In May our suggestion was that you buy your next winter's Chicago Solvay Coke at the lowest price of the year. Now, after a slight advance in the price in all sizes, you are again informed that the price will advance from time to time until the fall burning season commences. Then winter prices.

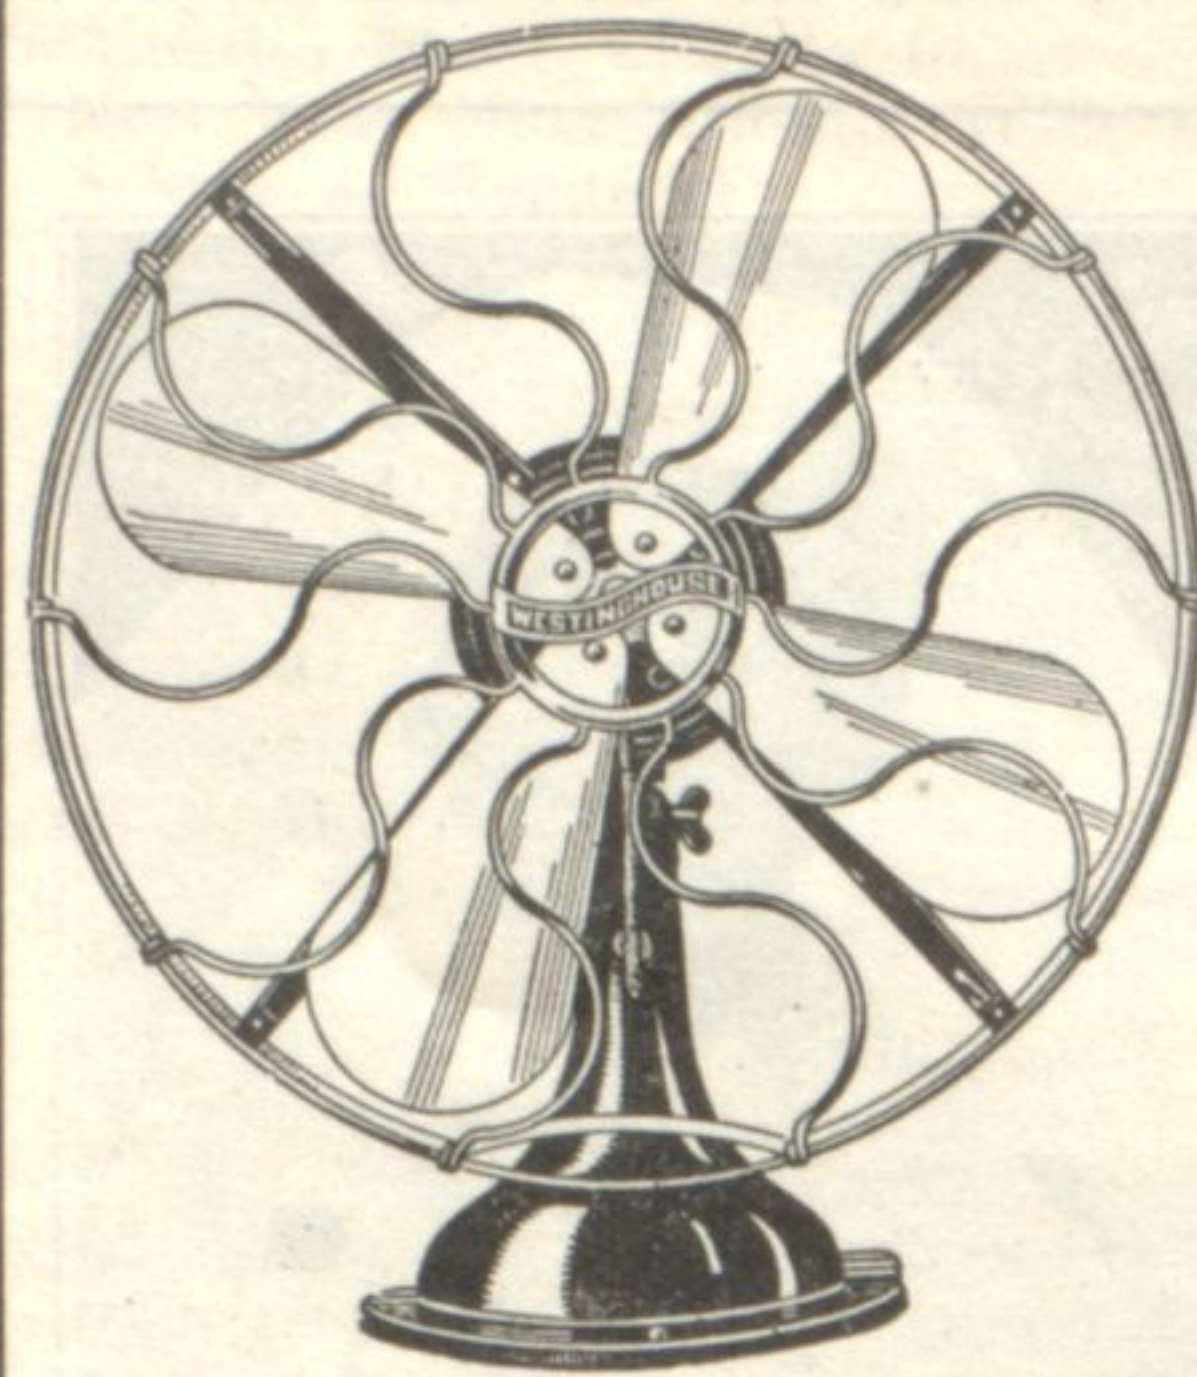

Chicago Solvay Coke is the dependable fuel for the home. No smoke, no soot, few ashes and 30% cheaper than hard coal make it by far the most popular fuel for hot air furnaces, hot water boilers and stoves. Phone your dealer. Fill your bin now at the low summer price. Your dealer will arrange to fill your bin at the most convenient time for you.
