone.

Many Sports Popular

Soccer was represented equally well, 45 receiving numerals, 28 G. A. A. credit with 25 other participants, making a total of 98 girls.

In swimming 128 were given numerals, and 82 G. A. A. credit. It was estimated that nearly 135 girls in all took some active part. Life saving also had a successful season, 19 receiving their emblems and 22 G. A. A. credit.

Basketball was probably the biggest success it a sport is judged by the number participating. Out of the 250 that signed up 29 received numerals and 124 G. A. A. credit.

Baseball followed with 100 girls taking part of whom 43 received numerals and 46 G. A. A. credit.

The department has many plans for improvement next year and one of these will be the addition of archery, volleyball and track to the activities.

A second assistant, Miss Iris Baulton, a graduate of Northwestern university, will be added to the department.

Storm Provides Unusual Note for Commencement Day

On Friday, June 11, the North Shore Country Day school held its commencement class, at which time the program as announced in a previous issue of the WINNETKA TALK, was successfully carried out and under circumstances which might easily have been trying.

It had been planned to hold the exercises in the grove to the east of Dunlap hall, but unsettled weather caused a repeated reshaping of plans as the morning wore on. Fortunately, the threat in the weather was duly regarded and the decision finally made to move to the boys' gymnasium, to which the bleachers to hold the school were dexterously transferred.

The heaviest downpour of a storm, signalized all over Illinois, occurred at the height of the exercises, but instead of being disturbed by the tumult outside the ceremonies received from the lightning and the fierce but even obligato of the storm, a peculiar quality of impressiveness that those who participated or witnessed are not likely soon to forget.

The program was notable for chorus singing, by various sections of the school, for the thought-provoking and inspiring address delivered by Dr. Herbert L. Willett and for the suggestive and optimistic review by Head Master Perry Dunlap Smith, of the progress of the graduating class and the enlarging activity prospect for the school.

Man Killed in Fall from Train at Central Street

Winnetka police were called upon to remove an injured man from a Chicago and North Western train early last Sunday morning. The man, who was later identified as James Smith, of Milwaukee, had been injured near Central street, Evanston, and was picked up by the train which arrives at Winnetka at 12:35 in the morning. He was taken to the Evanston hospital where he died later in the morning. Identification was difficult as the only mark of identification in the clothing was a laundry mark, "J. S." Details of the accident could not be learned but it is thought that Smith fell from a southbound train somehow. The engineer of the north bound train which picked him up noticed the man lying on the center track, but he had not been run over. Death was caused by two severe fractures of the skull. A coroner's jury returned an open verdict at the inquest.

Five North Shore Girls, Chaperoned By Miss Sentney of New Trier, Leave June 30

A new idea in European travel has been instituted this summer by a group of girls from New Trier high school. Under the chaperonage of Miss Jessie M. Sentney, teacher in the French department at the school, who has traveled extensively in Europe, they are undertaking a two months tour of several foreign countries. The girls are sailing from New York June 30 on the S. S. In France they expect to see such world-famous places as the Louvre, the Cathedral of Notre Dame, the Tomb of Napoleon and the Tomb of the Unknown Soldier. They will also go on a motor excursion to the battlefields of the World War—Chateau Thierry, Belleau Wood and Rheims.

No trip to Switzerland would be complete without a visit to Geneva, the girls expect to compass this during seat of the League of Nations, and the their journey and also to visit Interlaken, which will include excursions to the slopes of the Jungfrau and the Grindelwald Valley.

In Italy they expect to visit Milan, Venice, Florence, Naples and Rome, and, last but not least, Genoa, the birthplace of Columbus. While at Naples they will take a trip to the tragic ruins of Pompeii.

Belgium and its capital, Brussels, with a visit to the spot where Edith Cavell was shot and a trip to the battlefield of Waterloo; Holland, with trips to Amsterdam and the Hague; England, where they are looking forward to a three day motor trip to such historic places as Stratford-on-Avon, Warwick and Kenilworth castles, and Oxford and Cambridge universities—all these places and more will be covered before the party finally sails for home from Liverpool on the last day of August.

This little outing for the nursery has been Mrs. Coyne's custom for the past six years, and the children have a real frolic with paper caps, balloons, and bean bags, with always a "lolly pop" to consume on the train after they say "Good Bye."

The children wrote the play which consisted of two scenes. The main feature in the way of scenery was a farm house which was constructed and painted by the class.

The songs were chosen from the spring music and several little dances were originated by the children.
