# PRINTING of CHARACTER

Does your printed matter lend dignity to your business? It should if it is to be of value to you. It should above all show thought and care by the printer.

Poor printing is money wasted, good printing is of great value to the user because it signifies character.

*We do Printing  
That has Character*

### LOCAL POST OFFICE BUSINESS INCREASES

**Every Year for Past Four Years  
Has Shown Increase in  
Receipts**

The ending of the fiscal year in the Winnetka post office showing total receipts for the year of \$58,701.41, the highest in the history of the office, also maintains a ratio of increase which the Winnetka post office has enjoyed for several years past. Going back for a period of four years, the business for the fiscal year ending June 30, just past, is 80.70 per cent greater than that of four years ago.

The steady increase in Uncle Sam's business at Winnetka is not attributable to the addition of factories or industries, but to the natural growth in population which this favored section of the north shore enjoys.

Four years ago, Postmaster Elmer E. Adams found it necessary to double the space for post office purposes in the village. Today, he says the crowded condition is just as bad, or worse than it was four years ago, all due to the increase in business.

#### Receipts Increase

Today, 13 carriers are required, an increase in the carrier force, alone, in the four years, of six men. A regular parcel post man has also been added.

The receipts for the year ending June 30, 1922 were as follows: September quarter, \$6,658.32; December quarter, \$9,828.52; March quarter, \$7,836.33; June quarter, \$8,162.03. Total, \$32,485.20.

For the year ending June 30, 1923: September quarter, \$7,346.40; December quarter, \$11,887.09; March quarter, \$9,477.49; June quarter, \$9,518.79. Total, \$38,216.77.

For the year ending June 30, 1924: September quarter, \$8,698.38; December quarter, \$14,350.12; March quarter, \$10,998.58; June quarter, \$11,475.60. Total, \$45,522.68.

For the year ending June 30, 1925: September quarter, \$9,818.45; December quarter, \$16,688.32; March quarter, \$12,608.64; June quarter, \$12,666.91. Total, \$51,782.32.

For the year ending June 30, 1926: September quarter, \$11,952.19; December quarter, \$18,948.61; March quarter, \$14,142.79; June quarter, \$13,657.82. Total, \$58,701.41.

These figures show a gradual gain each year. The gain 1923 over 1922 was \$5,731.57; 1924 over 1923, \$7,305.81; 1925 over 1924, \$6,259.64; 1926 over 1925, \$6,919.09.
