

### New Trier Has Record Summer School Enrollment

New Trier high school's summer session opened on Monday of this week with the record enrollment of nearly 600 pupils. According to W. L. Brown, principal of the summer school, the actual number will fall between 575 and 600, some changes making it impossible to state a definite figure as yet. Most of the pupils who are attending the summer session are taking at least two subjects, and some are taking three. The subjects offered are mostly

fundamentals, such as mathematics, history, language and so forth. Many of the pupils who have entered the summer session did so with the object of completing their high school course in less than four years, it was said.

Several teachers of the Joseph Sears school are planning a summer abroad. The Misses Caroline and Nell Littler and Miss Elizabeth Langworthy, accompanied by her mother, will spend the summer traveling through Europe. Miss Dena Thompson is taking a course at the University of Chicago.

### EASTERN STAR TO MEET

The regular meeting of Winnetka chapter, No. 942, Order of the Eastern Star, will be held Monday evening, June 28, at 7:30, in its chapter room in the Masonic temple.

### ON FISHING TRIP

Mr. and Mrs. Ferdinand Betzlmann, with Mr. L. von Gerhausen, left Thursday for Woodruff, Wis. They are to make a fishing trip to the Manitowich waters in quest of the big fellows—muskies and black bass. They will be away for one month.

### HANDLE RESORT LOTS

Heinsen and Kroll Exclusive North Shore Agents for Nippersink Lodge and Lake Wheeler Property

Heinsen and Kroll, Inc., well known north shore real estate brokers, have been appointed exclusive north shore agents for what are regarded as among Wisconsin's most beautiful resorts, Nippersink Lodge, on Lake Tombeau, and Lake Wheeler.

