

Fund Provides for Church Music Chair at Northwestern U.

Church music which has not been featured extensively by any American school of music, is to be benefited by a gift of \$100,000 from the Carnegie Corporation of New York, President Walter Dill Scott of Northwestern university announced at the last concert of the North Shore Music Festival at Patten gymnasium, Evanston. The recipient of the notable gift is the School of Music of Northwestern university. Thus, the century-old hymnal and the later development of the highly trained church choir will benefit through this gift, as it provides for a special chair in church music at a school of music with reputation second to none.

"In order that progress may be made in the development of music in America, intensive work must be carried on in various special fields," President Scott said in his statement. "Relatively little is being done in a constructive way to make progress in church music, although the necessity for such progress is universally recognized. The Carnegie Corporation of New York has decided that the corporation should do something to promote the fine arts, and to that end is offering financial co-operation to various educational institutions. The corporation has decided that work on church music should be begun at once and to that end has appropriated \$100,000 for a permanent endowment and has directed that this work shall be carried on, beginning September, 1926, at the School of Music of Northwestern university under the direction of Dean Peter C. Lutkin."

President Scott in his concert address also recalled that a year ago a matter of \$50,000 was pledged for the construction of a new music school building, that the objective is \$500,000, with the ultimate sum not yet subscribed.

"Dean Lutkin and all of the citizens of the north shore are waiting the day when a donor or donors may be found who will make a reality of the building which has been the hope of all lovers of music of both the north shore and Chicago," Dr. Scott added.

SPEND SUMMER HERE

Mr. and Mrs. H. K. Humphrey and their three children, William Karl, Kay Robert and Elizabeth Eleanor, arrived from Houston, Texas, June 10, to spend the summer with Mrs. Humphrey's father, M. K. Meyer, 829 Elm street. Mr. Humphrey, assistant professor of electrical engineering, Rice institute, Houston, Texas, will spend several weeks with the General Electric company at Schnectady, N. Y. Mrs. Humphrey will accompany him, and visit college friends in the East.

HOLD JUNIOR PROM

The Junior Prom at the North Shore Country Day school was held last Saturday evening instead of Friday, as announced in Winnetka Talk a week ago. The girls' gymnasium was tastily decorated and afforded a charming setting for a delightful program dance.

Miss Susan Windes, sister of Frank A. Windes, has returned from a three weeks' trip to Lake Minnetonka, Minn. Miss Windes is visiting her brother, Frank Windes, 873 Spruce street.

The Great Masonic Monument in North Shore Cemetery

is now completed and will be dedicated by a program of music, addresses and scripture reading at 2 p. m. on Sunday, June 20, 1926. See news columns for brief description of this superb and imposing Doric Memorial to Masons who have gone before.

Hundreds Now Know That North Shore Cemetery

is the Finest Landscape Garden place of interment in America. It is unequalled in the following features:

- (a) The surface is pleasingly undulating—not a level half-acre. It is on the divide between the Mississippi and the St. Lawrence river basins and 125 ft. above Lake Michigan.
- (b) Best drainage system possible.
- (c) Upwards of 70 varieties of TREES and as many varieties of BLOOMING SHRUBS, a veritable ARBORETUM,—nothing equal to it elsewhere in the U. S.
- (d) No GRAVE MARKERS above ground and in three sections no monuments—the garden effect complete. No repulsive stone-yard scenes.
- (e) The most imposing CEMETERY ENTRANCE in the country—massive light granite.
- (f) Finest CENTRAL MONUMENT in MASONIC SECTION, worth driving 100 miles to see.
- (g) Greater display of ROSES—from June to October—than in any other place of interment in U. S.
- (h) Its architecturally beautiful stone ADMINISTRATION BUILDING inaugurates a new era in American cemetery architecture. In beauty—of both exterior and interior—and in practicability
- (i) Its summer and winter SPECIAL CARE of graves is admired by all visitors, the only place of interment in Lake County with this feature.
- (j) The only cemetery in Lake County or the North Shore which has a complete GREENHOUSE range growing a fine line of plants and flowers for the accommodation of its lot-owners and the public generally.
- (k) Its NURSERY contains the best lot of evergreens in the U. S., also more than 60,000 young deciduous trees and shrubs, grown primarily for use in landscaping the Cemetery, but open to purchase at reasonable prices by lot-owners and the general public.
- (l) NORTH SHORE is one of the few cemeteries in the country protected by an ample PERPETUAL CARE FUND placed with a trust company as a TRUST FUND beginning with the first lot sold and filing name of each purchaser with periodical deposits on the basis of \$17,000 per acre, absolutely beyond the reach of the management for all time, the income only to be used for the care and protection of the Cemetery.
- (m) NORTH SHORE CEMETERY is for white people only.

NORTH SHORE CEMETERY is for people who care for BEAUTY AND PERMANENCY.

PRICES OF LOTS WILL BE ADVANCED OCCASIONALLY, AS THEY ARE VERY MUCH LOWER THAN PRICES OF LOTS OF SIMILAR AREAS IN THE LEADING CHICAGO CEMETERY.
