Will Appoint New Plan Commission Officially Here

An ordinance officially appointing a Winnetka Plan commission was introduced at the council meeting held last Tuesday evening and will probably come up for passage at the next meeting, to be held Tuesday evening, August 17.

This action was taken at the request of Robert Wallace of the present Plan commission. The reason for officially appointing a commission by ordinance is that a body so appointed now has certain powers under a state law passed in 1921 to regulate development in territory contiguous to and not more than one and one half miles from the village limits.

It is the plan of Wallace and his associates on the Plan commission to control to a certain extent the layout of streets in new subdivision projects under way west of the village. The new body will consist of twenty members, two appointed from each ward, in addition to the village president and three other village officers.

Miss Kathleen Air and her mother, Mrs. Robert Air, of Evanston, left August 5 for the East. After visiting in Boston and New York, they will take the boat trip from New York to Norfolk, Va., where they will be joined by their cousin, Mrs. James J. Keekin, with whom they will motor to Cincinnati, Ohio. After visiting relatives in Kentucky and Ohio, they will return to Chicago about September 8, as Miss Air will open her studio on September 10.

Mrs. Mary Klauke, Mr. and Mrs. Frank Klauke and Roman Klauke are spending two weeks in Detroit, Mich., visiting Joseph Klauke, son of Mrs. Mary Klauke.
