

STORY ABOUT DINAH

Being the Tale of a Leaping Lena That Developed a Wheeze Because it Had the Tweeze

The age of the Dinosaur has returned, at least in name to the Burnham family at 1407 Tower road, Winnetka.

A few weeks ago the Burnham family bought a Ford car and, on account of its age—not its beauty—christened it The Dinosaur, (Dinah for short). and now Dinah is an important member of the family.

Last week, Dinah developed bronchitis. Many consultations were held. Eminent physicians were called in. Examinations were given, and X-rays taken. Finally, from a famous clinic, a specialist operated on Dinah. "Nothing but an acute case of chilblains," says he. "My treatment at \$10 a throw will cure it all."

But the treatment did nothing. Dinah developed the whooping cough and the strawberry rash.

In sheer desperation, and against the doctor's orders, one member of the family, absentmindedly glancing into the crank-case, spied something not belonging to the ordinary crank-case, and pulled out a pair of tweezers.

Now Dinah hums and purrs along. The Burnhams beam and the tweezers are hung over the door.

200,000 Frigidaires

TWO hundred thousand Frigidaires are now providing the convenience and economy of electric refrigeration to the homes and stores of America. A careful analysis of Frigidaire value, from the standpoint of construction, finish, capacity, efficiency and economy, reveals at once the reasons why Delco-Light Company, Dayton, Ohio, subsidiary of General Motors Corporation, is the world's largest builder of electric refrigerators.

This modern 'ice man' calls once—with Frigidaire—and the ice stays always

The new metal cabinet Frigidaires are priced as low as \$245; Frigidaire mechanical units for installation in standard makes of ice-boxes are priced as low as \$190. Prices f. o. b. Dayton, Ohio. Any Frigidaire may be bought on the GMAC deferred payment plan.
