Chairman Entertainment Committee

EVERYONE CORDIALLY INVITED

Adults 25 Cents

Children Free

They Received Diplomas at Skokie

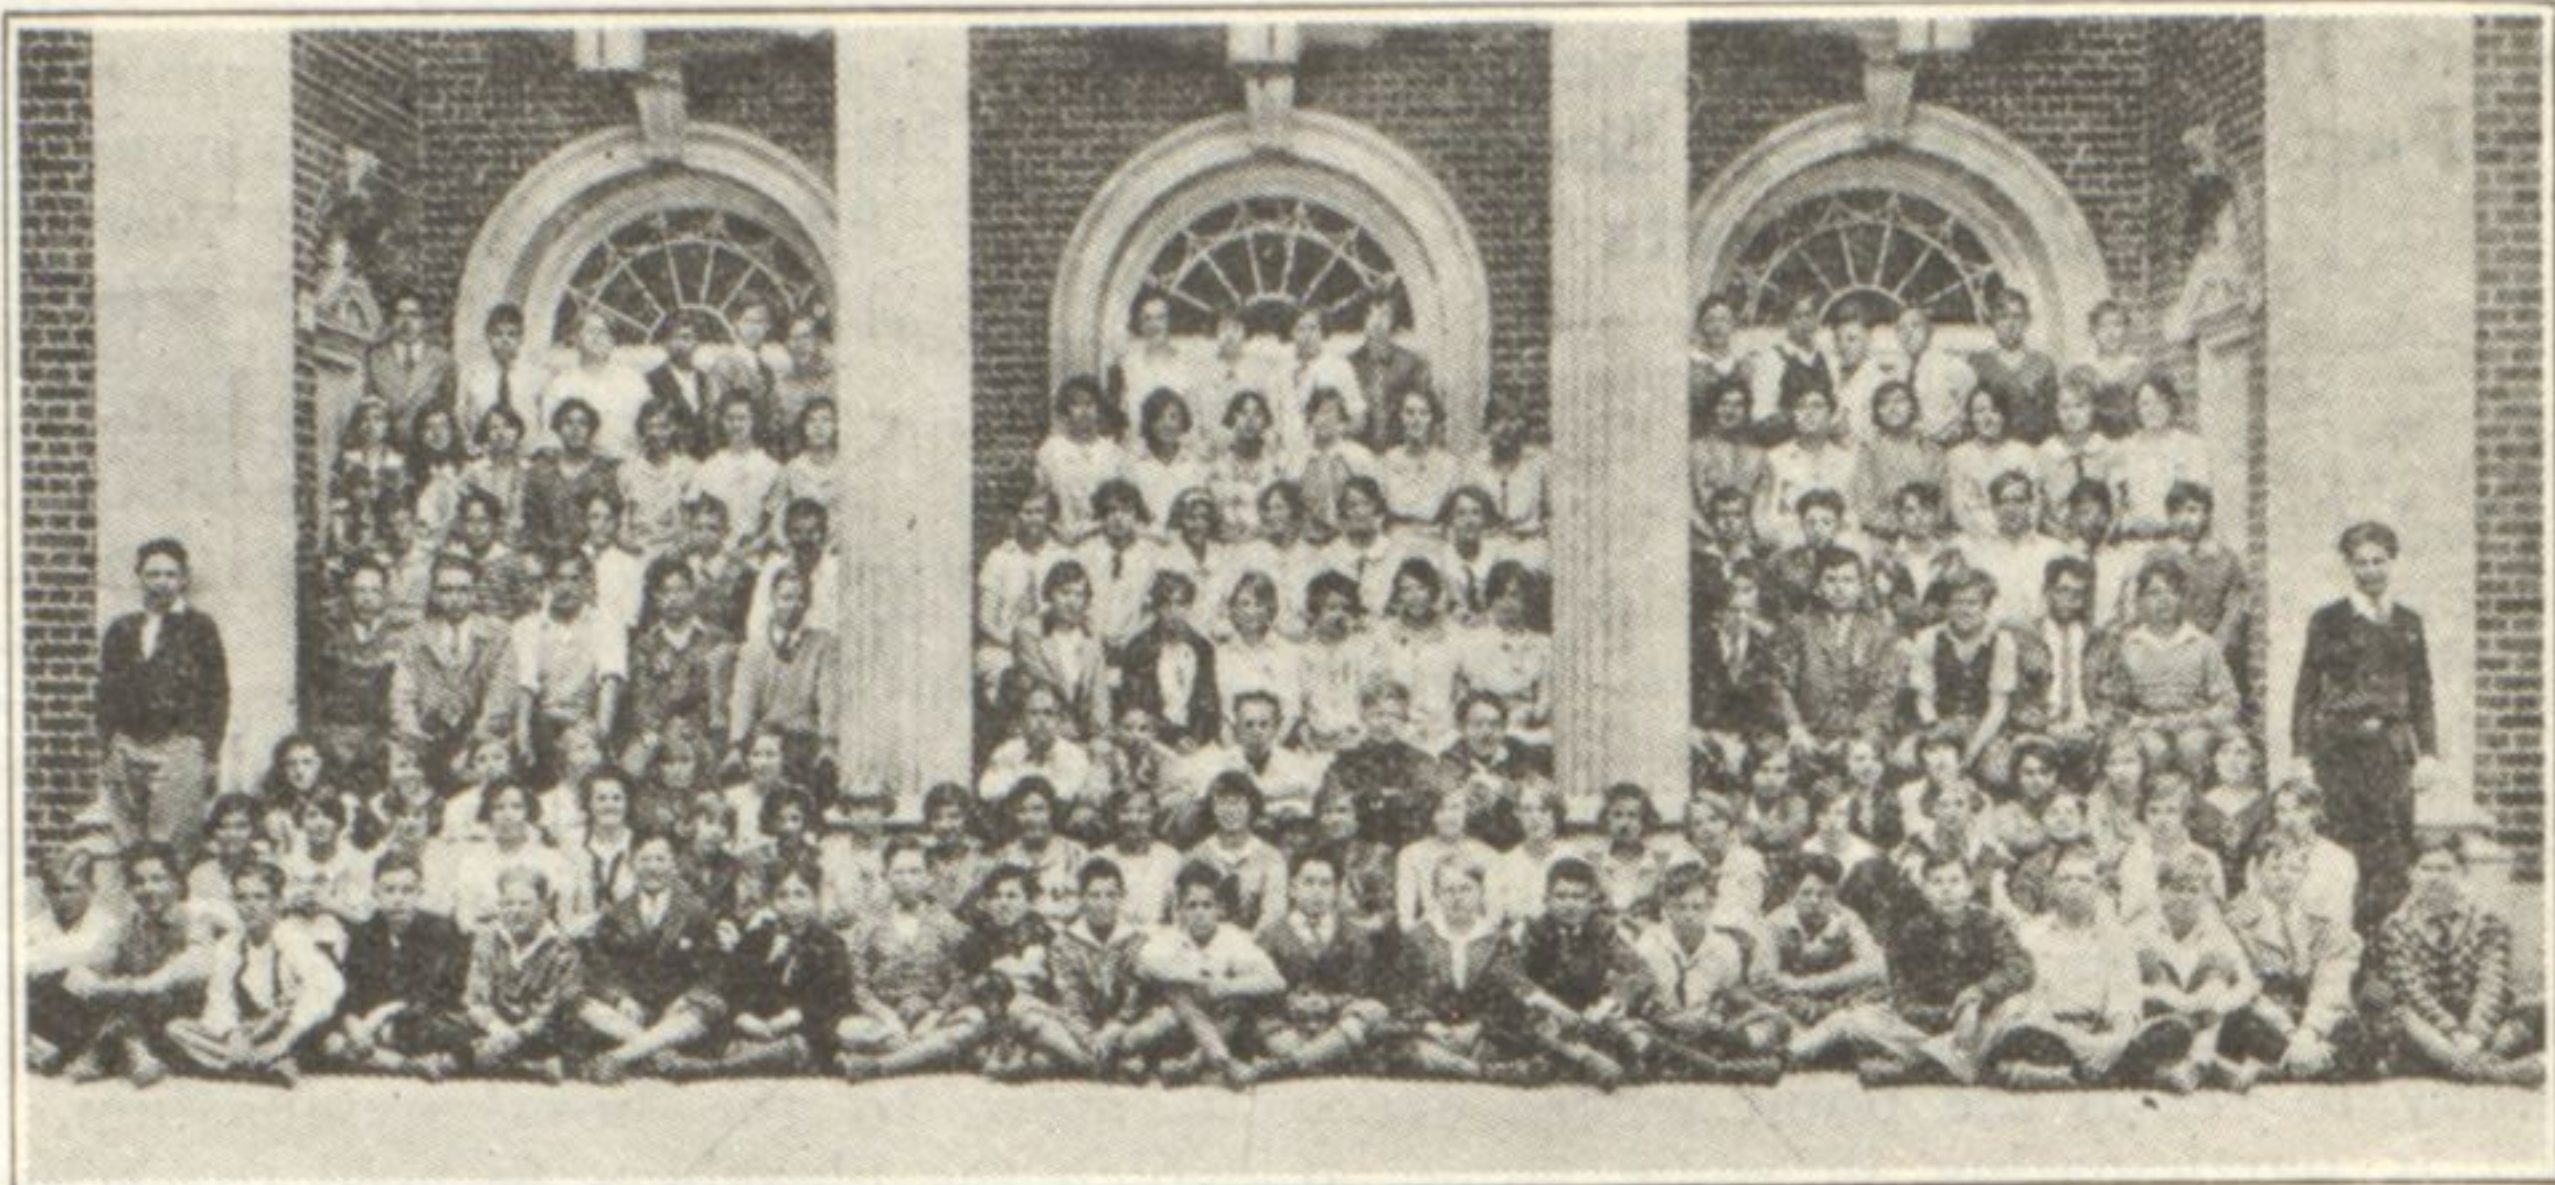

Photo by Schreurs

The ritual of graduation of a class of 127 was held at Jane Kuppenheimer hall, Skokie school, Thursday evening, June 17, at 8:30 o'clock. At the close, Father Time opened the great silver doors to summon those who were prepared to journey with him to the outside world. Miss Florence Canning, Miss Isabelle Milton, John F. Porter and Dr. James Austin Richards assumed the characters of Memory, the Children From the World Outside and Father Time.

