

PHOTOGRS HOLD MEET

National Photographers' Association Will Hold Convention in Chicago Soon

The greatest exhibit of modern photography and accessories in history will be displayed in conjunction with the forty-fourth convention of the Photographers' Association of America, which will be held at the Coliseum in Chicago the latter part of August.

Every conceivable type of camera, from that dating back to years ago to the advanced, lightning-speed reproducer of today, will be featured by several concerns which have reserved floor-space at the exhibit, according to A. S. Hurter, director of the convention.

"Not only will this be the greatest photographic exhibit in history," said Mr. Hurter, "but it will also be the most complete and extensive showing of photographic work yet to be gathered under one roof. Many exhibitors have arranged for demonstrations of their products, not only of interest to those engaged in photographic work, but to the general public.

"Another unusual and interesting angle attending the exhibit and convention will be the huge number of women who are expected to be delegates. Heretofore women have not played an especially prominent part in photography—except as models—but during the past five years or so more women than ever before have entered the profession.

Expect Many Women

Commercial and portrait photography today is rapidly rising to be one of the chief outlets for business, and women by the scores have become photographers. We expect three hundred women delegates to the convention, and this will not represent one-half of those doing picture work."

An interesting side-light of photographic work will be in the form of a series of motion picture films to be thrown on a screen to be erected at the Coliseum, according to Mr. Hurter. This film will burlesque the average opinion of how a commercial photographer works and another portion of it will depict in reality the difficult problems to be solved. An excellent cast of actors has been assembled to portray the various characters.

Arrangements have been made by the convention committee whereby all of the 5,000 delegates to the Photographers' association conclave will have an opportunity to inspect the city and its numerous art centers at close range. Conducted tours, with visits to the Art Institute, Field Museum, Chicago Historical society, the public and other libraries and many other art and photographic centers will enable the visitors, representing every state in the union and many European countries, to see Chicago's artistic beauty. These tours will be open to all delegates.

TO TALK ON CHARACTER

"Character Education" will be the topic of the radio talk which Miss Edna Dean Baker, president of the National Kindergarten and Elementary college, will give over the radio Monday between 4 and 4:30. She will talk from station WMAQ (the Chicago Daily News). The address is one of the "Mothers in Council" program which is being given by Miss Baker once each month.

Mr. and Mrs. R. S. Cutler of Evanston announce the birth of a son, Richard Schuyler, Jr., July 15, at St. Francis hospital. Mrs. Cutler is the daughter of Dr. and Mrs. A. H. Wales of 385 Ridge avenue.

Tucked away in a little-known corner of Chicago is a city within a city. It is a city of eternal darkness—a blind colony of more than 2,000 persons, the largest of its kind in the world.

Dean Dennis Reads From 'The Philosopher's Stone'

Ralph B. Dennis, dean of the School of Speech, Northwestern university, who returned in June from a year's sojourn in Switzerland, read from "The Philosopher's Stone" Tuesday afternoon at the weekly faculty recital given at the School of Speech.