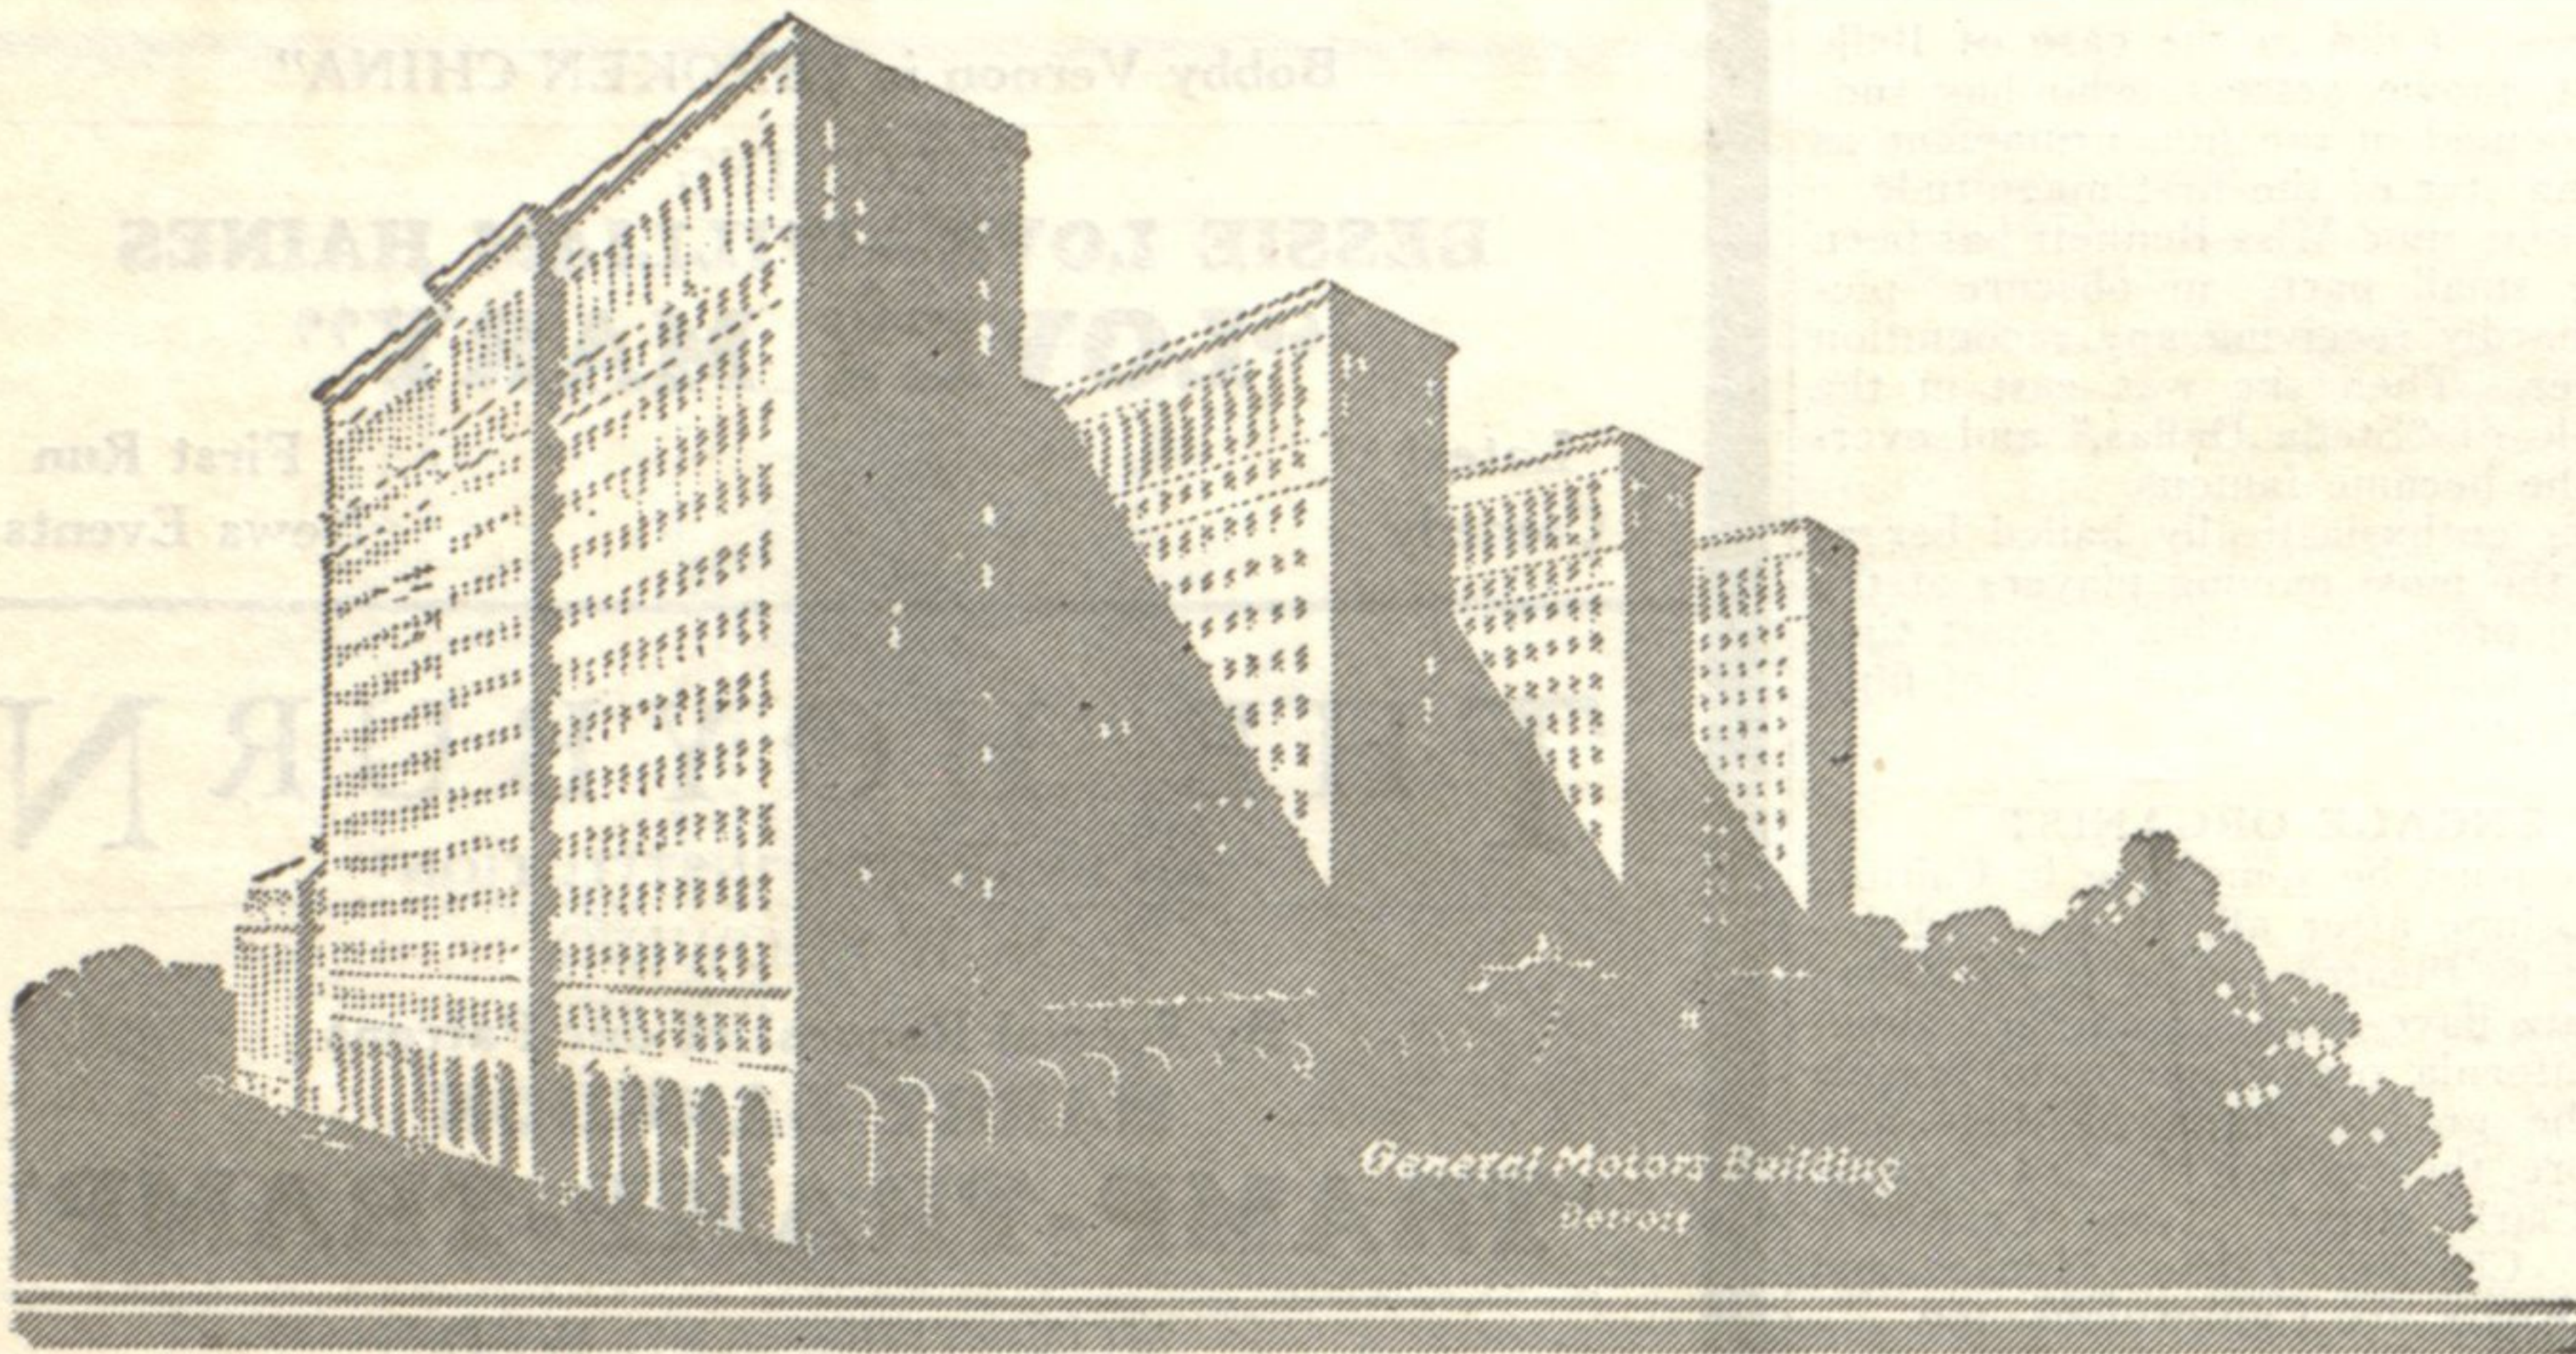

Nippersink Lodge is located about fifty miles from the north shore and possesses what has been termed one of the finest eighteen-hole golf courses in this section of the country. It also has a nine-hole auxiliary course and possesses a thoroughly modern hotel, it is said.

Excellent tennis courts and a fine bathing beach afford other means of sport.

The hotel, it is pointed out, is beautifully appointed and contains a cuisine suited to the most fastidious taste. Food products are taken for the most part right from the dairy and poultry farm nearby.

Only hotel guests and owners of cottages are permitted to fish in the waters of Tombeau lake.

Lake Wheeler is located about 165 miles from the north shore and all the property surrounding it, is owned by the Oconto Resort association. It is about one-half miles long and a mile wide. It is the plan of the owners to make of it the "Nippersink of the North." The lake contains two virgin wooded islands. Many cottages already adorn the lake and a modern hotel is planned. A golf course is in contemplation. Heinsen and Kroll have reserved fourteen choice water front lots on this lake for their north shore clientele. Riparian rights on both Lake Tombeau and Lake Wheeler are available at moderate cost, it is stated.

## If it isn't a Frigidaire, it isn't a product of General Motors

The great financial and engineering resources of General Motors are back of Frigidaire. Buying power saves on raw materials. Knowledge of quantity production saves time and prevents lost motion. Mechanical accuracy prevents waste. All saving is passed on to you in better construction, better finish, longer life, dependable performance and lower price.

Frigidaire keeps food as ice cannot—in even, changeless, dry cold of just the proper degree. It makes ice cubes rightly sized for many household uses. It freezes a hundred

dainty desserts. Yet it needs no care. There is no starting nor stopping of Frigidaire.

Frigidaire—product of General Motors—is made and guaranteed by Delco-Light Company, the world's largest builder of electric refrigerators. It is easy to buy. A reasonable payment down puts it into your home—and the remainder may be absorbed monthly on the GMAC payment plan. Call—phone—or mail the coupon for information about the new metal cabinet Frigidaire or the mechanical unit that will make a Frigidaire of your present ice-box.

*"This modern 'ice man' calls once—with Frigidaire—and the ice stays always"*