Miss Martha McConaughy, member of the junior class of Rockford college, has been visiting her aunt, Mrs. G. A. Watson, 928 Pine street, since June 16. Miss McConaughy attended the graduation exercises held at Rockford, where she has been a student for the past two years, and expects to return to the college in September.

Mrs. Carl Schaefer, Chestnut street, will leave Winnetka to attend the Sigma Kappa convention at Madison, where she and Mr. Schaefer graduated in 1924.

Mrs. Alphonse Dennis of Tower road entertained a number of her friends at a luncheon and bridge Friday.

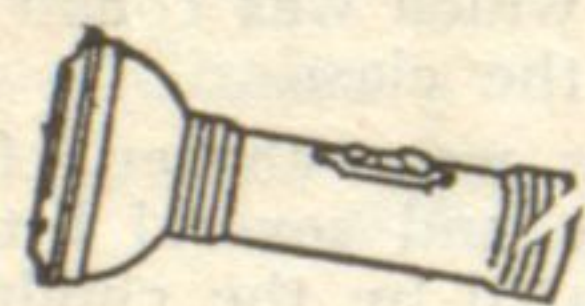

Easy to Pull Trailer Over Mountain Routes

Motorists used to ask: "Shall I have any trouble driving over the mountains?" but now the stock question, according to a bulletin issued by the touring bureau of the Chicago Motor club, is: "Do you think it possible to pull a trailer over the mountains?" "The answer to this," says the bulletin, "is simple. The driver who is sure enough of his ability to drive a car over the mountains will have no trouble in dragging a trailer after him. Motorists by the thousand are pulling trailers through sand, mud and city traffic as well as over the tallest mountain ranges.