The weekly luncheon for members of the faculty and students at the

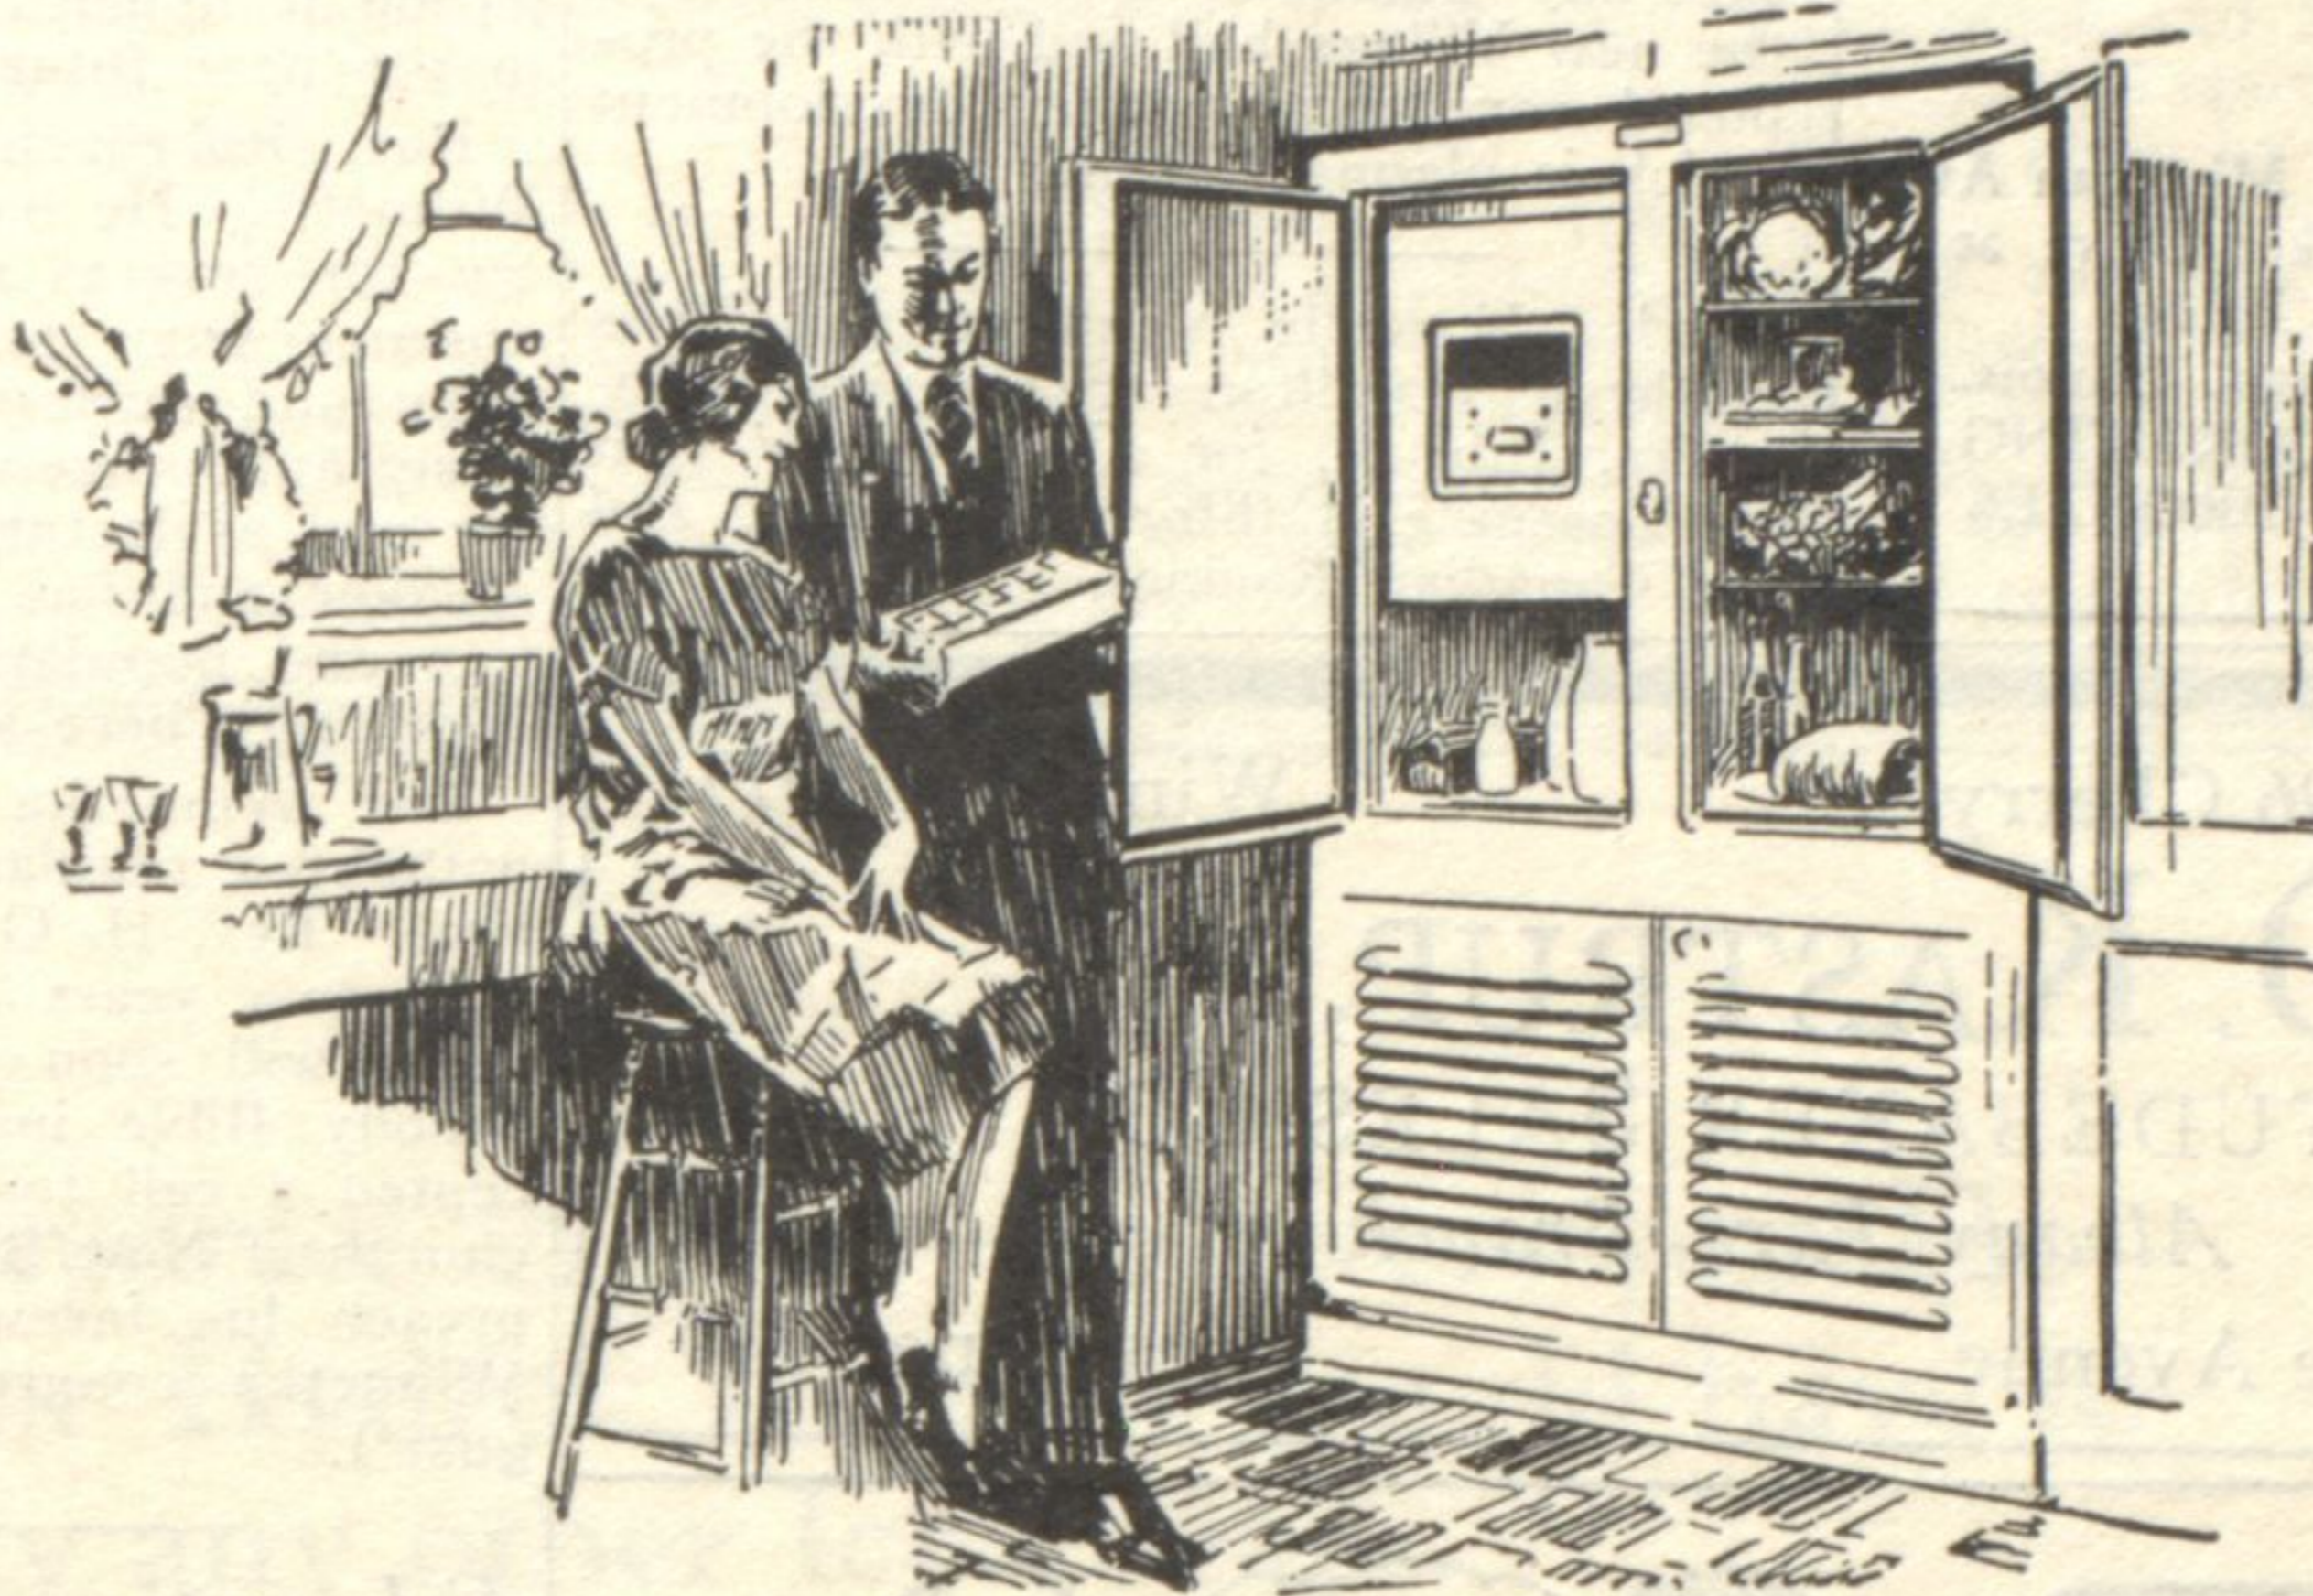

School of Speech was enjoyed yesterday at the North Shore hotel.

Today at 4, in Swift engineering hall, John Barnes, assistant professor of speech at the University of Wisconsin and member of the summer faculty at Northwestern university, will give a program of Scotch readings.

At 8:15 this evening, the weekly concert at the School of Music will take the nature of a student recital to be given by Archer Lambuth, organist, and J. Aldred Anderson, tenor.

Thieves Enter Beach House; Get Money, Watch

Thieves, thought by the police to be boys, broke into the beach house last Wednesday evening and stole \$5 in cash, which belonged to the beach, and a watch and fountain pen belonging to beach attendants. Entrance to the house was gained through a window, which the police found unhooked. The matter is being investigated and the offenders will be vigorously prosecuted when apprehended, it was announced.

Not until you have Frigidaire can you realize what it means

A careful analysis of Frigidaire value from the standpoint of construction, arrangement, finish, capacity, efficiency, and economy, reveals at once why Delco-Light Company, subsidiary of General Motors, is the world's largest manufacturer of electric refrigerators. More than 150,000 Frigidaires now in use.

Frigidaire will bring into your home an entirely new idea of refrigeration as a household convenience. Only when it is installed will you realize what it means to be independent of outside ice supply, to have all your foods kept so much colder, to have them kept in perfect condition for days or weeks at a time, to have always an ample supply of sparkling ice cubes, to enjoy delicious desserts frozen for you by Frigidaire.

We want to show you the beautiful new metal cabinet Frigidaires with their lustrous Duco finish and spotless porcelain enamel linings. Come in today. Or mail the coupon for complete information.
