Cullen had stopped his car at the signal of a policeman at the crossing, to permit pedestrians to cross Sheridan road, and the Guthrie car crashed into it from the rear, throwing the girl partly through the windshield. It was said that the brakes on the Guthrie car were defective. Miss Guthrie was treated by Dr. Albert Wales and was able to go to her home.

Burning Auto Provides Job for Our Fire Lads

An automobile fire on Lincoln avenue, Winnetka, damaged the car of W. A. Pridmore, 485 Greenleaf avenue, Glencoe, Friday morning of last week to the extent of about \$100 before it could be extinguished.

Mrs. Pridmore was driving the car. She was a short distance south of Community House, when the car burst into flames, caused, it is thought, from defective wires.

G. M. Houren chief of the Winnetka fire department chanced to be on Lincoln avenue, north of Elm street and after turning in an alarm, also armed himself with a Pyrene extinguisher at the Wersted Motor company garage and hastened to the fire with that. The department chemicals had to be brought into play, however, and it was necessary to shut off the gasoline lead line on the car before the fire could be entirely subdued.