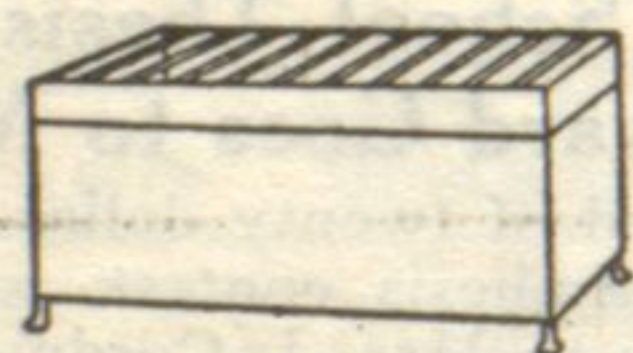

"Motorists are pulling trailers over the Fall river highway in Colorado, up over Estes park in Rocky Mountain National park, the highest mountain road in the world. A trailer adds little difficulty to a transcontinental trip, but the motorist who does not know how to handle his car on a hill should not try to take a trailer across the country, in fact he should not even drive across the country until he has mastered the art of ascending and descending hills. The average driver who knows how to shift his gears on a hill, how to use his brakes properly, and who has a good sense of distance, will have no trouble in hauling a trailer."

GOING CAMPING?

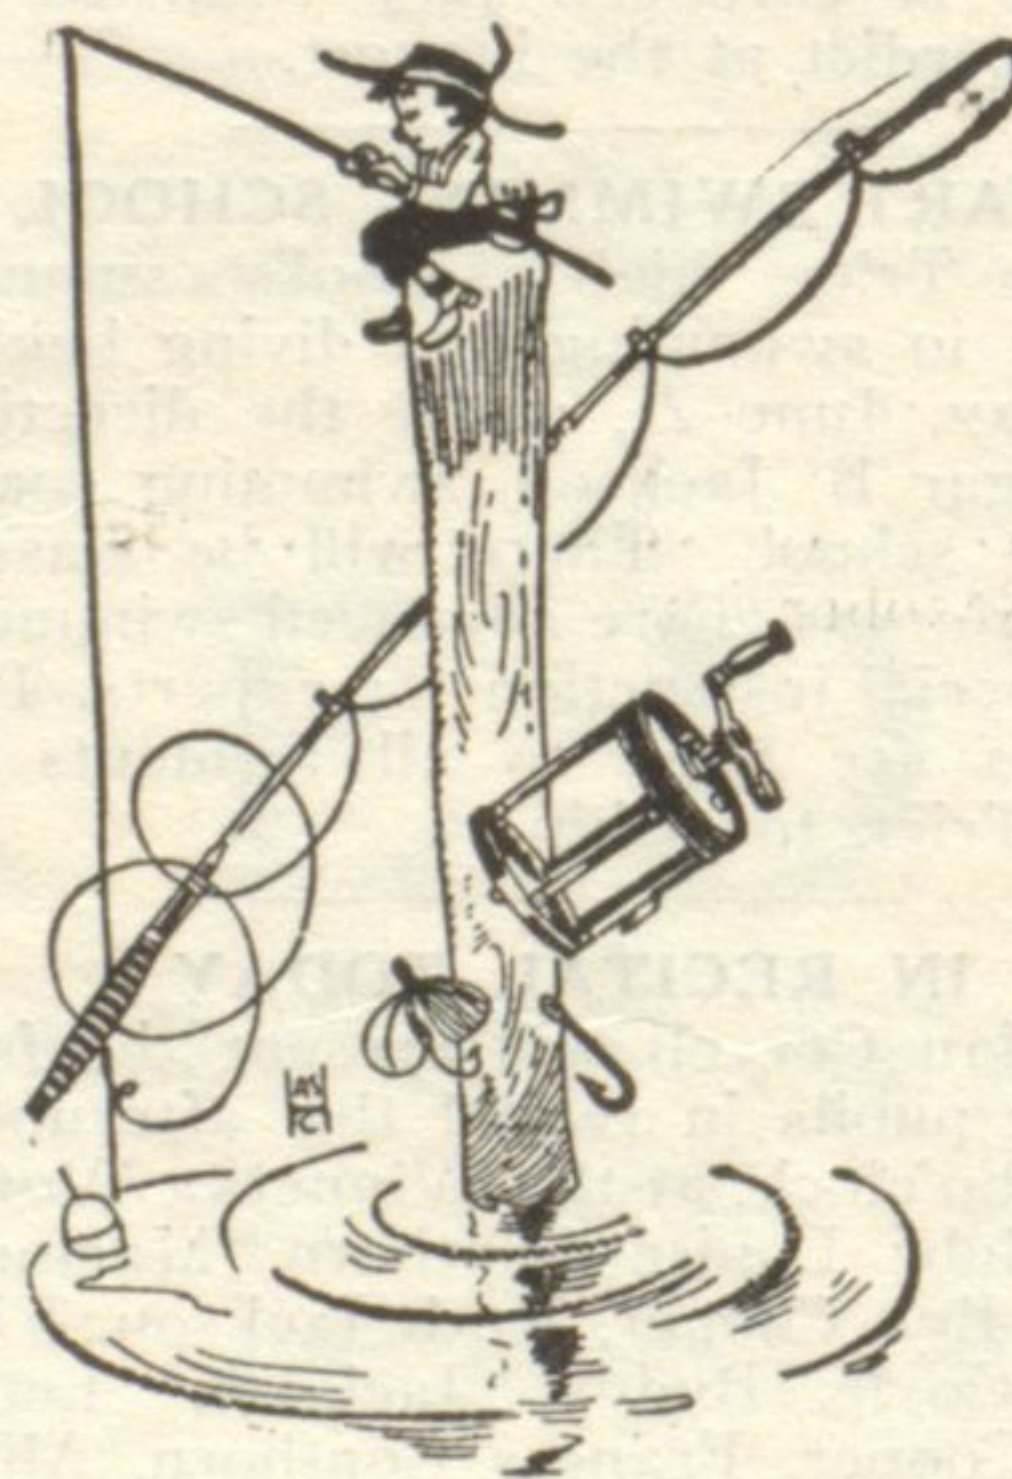

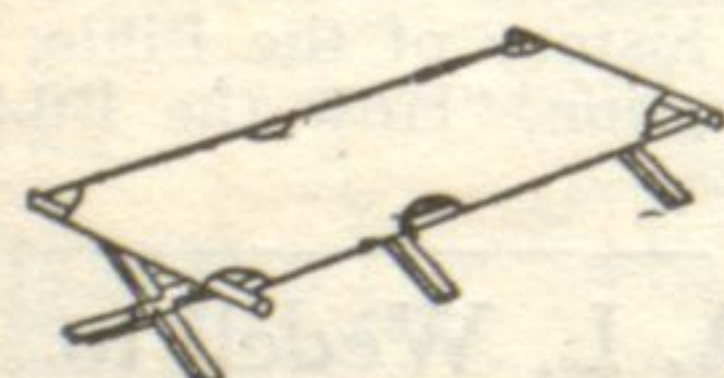

The glint of sunshine through green leaves. Bacon sizzling over the fire. Oh! but it's great to go camping. And here's camp equipment of every sort for hiker, canoeist, motorist or "pennant" camper.

Complete Fishing Needs

No matter what kill-joys say about fish biting when they want to bite, regardless of tackle used—real fishermen with carefully selected tackle, are the ones who hang up the records.
